SIMPLE RULES FOR ORDERING
BE SURE TO READ THIS PAGE

OUR CONSTANT AIM IS TO MAKE THE HIGHEST QUALITY THE FIRST CONSIDERATION, AND NEXT, TO PUT OUR PRICES AS LOW AS GOOD SEED CAN BE SOLD.

Next in importance to supplying the best seeds is the prompt and accurate filling of orders. To that end we ask the co-operation of our patrons. It will hasten forwarding materially, if they will kindly make up orders alphabetically, as the goods are offered in the catalog. This method is easier and is a safeguard against neglecting to order some item of importance. Seeds are put in compartments in our stores alphabetically, hence an order can be filled more quickly if it is made out in that manner.

CATALOG CHANGE—We have made one important change, which we believe you will like. We quote all seeds by pound instead of pint, quart, peck and bushel.

TESTED SEEDS. We test all of our seeds for both purity and germination and have a large electric tester, built according to the plans approved by the Government Department of Agriculture. The value of tested seeds to the buyer cannot be over-estimated. It is an assurance to you that the seed is full of vigorous life and vitality, and that if you plant under our instructions you will not be disappointed.

ERRORS. We exercise the utmost care in filling orders, striving to do a little more than we offer; yet in the press of business errors sometimes occur, in which event we wish to be promptly notified of the fact and will make such corrections as will be satisfactory. Errors made in printing this catalog are subject to correction. Please keep copies of all your orders for comparison.

OUR TERMS are cash with order. We cannot ship C. O. D. unless you remit at least one-fourth of the amount of the order. It always costs you extra for goods to come that way. We will take your personal check, but will hold order till banks report checks paid. Better send us draft, Money Order, or Reg. S. Letter. We always refund your money if we cannot fill order.

MARRIED WOMEN will save confusion in correspondence by using husband’s initia’s.

HOW WE SHIP. We ship all heavy goods by freight at your expense, unless otherwise instructed. We send you duplicate bill of lading, showing date, number of bags sent, and route. All plants and perishable goods are sent only by express at your expense, unless quoted “prepaid,” in which case we send by mail or prepaid express, and notify you.

SAFE ARRIVAL. We guarantee all goods except sweet potatoes to arrive safely and will refund you for any loss, providing you have Agent make notation of such loss on expense bill and return it to us. This applies on Irish potatoes if time of shipment is left to our judgment.

We also guarantee all seeds that we send out at catalog prices to be carefully selected and tested. We are always pleased to make good any mistake, but all complaints must be made within 15 days from receipt of goods. On account of weather conditions, etc., we cannot guarantee the crop. You can have the Experiment Station test any of our seed and if not satisfactory will take it back and refund to you.

OUR RESPONSIBILITY. We have been in business here for 31 years. We would be pleased to have you write (enclosing stamp) any bank or business firm here in Lincoln as to our standing.

LARGE ORDERS. Any market gardener, association, or individual requiring large quantities of seeds, are invited to write for special prices. Although we have made our prices in this catalog very low, yet when a considerable quantity in pounds or bushels is wanted, we are in a position to supply at a lower price than by the single pound or bushel. We wish it to be distinctly understood, however, that we will not sacrifice quality in so doing. Mail us a list of your wants, and we will submit to you our lowest cash price for the lot.

FALL CATALOG. Our fall catalog will be ready about July 1. It is brimful of seasonable seeds, plants and bulbs to plant during the summer and autumn months. Don’t fail to write for a copy if you do not receive one.

ORDERS WITHOUT MONEY OR ADDRESS. Always give Post Office address when writing about orders. Every year we get hundreds of orders from our customers unsigned. We have at present on our files a number of orders for various amounts, which we are unable to send out as we do not know where to forward them. Every day or so we get a long letter of complaint from some customer, upbraiding us for not sending his seeds promptly. Then we get busy with this file and endeavor to locate the order. Often it is a hard proposition. So, if you do not hear from us within a reasonable length of time after you mail your order, send us a duplicate order, naming the date on which the former order was sent, the amount of money enclosed, and in what form. We want to satisfy you and don’t want to complain about our service—if we can help it.

NON-WARRANTY. Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we still give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop, and every order for articles named in this catalog will be executed on these conditions only. If that, however, be plain to everyone who gives the matter the slightest thought, that it is to our best interests to send out only such stock as will not only grow but prove true to name and description.

FREE SAMPLES. We are always too glad to send you free samples of Corn, Grass, and other Field Seed, for testing purposes. You are not imposing on our good nature when you ask us to send you these samples, for we know the quality of the samples will bring us your big order.
Dear Friends and Customers:

In issuing our catalogue for 1921, the 31st annual, we take advantage of the occasion to thank our old customers for their friendship, loyalty and patronage during the past year and to express the hope that it will be continued. The greatest asset we have is the good will of satisfied customers, but it is to prospective buyers we largely address this portion of our remarks, begging the indulgence of our old customers. With hundreds of illustrations from photographs and carefully written descriptions this book is a SAFE GUIDE to success in the garden, and should be consulted by every one who plants seeds, either for pleasure or profit.

As many people are sometimes at a loss to know just what varieties to select we have tried to make our descriptions and illustrations plain and truthful in every instance, and have arranged some Special Collections of both Garden and Flower Seeds, which we feel sure will be helpful to our customers.

In purchasing seeds the first consideration should be quality, for without this, good seed beds are of no avail, and time, labor and money are lost. This year we have painstakingly persisted in maintaining, improving and developing our stocks. Our seeds are grown in the favored seed sections all over the United States, and some in Europe, thus assuring you seeds of the strongest germination and vitality. We are trying, if possible, to be even more accurate in testing every lot of seed that goes out of our warehouse or into our packets, having installed an expensive and up-to-date new seed testing and analyzing laboratory. Under no consideration do we allow any seeds to leave our establishment unless we know their source of origin and a satisfactory test obtained.

Again thanking our many thousand customers in advance for their orders, and soliciting a trial order from our new friends, assuring them no order will be too small, no trouble too great to merit our most appreciative and careful attention, we are,

Yours for better service,
GRISWOLD SEED & NURSERY CO.

SPECIAL OFFER
Just For You
CASH PRIZES

Have you a Camera or Kodak? If you have, here is a chance to make some money. We like to have pictures of fruits and vegetables that come from our house and offer the following cash prizes: $3.00 in cash for the best picture; $2.00 for the second best; $1.00 for the third best; 50c each for the next five. Prizes will be paid in October.

This is our warehouse where we clean and store the immense seed stocks that are required to fill your orders.
SPECIAL OFFER

We offer these seven new and high priced varieties in the

Bon-Ton Collection

80c VALUE FOR 65c POSTPAID

Baltimore Baer

Baltimore Baer Tomato is a cross between two of our best tomatoes, John Baer and Greater Baltimore. Baltimore Baer Tomato is a beautiful brilliant red; it is of perfect shape and free from core. The fruit is firm, solid and heavy, crowded full of delicious meat, the flavor is distinct, mild, refreshing and delicious entirely free from any stinging or biting acidity. It ripens perfectly right up to the stem and is smooth at both ends, is free from wilt and blight.

Baltimore Baer Tomato ripens a little later than John Baer Tomato, but earlier than Greater Baltimore; is a marvelous yielder producing heavy crops of fine fruit when other varieties are complete failures.

Price: Pkt., 25c; 1/2 oz., $2.75; oz., $5.00; 1/4 lb., $16.50 postpaid.

Gold Lined Rocky Ford

This strain of the Eden Gem type is the result of several years’ selection by one of the most progressive farmers of Rocky Ford, Colo. Its shape is ideal, very slightly oval, no ribs, and it is heavily netted over the entire melon. It is thick matted, fine grained and sweet; color green with a gold margin next to the seed cavity. Price: Pkt., 5c; oz., 50c; 1/4 lb., 50c; lb., $2.00; postpaid.

Perfectly Satisfied

Gentlemen—Your seeds were received today, the 3rd of March, and I am very much pleased and perfectly satisfied with this collection.—A. E. BLACKBURN

Golden Evergreen

A cross between Golden Bantam and Stowell’s Evergreen and a most excellent sort of fine quality. Ears 8 inches long, 12-rowed; matures with Howling Mob; grain rather broad and deep, and of a rich golden-yellow color. Price: Pkt., 20c; lb., 40c; postpaid.

THERE ARE MANY SPECIAL OFFERS IN THIS CATALOG, IT WILL PAY YOU TO READ IT CAREFULLY.
At last we have found a good forcing radish, which is also very fine for outdoor culture. In repeated trials the Saxa has been found to reach a remarkable size three days earlier than any other forcing variety. The radish at maturity is about ¾ the size of Early Crimson Globe. The roots are round or ball shaped; color deep fiery scarlet with no tinge of purple. Price: Pkt., 10c; lb., 50c; postpaid.

The Lincoln Pea is an early variety, growing from 1 to 1½ feet in height; the pods are of good size, dark green in color and always well filled. We have tested it against the best varieties of Dwarf Peas, and it has proven the most productive of all, the pods being heavy and producing a greater weight of shelled peas to the peck.

The Lincoln Pea with its abundance of heavy, well-filled pods of such excellent quality have made it a leading market growers variety. Anyone planting peas should by all means plant The Lincoln Pea. Price: Pkt., 10c; lb., 50c; postpaid.

Sure Crop Stringless Wax

A most prolific cropper and of superlative quality. The handsome, rich yellow pods are slightly curved, averaging six to seven inches in length, almost round, half an inch wide, very meaty and sweet, and perfectly stringless at all stages. The habit of the plant is freely branching, but perfectly sturdy and upright, every branch carrying a heavy crop of the magnificent pods.

Price: Pkt., 10c; lb., 50c; postpaid.

An extra early melon of excellent quality. The fruits are exceptionally large for so early a variety, slightly oval with irregularly mottled broad stripes of light and dark green. The flesh is bright red, sweet and tender-seeded black. The vines are vigorous and productive. One of the best varieties for northern latitudes. Price: Pkt., 5¢; ¼ lb., 25¢; lb., 75¢; postpaid.

Remember!

These seven best varieties of vegetables as listed on pages 2 and 3 and as shown on the front cover can be had for only 65¢ postpaid.

Order Early!
The seeds we offer are the result of 30 years' experience in seed growing, and represent the best the earth produces. We list only varieties of real merit which can be depended upon for best results. All our garden seeds are offered at the lowest price possible consistent with our high quality. We are withdrawing all previous discounts on packets and ounces, and hereafter will list all our seeds at the following net prices:

**Discount on Seeds in Packets**

Any 6 of our large 5c packets for 25c; 13 for 50c; and 28 for $1.00.

Three 10c packets, your choice, for 25c, postpaid.
Six 10c packets, your choice, for 45c; postpaid.
Twelve 10c packets, your choice, for 90c; postpaid.

Four 15c packets, your choice, for 50c, postpaid.
Six 15c packets, your choice, for 75c, postpaid.
Twelve 15c packets, your choice, for $1.25; postpaid.

These prices do not include special collections of garden seeds, from which no further reductions can be allowed. Prices on all seeds in ounces, quarter pounds, pounds, and all quantities larger than packets are absolutely net; no discounts can be allowed.

**ALL GARDEN SEEDS QUOTED IN THIS CATALOG EXCEPT PAGES 28 AND 29 ARE POSTPAID. FOR QUANTITY PRICES NOT POSTPAID, SEE PAGES 28 AND 29.**

- 1 " Onion, Danver's Yellow Globe.
- 1 " Cabbage, All Season.
- 1 " Corn, Howling Mob.

Regularly sells for 70c. You get it for 50c.

---

## Asparagus

Sow in March or April, in good mellow soil, after soaking the seed 24 hours in warm water, in drills one foot apart, and one inch deep. During the summer keep the soil mellow and free from weeds, thinning the plants to 4 inches apart. The following spring transplant into permanent beds that have been deeply dug and highly manured.

- **Conover's Colossal**—A mammoth, green sort of the best quality. Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.
- **Palmetto**—An early, green sort, prolific and very desirable. Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.
- **Barr's Mammoth**—An early, large-stemmed, green variety. Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.
- **Columbian Mammoth White**—Produces white stalks of large size and finest quality. Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

---

## Asparagus Roots

The ground should be well manured and deeply spaded, the roots planted 2 feet apart, 1 foot apart in the row, and at least 6 inches deep. These will be ready to use in 2 or 3 years. 25c per doz.; 50 for 75c; $1.35 per 100; postpaid. 20c per doz.; $1.35 for 100; by express at your expense.
Beans

Earliest varieties, ready for table in 40 days; 1 pound to 10 feet of drill; ½ bushel per acre.

The soil best adapted to beans is a light, rich, well-drained loam, which was manured for the previous crop. Beans are extremely sensitive to both cold and wet and it is useless to plant them before the ground has become dry and warm. The largest returns will result from planting in drills from two to three feet apart and leaving the plants two to six inches in the row. Up to the time of blossoming they should have frequent shallow cultivation. Never hoe when the vines are wet, as the pods will rust and become discolored. For succession plant every two weeks.

BUSH OR SNAP BEANS

Wax or Yellow Pod Varieties

ADHILAL TOGO—This grand bean is a wax podded sort with wonderfully handsome and attractive pods averaging 6 inches in length and of an unusually desirable shade of yellow. The table quality is delicious. This sort is usually free from rust and other diseases. Its extreme earliness is also a valuable characteristic, coming as it does, only about three days behind Extra Early Red Valentine. Price: Pkt., 5¢; lb., 35¢; postpaid.

BLACK WAX—A popular variety; pods a waxly yellow, solid, tender, almost transparent, stringless, seeds when ripe jet black. Price: Pkt., 5¢; lb., 35¢; postpaid.

GOLDEN WAX—A standard sort. One of the earliest beans in the market. The pods are of large size, very thick and fleshy. The quality is tender and crisp; the color is rich golden-yellow. Price: Pkt. 5¢; lb., 35¢; postpaid.

CURRIE’S RUST PROOF WAX—The vine is a vigorous grower and about the hardiest of the wax sorts. Very early, bearing an abundance of handsome yellow pods of excellent quality and delicious flavor. The pods are straight and oval-flat, 5 to 6 inches long, and practically rust proof. Seed is of black color. Price: Pkt., 5¢; lb., 30¢; postpaid.

DWARF GREEN POD BEANS

BURPEE’S NEW STRINGLESS—One of the best stringless green-podded beans in cultivation. The pod is round, full, large and straight. Price: Pkt., 5¢; lb., 30¢; postpaid.

GIANT STRINGLESS—This extra early variety is exceedingly productive, bearing round green pods 6 to 7 inches long, very hefty. Price: Pkt., 5¢; lb., 30¢; postpaid.

IMPROVED RED VALENTINE—Early and prolific. Pods are remarkably fleshy and tender, and remain a long time without becoming hard. Price: Pkt., 5¢; lb., 30¢; postpaid.

LITTLE WONDER NAVY—Valuable for field culture; very prolific, excellent dry bean. Price: Pkt., 5¢; lb., 30¢; postpaid.

LONG YELLOW SIX WEEKS—Very early and a good yielder. Grows erect and bushy, producing edible pods 50 days after germination. The pods are long, flat and straight. A standard sort and excellent snap bean. Very popular among market gardeners. Price: Pkt., 5¢; lb., 30¢; postpaid.

For Market Gardeners Prices See Pages 28 and 29
DWARF GREEN POD—Continued

REFUGEE (Thousand to One)—Exceedingly heavy cropper, highly esteemed for late planting. Pods long, cylindrical, light green; of good quality as snaps, mild in flavor. Price: Pkt., 5c; lb., 30c; postpaid.

WHITE TEPARY—A drought-resisting bean, raised by the Indians of Arizona. The beans are white in color, similar to the White Navy but smaller and far more productive. They are used as a shell bean, cook well and are of delicious flavor. It is a variety that produces wonderful crops with less moisture than any other bean. Price: Pkt., 3c; lb., 30c; postpaid.

WHITE MARROW—A very heavy yielder and quite free from rust. Vines large, slender, spreading, with short runners and small leaves; very prolific; pods broad, green, changing to yellow; seed large, about twice the size of the white navy bean, oval, clear white, cooking very dry and mealy. Price: Pkt., 5c; lb., 30c; postpaid.

YARD LONG—A great curiosity but withal an excellent variety. Produces pods fully three feet long. Splendid for use in the green state as the pods are tender and of fine flavor. Price: Pkt., 10c; Mammoth Pkt., 25c; postpaid.

POLE BEANS

One quart to 200 hills

These are more tender than the Dwarf Beans, and planting should be delayed about a week longer. Set a stout stake about 8 feet long firmly in the center of each hill, leaving four plants to a hill.

CUTSHORT (Corn Hill)—A standard sort for planting among corn. It will yield a good crop without the use of poles. Beans nearly oblong, cut off at ends, white with reddish-brown spot. Price: Pkt., 5c; lb., 35c; postpaid.

DUTCH CASE KNIFE—An early corn hill bean. Pods very long and flat; beans flat, kidney-shaped, white, of excellent quality, green or dry. Price: Pkt., 5c; lb., 35c; postpaid.

EARLY GOLDEN CLUSTER WAX—Begins bearing in July, continuing to produce abundantly until frost, large clusters of golden yellow pods 6 to 8 inches long and of delicious flavor. Valuable either as a shell or snap bean, white seed. Price: Pkt., 5c; lb., 35c; postpaid.

OLD HOMESTEAD OR KENTUCKY WONDER (60 days)—This old variety is well known to everyone. It is still one of the best Pole Beans. Vine vigorous, very productive, bearing its pods in clusters; pods green, very long, often reaching nine or ten inches, nearly round and very crisp. Ten days earlier than any other green-podded pole bean. Good market sort. Price: Pkt., 5c; lb., 35c; postpaid.

DWARF OR BUSH LIMA BEANS

The Bush Limas are quite desirable for the garden, as their cultivation does away with poles. These should be planted edge-wise with the eyes down and two inches deep. Plant June 1.

HENDERSON’S BUSH LIMA—Grows in compact bush from about 18 inches high. The beans are small in size but of delicious flavor and great productiveness and about two weeks earlier than the others. Price: Pkt., 5c; lb., 35c; postpaid.

BURpee’S BUSH LIMA—A dwarf or bush form of the true large Lima which is of great value. They grow from 18 to 20 inches high, of stout, erect growth, yet branching and vigorous; an immense yielder, bearing a handsome large pod, well filled, makes excellent green shelled beans. Price: Pkt., 5c; lb., 35c postpaid.

GRISWOLD’S BEAN COLLECTION NO. 2

15¢ POSTPAID

Four of our best beans for home gardens are our Stringless Green Pod, Wardwell’s Kidney Wax, Old Homestead or Kentucky Wonder Pole Bean and Henderson Bush Lima. We will send you by mail one 5-cent packet of each of these 4 varieties postpaid for 15c. This is your chance to have these 4 splendid varieties at the lowest cost.
BEETS

PRICE OF ALL BEET SEED SHOWN ON THIS PAGE: Pkt., 5¢; 
1 oz., 10¢; ½ lb., 35c; 1 lb., POSTPAID

One ounce is 150 feet of drills; 5 to 7 lbs. to acre in drills. The early turnip varieties are ready for the table in from 50 to 60 days from sowing of seed. The best results are obtained on a rich, sandy loam, in freshly prepared soil, which should be pressed firmly over the seed. In cold weather, sowing can be done 24 hours before planting.

ARLINGTON BLOOD TURNIP—A dark-red variety, following Eclipse in maturing; perfectly round, blood-red, excellent quality, and good for winter; does not become stringy and is tender at all times.

BEST EARLY BLOOD TURNIP—A favorite early variety. Roots turnip-shaped, dark red, fine flavor, tender and sweet. Good for winter.

COLUMBIA—Extra early, also one of the finest main-crop beets for market or home garden. Roots are turnip shape, 3 or 4 inches in diameter, deep through, smooth and entirely free from small rootlets. Flesh deep blood-red, tender and of rich flavor.

CRIMSON GLOBE—Early, of medium size, uniformly round; color deep crimson root; the color extends to the flesh; excellent quality, and good keeper.

CROSBY'S EARLY EGYPTIAN—An improved strain, of the Egyptian: skin and flesh are dark red, roots smooth, round, fine quality, extra early.

DETROIT DARK RED TURNIP—A grand beet for bunching for market, and for the home garden. Tops small, roots globular, skin smooth, dark blood-red, flesh bright, crisp, tender, sweet.

DEWING'S EARLY RED TURNIP—Of good form and flavor. Flesh and top deep blood-red; excellent for early or winter use. Smooth and handsome.

EDMUND'S BLOOD BEET—A handsome, clean, turnip-shaped blood Beet. Skin and flesh are of a deep blood red, sweet and tender in quality and unsurpassed for solidity and keeping purposes. The roots grow regular and are of right marketable size. Tops small, allowing them to be grown close together. They mature early and give every satisfaction as a bunching sort.

WOODRUFF'S EARLY WONDER—A very early beet. Early. Has a very small tap root and fine deep color. It matures very evenly so that it can be pulled within a few days after you begin pulling the crop. It is said by market gardeners to be the earliest beet in existence. The foliage is very small.

EARLY MODEL—A perfect globe in shape with a small tap root. The color of the flesh is equal to that of the best beet in existence. The foliage is very small. The beets are always smooth and of the deepest blood color; while the flavor quickly attains a good size.

ECLIPSE—An extra early variety with round, smooth, blood-red roots. Matures very early and is popular both for market and home use.

Stock Beets are listed on page 31.

Brussels Sprouts

Matures 140 to 150 days from seed

Brussels Sprouts are miniature cabbages formed on the bush. The heads are small and compact, the leaves being close and small. They are excellent for table use.

Griswold's Choice Vegetable Plants

We grow these in large quantities and also contract with careful hotbed growers to guard against failures.

Broccoli

The culture is the same in all essentials as for cauliflower, in fact it is a good deal like cauliflower. It is grown most successfully where the season is long, cool, and rather moist. One of the most valuable features is that it withstands greater extremes of temperature than cauliflower.

NEW WHITE CAPE—A very desirable variety. It has medium sized heads, close and compact, and of a beautiful creamy white color. A sure header. Price: Pkt., 5¢; oz., 50¢; ½ lb., 1.00; postpaid.

Prices of vegetable plants subject to change.

$1.00 per doz.

60¢ per doz.
Cabbage

One ounce to 5,000 plants; 2 ounces to transplant an acre. Ready for table in from 100 to 108 days from seed, according to varieties.

FOR CABBAGE PLANTS SEE PAGE 7

For early summer use sow in hotbed in February or March. Before transplanting to the open ground they should be hardened off by exposing them gradually to the night air. For winter use sow in open ground in May or June, taking care in either case not to let the plant stand too closely, as this makes them "spliniding." When five or six inches high, transplant in rows two feet apart one way, and 12 to 18 inches the other way, according to variety, burying to the first leaf, whatever the stem length. Hoe frequently drawing the earth up about the plants until they begin to head.

EXTRA EARLY VARIETIES

COPENHAGEN MARKET—Best early flat-headed cabbage. The illustration is a good representation of a splendid new early cabbage, one of our customers should not overlook. It is the earliest large round flat headed sort. The ripening is early and uniform all maturing at one time and almost with Early Jersey Wakefield (oblong head). Considering its early season, the heads are remarkably large, averaging 10 pounds in weight. Pkt., 5c; ½ oz., 20c; 1 oz., 35c; 2 oz., 50c; ½ lb., $1.00.

EXTRA EARLY EXPRESS—The earliest variety in existence and produces rather small heads long before the Jersey Wakefield or other varieties have begun to head up. Heads solid, have few outside leaves, and can therefore be planted very close and yield a large crop. It is a most important variety for the gardener. Price: Pkt., 5c; oz., 25c; ½ lb., 55c; postpaid.

EARLIEST ETAMPEE, Earliest of All—Extremely early, with small, quite solid, pointed heads; excellent quality. Price: Pkt., 5c, oz., 25c; ½ lb., 75c; postpaid.

SECOND EARLY or SUMMER VARIETIES

EARLY DRUMHEAD—A fine strain; of dark bluish-green color, plant very hardy, compact, flat head. Price: Pkt., 5c; oz., 20c; ½ lb., 65c; postpaid.

EARLY DUTCH FLAT—An early cabbage of good size. Heads are flat and very solid. Price: Pkt., 5c; oz., 20c; ½ lb., 65c; postpaid.

EARLY SUMMER—Deservedly popular with market gardeners throughout the country. It forms large, solid, round, flattened, compact heads of excellent quality, tender and sweet. The heads average over double the size of the Jersey Wakefield weighing eight to ten pounds each, while it matures only ten or twelve days later. Price: Pkt., 5c; oz., 25c; ½ lb., 65c; postpaid.

ALLHEAD EARLY—Earlier than any other large cabbage, larger than any other early cabbage. Heads deep, flat, solid upright heads. Very tender owing to its rapid growth. An all-the-year cabbage. We consider this one of the best second-early sorts on our list. Price: Pkt., 5c; oz., 25c; ½ lb., 65c; postpaid.

ALL SEASONS (Vandergrau)—This excellent sort is early, maturing in a week or ten days after All Head Early; makes larger and harder heads than that sort, averaging ten to fifteen pounds in weight. Truly an all-season variety. Price: Pkt., 5c; oz., 25c; ½ lb., 65c; postpaid.

FOR MARKET GARDENER'S PRICES SEE PAGES 28 AND 29.
Carrots

One ounce to row 100 feet long, 3 lbs. per acre. Ready for table in from 95 to 120 days from seed, according to variety.

Any good land if thoroughly and deeply worked, will produce satisfactory crops. Sow as early as the ground can be worked, sow the smaller kinds in rows 10 to 15 inches apart. For field culture sow in drills 18 to 24 inches apart.

CHANTENAY—The market gardener's and trucker's favorite. It is an early, very productive, long, stump-rooted variety, smooth-skinned, fine in appearance and entire coreless. It is pulled very easily. The color is a rich orange and the texture and quality are unsurpassed. The finest of all sorts, and it is undoubtedly the best bunching carrot for early market use.

DANVER'S HALF LONG POINTED—A half long orange carrot, grown largely on account of its great productiveness and adaptability to all classes of soil. Roots six to eight inches long, tapering uniformly to a blunt point. Flesh deep orange and tender and of good quality. Although the roots of this variety are comparatively short they often produce as large a bulb as the longer field sorts and are more easily harvested.

EARLY SCARLET OR SHORT HORN—One of the most popular varieties grown; color deep orange; flesh fine grained and of agreeable flavor; tops small; has a short stump-shaped root. Grows well in shallow soil one of the best for early outdoor planting and for table use.

HALF LONG STUMP ROOT—The tops are of medium size, roots deep orange, large, tapering to a dull point. Smooth, crisp and tender.

HALF LONG SCARLET NANTES—The leaves are fine, the roots are almost cylindrical, very smooth, of good shape and size, and about six inches long; the flesh is red and very sweet. They are easily pulled and keep well. A most excellent sort.

IMPROVED LONG ORANGE—The roots grow uniform and smooth, 8 to 10 inches long, of large size and deep, rich orange color. It is a good keeper and of fine quality for table use, also highly nutritious for stock. A heavy yields, best late carrot.

OX HEART or GUERANDE—A thick carrot, five inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep orange color and is a variety we can recommend to all market gardeners.

Price of All Table Carrots, Pkt., 5¢; oz., 10¢; ¼ lb., 25¢; postpaid.

CARROTS FOR STOCK

Sow 4 to 6 lbs. to the acre in April or May

These are undoubtedly the most valuable of all the roots usually grown for stock. They are more nutritious than turnips and nearly all animals like them and are benefited by them.

LARGE WHITE BELGIAN—Grows one-third out of ground. Roots pure white, green above ground with small top. Flesh rather coarse. The roots grow to a large size. Price: Pkt., 5¢; ¼ lb., 20¢; lb., 75¢; postpaid.

LARGE YELLOW or VICTORIA—Largest, heaviest cropping and most nutritious variety in cultivation; roots fine, of light orange color, and possessing high feeding properties; good keeper. Price: Pkt., 5¢; ¼ lb., 20¢; lb., 75¢; postpaid.

Cauliflower

These need a deep, rich moist soil, and require the same treatment as cabbages. For early summer varieties, seed should be sown in hotbeds early in March, transplant when weather is warm. For late or autumn varieties, sow in March or April, transplant in June. Hoe often.

DANISH GIANT (Dry Weather)—The merits of this first class cauliflower is recognized by its increasing popularity. The crop is 2 or 3 weeks earlier than the Earliest Erfurt. The heads are pure white and of fine quality. The plants are less affected by dry weather than any other variety, making it very valuable for dry sections. Price: Pkt., 5¢; ½ oz., $1.25; oz., $5.00; postpaid.

EARLY SNOWBALL (Early Selected)—This very superior strain is noted for producing plants of dwarf habit, short, compact growth, and uniform shape. It is extremely hardy and one of the surest to make a solid head. For forcing or planting in open ground no other variety can surpass it. Good for early second early, and late planting. Price: Pkt., 5¢; ¼ oz., $1.35; oz., $2.50; postpaid.

For Market Gardeners Prices See Pages 28 and 29
Sweet Corn being liable to rot in cold wet ground should not be planted before May, or until the ground is warm; planting too soon.

**ARISTOCRAT (The Peer of all Sweet Corn)—**This delicious sweet corn was first introduced a few years ago. It is a very reliable sort and an extra early variety; stalks grow 4 to 6 ft. high and ears of large size. Grains are extremely sweet and, being broad, allow of easy scoring with the knife preparatory to buttering when eating from the cob. Price: Pkt., 5c; lb., 30c; postpaid.

**EARLY CHAMPION—**Only a few days later than the extra early, bearing large, handsome, twelve-rowed ears. Deep, white, plump, grains of milky tenderness and very sweet. Very productive. Price: Pkt., 5c; lb., 30c; postpaid.

**EARLY EVERGREEN—**This is a very popular Sweet Corn. It is in the second early class, comes to maturity fully ten to twelve days earlier than Stowell’s Evergreen and yields large, handsome ears of most delicious flavor. It has a ready sale in the market on account of its handsome appearance and earliness. Price: Pkt., 5c; lb., 30c; postpaid.

**EARLY MINNESOTA—**One of the best early sorts for the market or private garden. Stalks four to five feet high and bearing one or two long, eight-rowed ears kernels very broad, sweet and tender, not shrinking much in drying. Price: Pkt., 5c; lb., 30c; postpaid.

**EXTRA EARLY PIGEON—**A real Sweet Corn as early as Aristocrat. Large, sweet and tender. Plant early, as it will stand some frost. Price: Pkt., 5c; lb., 30c; postpaid.

**GOLDEN BANTAM—**Extremely hard, can be planted earlier than any other true sweet corn, thus producing the earliest supply. Ears 6 inches long, with 8 rows of grains, which are a golden yellow when ready for use. Can be planted thickly, and every stalk should have from 1 to 3 perfect ears. Price: Pkt., 5c; lb., 30c; postpaid.

**HOLYLING MOB—**Its peculiar but apt name refers to the vociferous demand for the ears when the originator, Mr. Keller, took them to market. The stalks are of strong, vigorous growth, 4 1/2 to 5 feet in height, have abundant foliage and generally produce two fine ears to a stalk. The ears measure from 7 to 9 inches in length with twelve to fourteen rows of good sized pearl-white grains. Price: Pkt., 5c; lb., 30c; postpaid.

**MAMMOTH SUGAR—**Produces the largest ears of any sort; excellent quality, sweet, tender, delicious; late variety. Price: Pkt., 5c; lb., 30c; postpaid.

**MAMMOTH WHITE CORY—**Nearly as early but larger than Early Cory. The ears are 12 rowed; grains are broad, very white and of excellent quality for an early sort. Price: Pkt., 5c; lb., 30c; postpaid.

**PEEP O’DAY—**The two points of this new corn are its extraordinary earliness and sweetness. It is also very productive, the stalks bearing from two to five ears, are very dwarf, which admits of their being planted close together. Price: Pkt., 5c; lb., 30c; postpaid.

**STOWELL’S EVERGREEN—**The standard main crop variety. It is hardy, large growing and productive, very tender and sugary, remaining a long time in condition suitable for boiling. Price: Pkt., 5c; lb., 30c; postpaid.

**PAPAGO SWEET CORN—**We call it Papago because a few kernels were found several years ago on the Papago Indian Reservation south of Tucson, Arizona, it thrives well on hot and grows and produces admirably in an arid section. The stalks grow to a height of about 7 feet, and each one produces from two to four well-filled ears of the sweetest and most delicious corn one ever ate from a cob. In hot, dry sections it will outyield all varieties of Sweet Corn nearly 10 to 1. Price: Pkt., 10c; lb., 40c; postpaid.

**POPCORN—**See page 98.

For your convenience in ordering we have made up a number of Seed Collections. You will find them in different places in the Seed Department. If you wish a collection just order by number.
Cucumbers

One ounce to 50 hills; 2 to 3 lbs. to the acre. Earliest variety ready for table use in 50 to 55 days from seed. Main crop in 65 to 75 days.

As soon as the weather becomes settled and warm, plant in hills 4 to 6 feet apart each way, with 8 or 10 seeds in a hill cover half an inch deep, smoothing the hill off with the hoe. Keep the soil well stirred, and when the plants are out of danger of insects leave 3 or 4 plants to a hill.

**BOSTON PICKLING or GREEN PROLIFIC**—One of the best pickling varieties; dark green, tender, crisp and productive.

**DAVIS PERFECT**—This cucumber has the merit of being not only a first-class variety for forcing under glass, but is equally good for outdoor culture. The color is dark, glossy green; in shape it is smooth and symmetrical with an average length of ten to twelve inches. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

**EARLY CLUSTER**—A short pale green variety; fruit borne in clusters near the root, containing few seeds. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

**EARLY FRAME or SHORT GREEN**—Excellent for table use and for pickling. Fruit, straight, smaller at each end; bright green, flesh tender and crisp. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

**EVERBEARING**—Small, very early and productive; solid, few seeds and of fine quality. It continues to bear until frost. Price: Pkt. 5c; oz., 10c; ½ lb., 25c; postpaid.

**IMPROVED JERSEY PICKLING**—A standard small variety, dark green, tender, crisp, productive, of fine flavor and uniform size. Price: Pkt., 5c; oz., 10c; ½ lb., 25; postpaid.

**IMPROVED EARLY WHITE SPINE**—For forcing it is preferred to all others. Flesh tender and crisp. Fruit uniform in size, straight and light green, with a few white spines. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

**IMPROVED LONG GREEN**—A well-known standard, main crop variety, about 9 inches long, of excellent quality, and makes the best of pickles. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

**LEMON CUCUMBERS**—A new kind of cucumber, called the "Lemon." It is similar in color and shape to a lemon, hence its name. Its flavor is delicious and it is never bitter. Excellent for pickling—we know of none equal to it; used in salads and when quite small is often eaten like radishes. Price: Pkt., 5c; oz., 10c; ½ lb., 45c; postpaid.

Celery

One ounce to 3,000 plants or 200 feet of drill.

Sow the seed (which is slow to germinate) in shallow boxes or hotbed, cover the seed not too deep. Keep the bed moist, almost wet, until the seeds germinate. When about four inches, thin out and transplant so that they may stand three inches apart, when the plants are four inches high, cut off the tops, which will cause them to grow stocky. The essentials to success in celery growing are rich soil and plenty of water. The best results are usually obtained from setting about the middle of June or the first of July.

**CELERIAC GIANT PRAGUE**—The roots of this celery are turnip-shaped, large and smooth; are almost round and with a very few side roots. Sweet and tender and may be cooked like turnips or eaten like radishes: used largely for seasoning meats and soups. Price: Pkt., 5c; oz., 20c; ½ lb., 65c; postpaid.

**GIANT GOLDEN HEART**—This variety attains a large size, is not only a good keeper, but is large, solid, as sweet as a walnut and of a beautiful golden color. Price: Pkt., 5c; oz., 20c; ½ lb., 65c; postpaid.

**GIANT PASCAL**—One of the best for fall and winter use. The stalks are very large, solid, crisp and of rich, nutty flavor. Price: Pkt., 5c; oz., 20c; ½ lb., 65c; postpaid.

**GOLDEN SELF-BLANCHING**—This is without doubt the best celery for getting the use, the ribs are perfectly solid, crisp, brittle and of delicious flavor, while it has the decided merit of being self-blanching to a very remarkable degree. Price: Pkt., 5c; oz., 35c; ½ lb., $1.15; postpaid.

**WHITE PLUME**—A variety specially adapted to cultivation by amateurs, as its inner stalks and leaves are naturally white. By simply tying up the stalks and drawing up the soil with the hoe the work of blanching is complete. Price: Pkt., 5c; oz., 39c; ½ lb., 65c; postpaid.

For Sprayers and Spray Material See Pages 70-73.
Corn Salad

A hearty winter salad, the small leaves being served like lettuce during the fall and early winter months. It is used for garnishing meat dishes the same as parsley and cress. Seed should be sown thinly in drills during August, September and October to supply fresh leaves during the cool fall and winter months. It is quite hardy, and after cool weather sets in can be protected by a thin mulch of hay or straw. Price: Pkt., 5¢; oz., 15¢; postpaid.

Collards

Make excellent greens and are also excellent for all kinds of stock. Leaves may be pulled from underneath the head of the plant and cattle, hogs and poultry are very fond of it. Such action does not injure the growing and preserving of the Collard for human food. Price: Pkt., 5¢; oz., 20¢; ¼ lb., 60¢; postpaid.

Chufas or Earth Almond

In sweetness and flavor very much resembles a cocoanut or almond and greatly liked by all children. Vary in size from a large pea to a hazelnut. The nuts grow under and near the surface of the ground, easily reached and relished by pigs and poultry. As soon as the crop is grown, turn the animals into the field, thus saving the labor of harvesting and feeding, and when either hogs or chickens get a taste of them they will go over the whole field in search for them. Very nutritious, nourishing and fattening. Price: Pkt., 5¢; ¼ lb., 20¢; ½ lb., 35¢; 1 lb., 70¢; postpaid.

Finocchio

FLORENCE FENNEL—A delicious vegetable which should be more largely grown in this country. It is extensively used in Italy as a salad, and also may be served boiled. When the enlargement of leaf stalk, at base of stem, is about the size of a hen's egg it should be earthed up so as to cover half of it and in about ten days cutting may be commenced and continued as the plants increase in growth. The flavor is somewhat like celery but it has a sweet taste and delicate odor. Price: Pkt., 5¢; oz., 40¢; ½ lb., $1.25; postpaid.

Chives

CHIVES (Schnittlouch)—A perfectly hardy plant something like an onion. Tops are cut off from time to time and used to flavor soup. Price: Seed, pkt., 10¢; clumps, 25¢ each; postpaid. By express, $1.50 per dozen.

Egg Plant

One ounce to 1,000 plants. Ready for table in 14 to 160 days.

New York Purple

A tender plant, start early in hotbed or in the house. Plant out early in June, be careful to prevent plants being chilled by the change.

BLACK BEAUTY,—In ten days to two weeks earlier than New York Improved. The fruits are large, of a rich glossy purple black color, very handsome and attractive. It is entirely free from spines. Price: Pkt., 5¢; oz., 40¢; postpaid.

IMPROVED NEW YORK PURPLE—Entirely spineless. Low growing plants, stalky and branching, bears early and almost continuously. Fruits are large, satiny smooth and a rich purple color. Price: Pkt., 5¢; oz., 40¢; postpaid.

Cress or Pepper-grass

Ready in from 21 to 40 days. Cress should be sown in a sheltered spot quite thick in shallow drills, in a short time it will be fit for cutting. Sow frequently as it matures rapidly.

EXTRA CURLED—This small salad is much used with sauces. The warm, pungent taste makes a most agreeable addition. Price: Pkt., 5¢; oz., 15¢; ¼ lb., 45¢; postpaid.

WATER CRESS—Hardy perennial, growing rapidly on the banks of streams or ponds. Price: Pkt., 5¢; ¼ oz., 25¢; oz., 40¢; postpaid.

Endive

One ounce to 100 feet of drill. Ready for table in 43 to 50 days from seed.

One of the best autumn and winter salads. Sow from June until August, ½ inch deep in drills 14 inches apart and thin out to one foot apart in rows. When nearly grown, bleach by tying tips of leaves together.

GREEN CURLED, WINTER—Very hardy: leaves dark green and tender. Much better than the common varieties. Price: Pkt., 5¢; oz., 10¢; ¼ lb., 30¢; postpaid.

MOSS CURLED—Leaves very finely curled. Price: Pkt., 5¢; oz., 10¢; ¼ lb., 30¢; postpaid.

WHITE CURLED—Very tender when cut young; blanches readily. Price: Pkt., 5¢; oz., 10¢; ¼ lb., 30¢; postpaid.

Garden Huckleberry

A NEW, HEAVY YIELDING GARDEN BERRY

This new fruit can be grown from the seed the first year and produces fruit as large as grape; the color is jet black, and when cooked can scarcely be discerned from the real huckleberry. Plant and cultivate same as tomatoes. Do not eat green. Berries make splendid pies, jelly and sauce. Price: Pkt., 5¢; Mammoth. Pkt., 15¢; postpaid.

Chinese or Celery Cabbage

A delicious celery-flavored cabbage. Large, compact head, crisp, tender and brittle with a fine celery flavor. Makes a most excellent salad or may be cooked as cabbage. Culture the same as for winter cabbage. When large enough should be blanched by earthing up and tying closely with burlap. Price: Pkt., 5¢; oz., 50¢; ¼ lb., $1.75; postpaid.
GARDEN HERBS

Herbs delight in a rich, mellow soil. Those marked with an * are perennial. Sow early in spring in shallow drills, one foot apart; when up a few inches thin out; cut just before they come into full blossom, tie in bunches and hang up or spread thinly.

DILL—Leaves and seed are used in soups, sauces and pickles. It reseeds itself each year. Price: Pkt., 5c; oz., 15c; ¼ lb., 50c; postpaid.

*LAVENDER—Aromatic, medicinal herb. Price: Pkt., 5c; oz., 65c; ¼ lb., 85c; postpaid.

MINT—The old-fashioned mint has been growing in favor of late years. Used in flavoring meats, etc., also for mint sauce. Easily grown. We offer only roots. Price, per clump, 20c; 2 for 35c; postpaid.

*MAJORAM (Sweet)—Leaves and shoots used for seasoning. Price: Pkt., 5c; oz., 65c; ¼ lb., $2.00; postpaid.

LEEK (American Flag)—The Leek is a very hardy plant with a sweet onion-like flavor. It does not make bulbs, but the plant has a long, thick neck somewhat resembling the young growth of the onion in the spring. These necks or stems are blanched in the fall by drawing the earth up about them as the plants increase in growth. Price: Pkt., 5c; oz., 30c; postpaid.

*SAGE—Most useful herb for seasoning. Price: Pkt., 10c; mammoth Pkt., 25c; postpaid.

SUMMER SAVORY—Used for flavoring soups. Price: Pkt., 5c; oz., 60c; ¼ lb., $2.00; postpaid.

*THYME—For medicinal use... Price: Pkt., 5c; oz., 65c; ¼ lb., $2.00; postpaid.

Kohlrabi

One ounce to 300 feet of drill, and makes 3,000 plants
A vegetable intermediate between the cabbage and turnip. The edible bulb is served like turnip. Sow from May to July in rows 18 inches apart, and thin. Cultivate the same as cabbage.

EARLIEST SHORT-LEAVED WHITE VIENNA FORCING—This variety is especially adapted for early work and forcing; delicate flavor, flesh white and very tender. Price: Pkt., 5c; oz., 25c; ¼ lb., 75c, postpaid.

EARLY WHITE VIENNA—A favorite sort; flesh white and tender. Price: Pkt., 5c; oz., 25c; ¼ lb., 75c, postpaid.

EARLY PURPLE—Purple, outside with white flesh. Price: Pkt., 5c; oz., 25c; ¼ lb., 75c, postpaid.

Kale or Borecole

This is a popular boiling-green for fall, winter and early spring use, resembling cabbage in flavor. The plant is entirely hardy in well-drained soil and can be grown easily from seed planted during the summer and fall months. The plants are usually cut off for use when the leaves are 6 inches in length. The sweetness and flavor of these trees are improved by freezing weather. One ounce should produce 4,000 plants.

DWARF KALE—The leaves are curly, bright green, very tender, and delicate flavor. Price: Pkt., 5c; oz., 20c; ¼ lb., 50c; postpaid.

TALL GREEN CURLED—About two feet high, with numerous dark green curled leaves. Price: Pkt., 5c; oz., 20c; ¼ lb., 50c; postpaid.

Mustard

CHINESE—The immense leaves grow rapidly, and can be cut frequently until killed by frost. Leaves are eaten boiled, like Spinach. Price: Pkt., 5c; ¼ lb., 10c; lb., 60c; postpaid.

MUSTARD CULTURE

Produced by the new grafting process, from selected and most prolific varieties, has never failed to run. Price per brick, enough for 8 square feet, 35c; 5 for $1.50; by mail, postpaid. By express, at buyer’s expense, per brick, 25c; 6 bricks, $1.40; 12 bricks, $2.75.

A most practical work on the growing of mushrooms. Describes how they may be grown with profit by market gardeners, and also how to grow them for home use. Illustrated 32 pages. Prices: 25c, postpaid.
LETTUCE

One ounce to 400 feet of drill. Ready for use in 3 or 4 weeks; marketable size 60 to 75 days from seed.

CURLED OR LOOSE LEAF VARIETIES

BLACK SEEDED SIMPSON—The leaves are large and form a compact mass. They are thin, tender and of a very light green color. Well adapted for growing under glass or for very early spring use. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

EARLY PRIZE HEAD—Forms a mammoth plant, in which even the outer leaves are crisp and tender; color bright green tinged with brownish red. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

CALIFORNIA CREAM BUTTER—Forms round, crisp, solid heads, of butty flavor, medium early. One of the best summer varieties of head Lettuce. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

DENVER MARKET—An early variety of Head Lettuce, either for forcing or open ground. It forms large heads, of good light green color. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

HANSON—Forms a large, flat head, resembling that of cabbage and so slow to form a seed stalk that it often fails to seed. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

NEW YORK IMPROVED—Also called "Wonderful" and "Los Angeles." The main summer crop hot weather head lettuce, it furnishes fine crisp lettuce during the hot summer months. It is reliable, a sure header, and is slow to go to seed. Plants of extra large growth, producing closely folded heads of immense size, often 15 inches in diameter and weighing 2 pounds each. The inner portion is beautifully blanched; outer leaves a deep rich green. Price: Pkt., 5c; oz., 25c; 1/4 lb., 50c; postpaid.

ICEBERG—Makes a large handsome crisp head, conical in shape, tightly folded and well balanced; outer leaves fringed. Very highly esteemed for its beautiful appearance and mild flavor, even during hot summer months. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

CABBAGE OR HEADING VARIETIES

The best results with head or cabbage sorts is only obtained when the plants are transplanted several times.

BIG BOSTON—A large heading, forcing sort, very hardy and vigorous, with broad, comparatively smooth, thin and very hard, bright green leaves. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

SIMPSON'S EARLY CURLED—Leaves broad, frilled and blistered. Light green, sweet, tender, and well flavored. An early, erect growing sort. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

LENTILS

A leguminous annual, resembling peas, with round, flat seeds, which are much used for soup and making a delicious dish; they are also splendid for pigeon feed. The stems and leaves make good fodder. Succeeds well on dry soil. Price: Pkt., 5c. Write for price in larger quantities.

HORSERADISH

This splendid appetizer cannot be overestimated. Twenty-five plants are sufficient for a family. The roots grow and increase rapidly in size with each succeeding year. Plant in a corner of the yard where you wish it to grow and you can begin digging the next year. Postpaid, 50c per doz., not postpaid, 40c per doz.
MUSK MELONS

One ounce to 50 hills; 2 to 3 pounds per acre. Earliest varieties ready in 90 to 100 days from sowing. General crop requires 115 to 140 days.

Melons thrive best in the light, rich soil. Plant when the ground has become warm and dry. The letter G following name signifies green meat; G, salmon colored.

BANANA CANTALOUPE. S.—The melons grow 24 to 30 inches long; stand the summer sun as no other cantaloupe will, and continue to bear until late in the season. The salmon-colored flesh is thick and of delicious banana-like flavor. Price: Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.25 postpaid.

BURRELL'S GEM. S.—Very much like Rocky Ford, but has orange colored flesh. The flesh is fine grained and spicy. It is a good keeper. Fruits large and somewhat elongated. Price: Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.15 postpaid.

CHICAGO MARKET. G.—This we consider the best Nutmeg for earlyness of maturity, large and uniform size, thickly netted skin, small seed cavity, deep green flesh, juicy, delicious flavor and free from rot. Price: Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00 postpaid.

EMERALD GEM or NETTED ROCKY FORD CANTALOUPE. G.—This magnificent new muskmelon is a selection of the old Rocky Ford, which it completely surpasses in lusciousness, yield, carrying, and good selling qualities. Price: Pkt., 5c; oz., 10c; ¼ lb., 36c; lb., $1.00 postpaid.

EXTRA EARLY HACKENSACK. G.—Ten days earlier than Hackensack. Melons weigh to 4 to 10 pounds each. Price: Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00 postpaid.

GOLD LINED ROCKY FORD—See page 2.

HONEY DEW MELON—It is as sweet as honey and has the mingling of several flavors—pineapple, banana and vanilla predominating. The average size of the melon is 6 inches in diameter and 7 to 8 inches in length, weighs 5 to 6 pounds. The seed cavity is very small, the rind impervious to water, the melon does not shrink in weight, is not easily bruised and is a splendid shipper. Yields at the rate of 8,000 to 10,000 melons per acre. The melon slips from the vine when ripe and will keep for several weeks; the late maturing ones may be kept until Christmas. Price: Pkt., 10c; oz., 13c; ¼ lb., 45c; lb., $1.50 postpaid.

GRANDFATHER PLEASED
Mills County, Iowa, May 12, 1920.

Dear Sirs: My grandfather used to send to you and get potato plants. They were fine and always satisfactory.

CLIFTON ACKLES

Honey Dew

Large Hackensack

Large Hackensack

ROCKY FORD. G.—This variety has everywhere been wanted and demanded. Hundreds of carloads have been shipped from the little town of Rocky Ford, Colo., to the large cities, taking the place of other varieties. Of just the right size for table use. Price: Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00 postpaid.

SANTA CLAUS MELON—Just think of having a melon to eat with your Christmas dinner! But this is what is claimed by the originator of this wonderful novelty. There is no seed cavity. The seeds are embedded in a jelly-like pulp. The light green flesh is absolutely stringless; its flavor excels anything in the melon line; it is in a class by itself and is beyond description. This melon should become more popular than the Rocky Ford because it is more delicious and it is a Christmas melon. Price: Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.15 postpaid.

TIP TOP (Orange Flesh)—A fine, nearly round melon of such attractive appearance as to always sell quickly. It is sweet, juicy and delicious. Flesh firm but not hard, and is edible almost to the rind. Of medium to large size; evenly ribbed and moderately netted; strong rind; large and handsome. One of the best of the orange flesh sorts. Price: Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.25 postpaid.

VINE PEACH. S.—The fruit is a bright orange color, oval shaped and about the size of an ordinary peach, which it resembles very much. These melons are unequalled for pies, preserves or sweet pickles. Price: Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.29 postpaid.

Rocky Ford
WATERMELONS

Ready from 90 to 140 days from seed. One ounce to 30 hills; 4 lbs. per acre.

To get good strong vines early in the season, make large, well drained hills of earth, made very rich, about eight feet apart. In these plant the seed as soon as the ground is warm and dry, and carefully protect the young plants from insects, and hasten their growth by the use of liquid manure. Is, light seed; ds, dark seed.

ALABAMA SWEET—Is.—This is a large oblong melon; color, dark green with faint lighter stripes. Being of good size though not ungrainy it is first class for shipping purposes. Its flavor is simply delicious, it is entirely stringless. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; postpaid.

COLORADO PRESERVING CITRON—ds.—This is a large fruiting strain of citron for preserving. Flesh clear white and very solid. Green seed. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; postpaid.

COLE'S EARLY—A very choice melon for the home garden can be grown farther north than any other variety. The flesh is bright red, crisp and very delicate in texture. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; postpaid.

KLECKLEY'S FAVORITE—Is.—Large, oblong melon, skin dark green. Rind about ¼ inch in thickness. The scarlet flesh is sweet and sugary and of such texture that it leaves no strings of pulp in eating. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

HALBERT'S HONEY—Is.—A splendid sort for home use or local markets. Vine vigorous and productive; fruit large and oblong; color dark glossy green. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

ICE CREAM (Peerless)—Is.—Medium in size, almost round; the skin is pale green; slightly mottled; flesh bright scarlet, solid to the center. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

KENTUCKY WONDER—Distinct, and the melon itself proves it. In shape it is oblong, attaining a good size; skin dark green and beautifully marked. Extra fine flavor. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

KLECKLEY'S SWEETS (Monte Cristo)—Is. Large, oblong melon, skin dark green. Rind about ¼ inch in thickness. The scarlet flesh is sweet and sugary and of such texture that it leaves no strings of pulp in eating. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

KLOD'S GEM—A favorite on account of its excellent shipping quality. It is extensively grown for that purpose. Nearly round; color a dark green with lighter narrow stripes. Very thin rind; flesh bright red, good flavor. Our seed is choice. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

McIVER'S WONDERFUL SUGAR—Is. The melons attain a great weight, are of a very handsome appearance, never crack or lose their fine flavor. Price: Same as Kolb's Gem.

MOUNTAIN SWEET—The old standard still quite popular in the North, where the large fruited southern sorts do not ripen. Early fruit large, oval, rind dark green, flesh scarlet. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; postpaid.

We are agents for Myers Spray Pumps. The World's best. See Page 72.

Florida Favorite

FLORIDA FAVORITE—Is an unsurpassed early, good quality, medium-sized melon, just the right kind for home use and nearby markets. It is a large smooth, beautifully shaped melon, of dark green color, irregularly striped with lighter green, very early, and prolific. Flesh red, very crisp, tender and juicy. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

GIPSY or GEORGIA RATTLESNAKE—Is.—One of the largest, oldest and most popular sorts, especially in the South. Fruit very long, of light green color, distinctly striped and blemished with a darker shade. Flesh bright scarlet. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; postpaid.

Kleckley Sweet

PHINNEY'S EARLY—Very early, quality good; hardy. Bears abundantly, medium sized, oblong melons with thin, smooth rind; flesh pink and tender. Price: Same as Kolb's Gem.

SWEETHEART—ds. Vine vigorous and productive, ripening its fruit early; fruit large, oval, very heavy, uniformly mottled. Green and light green; rind thin but firm, flesh bright red, firm and solid but very melting and sweet. The melons retain their good quality for a long time. Price: Same as Kolb's Gem.

TOM WATSON (The Most Popular of All Melons)—ds. Is a long, green variety covered with a fine netting, giving it a most attractive appearance. The flesh is of most superb quality and intensely red color. The rind is thin, but hard and tough, and is unequalled as a market and shipping sort. The melons are of large size and heavy, about 24 inches long and 12 to 12 inches through. A good yielder and great money maker in all markets. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.
ONIONS

GLOBE WETHERSFIELD, RED—Remarkable for size, earliness, productiveness, beauty of color perfection of shape, and long keeping qualities. Possesses all the excellent qualities of Red Wethersfield and Yellow Globe Onions. Price: Pkt., 5¢; oz., 25¢; ¼ lb., 50¢; postpaid.

LARGE RED WETHERSFIELD—This is the standard and favorite variety. Large size, deep purple white, stronger flavored than large varieties. Very productive and an excellent keeper. Price: Pkt., 5¢; oz., 25¢; ¼ lb., 50¢; postpaid.

One ounce to 300 feet of drill; 4 to 5 lbs. to the acre. Ready for green onions in 60 days. Main crop matures in 120 to 150 days from sowing.

The onion is most successfully grown in a rich, sandy loam. Continued cultivation upon the same plot of ground, contrary to the general rule, rather improves the crop than otherwise. As early as the ground can be worked in the spring, sow the seeds in drills 1½ inches apart, covering half an inch. When plants can just be seen in the rows, commence hoeing, skimming the surface. Subsequently weed thoroughly and carefully by hand. When tops die, pull onions and spread evenly over the ground; stir or turn until thoroughly dried, then cut the tops off ¼ inch from the bulb.

AUSTRALIAN BROWN—Distinct from all others; is nearly round, wonderfully hard and solid; ripens extremely early; never makes scallions; of medium size, skin a deep amber brown, flesh mild and agreeable. Price: Pkt., 5¢; oz., 15¢; ¼ lb., 50¢; postpaid.

EXTRA EARLY RED FLAT—Matures very early, yields abundantly, and is of mild flavor; medium size; deep red and solid. Price: Pkt., 5¢; oz., 15¢; ¼ lb., 50¢; postpaid.

GLOBE WETHERSFIELD, BROWN—Remarkable for size, earliness, productiveness, beauty of color perfection of shape, and long keeping qualities. Possesses all the excellent qualities of Red Wethersfield and Yellow Globe Onions. Price: Pkt., 5¢; oz., 25¢; ¼ lb., 50¢; postpaid.

LARGE RED WETHERSFIELD—This is the standard and favorite variety. Large size, deep purple white, stronger flavored than large varieties. Very productive and an excellent keeper. Price: Pkt., 5¢; oz., 25¢; ¼ lb., 50¢; postpaid.

Red Wethersfield

SOUTHPORT WHITE GLOBE—Of all our American varieties of market onions, this generally commands the highest price. Of true globe form, the onions are two or two and a half inches in diameter, with a thin, delicate skin of purest paper whiteness. The flesh is crisp, fine grained, snowy white in color and very mild flavor. Price: Pkt., 5¢; oz., 25¢; ¼ lb., 75¢; postpaid.
Onions, Continued

MAMMOTH SILVER KING—Average 15 to 22 inches in circumference and weigh 2½ pounds each. Matures early and is uniformly large and of good shape, is flat but thick. Skin is clear silver white, flesh, snowy white. Price: Pkt., 5c; oz., 25c; ½ lb., 50c; postpaid.

SOUTHPORT YELLOW GLOBE—Conspicuous, large, golden yellow spicules, of exceptional beauty; a late, large, main crop variety best keeping quality. The buyer of a packet and the planter for carload shipments are equally enthusiastic over this gem among onions. Price: Pkt., 5c; oz., 20c; ½ lb., 35c; postpaid.

WHITE QUEEN—This is the best of all for small pickles and the earliest ripening onion in cultivation. The bulbs of a pure paper-white are generally very small. Price: Pkt., 5c; oz., 25c; ½ lb., 50c; postpaid.

WHITE BERKSHIRE—The bulbs are quite broad and flat in form. The color is not a clear white, as in our American varieties, but rather a pale straw; flesh crisp, solid and mild in flavor and early ripening. Price: Pkt., 5c; oz., 25c; ½ lb., 75c; postpaid.

WHITE PORTUGAL or SILVER SKIN—Standard white variety for general culture. Bulbs grow to good size, ripening early and quite evenly. A good keeper; handsome appearance. Price: Pkt., 5c; oz., 25c; ½ lb., 75c; postpaid.

OKRA

Okra or Gumbo

One ounce to 40 feet of drill. Ready for table in from 90 to 105 days.

The pods when young are used in soups, stews, etc. The plants are of the easiest culture. Sow at the usual time for all tender vegetables in drills two inches apart, one inch deep. The plants two feet apart.

IMPROVED DWARF—An early variety, pods comparatively short but very numerous. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; postpaid.

WHITE VELVET—Pods round, smooth, large and attractive; produced in great abundance. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; postpaid.

BOOKS WORTH WHILE

POULTRY MANUAL, by Sewell—Breeds of fowls including turkeys, ducks and geese; practical methods of raising poultry and eggs for market and home use. Price: 50c postpaid.

COUNTRY KITCHEN COOK BOOK—A book that should be in every farm home. Nine hundred tried and tested recipes of good, wholesome dishes and many suggestions of great value to the farm kitchen. Price, 50c postpaid.

AMATEUR FRUIT GROWING—Covers the entire subject of growth, cultivation and marketing of small fruits such as Strawberries, Raspberries, Blackberries, Currents, Gooseberries, Grapes, Cranberries, Juneberry, Sand Cherry, Buffalo Berry and Mulberry in addition to the cultivation, pruning and grafting of the larger fruits such as the Apple, Plum and Cherry. Price, 75c postpaid.

VEGETABLE GARDENING—Each garden crop is discussed fully from seed to marketing. There are also valuable treatments of Gardening in general, the Home Garden, Fertilizers, Tillage, Seeds, Transplanting, Development of Varieties, Glass Structures, Insects and Insecticides, Marketing, Exhibiting, etc. Price, 81.50; postpaid.

500 SWINE QUESTIONS ANSWERED—The information and answers are wholly dependable and come from the practical experience of the largest Swine Breeders and Feeders in the West and the most authoritative veterinarians. Price 50c; postpaid.

All of these books are interesting, prepared by recognized authorities and will be found very profitable.

Parsley

One ounce to 150 feet of drill

Soak the seeds a few hours in lukewarm water and sow early in the spring in drills one foot apart. Thin out to four inches. A few seeds sown in onion rows use no space. To preserve in winter transplant to a light cellar or glass frames.

Parsley is esteemed for flavoring and for the beautiful appearance of the fresh green leaves as a garnish.

CHAMPION MOSS CURLLED—The plant resembles a tuft of finely curled moss, leaves extra large, and a rich deep green. Price: Pkt., 5c; oz., 10c; ¼ lb., 25c; postpaid.

TURNIP-ROOTED or HAMBURG—The root is the edible portion of this variety, and resembles a small parsnip, both in color and shape. Flesh white, a little dry, having a flavor similar to Celery. Very hardy and should be cultivated like parsnip. Extensively grown and used for flavoring soups, etc. Foliage same as plain parsley. Prices: Pkt., 5c; oz., 10c; ¼ lb., 25c; postpaid.
PEAS

Two lbs. to 100 feet of drill.

CULTURE—You will have the best results with early peas on light, warm soil, but the main crop will do better on a fairly heavy soil that will retain moisture. Avoid too much nitrogen fertilizer such as fresh manure, as that causes heavy vine growth at the expense of pods. A plot prepared the fall before is best. Sow early kinds as soon as possible in rows 2 to 3 inches deep and 2½ to 3½ feet apart, and for succession every 2 weeks until June 15th. The very earliest varieties, planted in August, will often give a good fall crop.

The taller varieties will do better if supported by brush or wire. Some plant in double rows (6 inches apart) and support the two together. The smooth sorts are hardest, but wrinkled varieties are of better quality. Planting distances and depth depend on variety and type of soil.

Those marked * are wrinkled and sweet.

EXTRA EARLY VARIETIES

ALASKA—Two feet. The earliest blue pea of good flavor, dark green pods, well filled and ripe uniformly. One of the very best for market gardeners. Price: Pkt., 5¢; lb., 35¢; postpaid.

AMERICAN WONDER—One foot. Of the finest quality. Very prolific, with pods of fine size and form requires no brush or support. It may be planted a week apart for succession gardening. Price: Pkt., 5¢; lb., 35¢; postpaid.

DUCHESS OF YORK—A very fine, large sweet pea, maturing very closely with Gradus, but much more productive. Pods large, dark green, pointed and well filled. Height, 3 feet. Price: Pkt., 5¢; lb., 35¢; postpaid.

CARTER'S DAISY OR DWARF TELEPHONE—The peas though growing only about eighteen inches in height, are very stout, and generally bear a large good crop of large well-filled pods. The pods average five inches in length, containing seven to nine large, light-green peas. Price: Pkt., 5¢; lb., 35¢; postpaid.

EARLY DWARF—This is one of the newest early dwarf peas. Similar to Nott's Excelsior except has a dark pod; very sweet and productive. Height 1½ feet. Price: Pkt., 5¢; lb., 40¢; postpaid.

MAMMOTH PODDED EXTRA EARLY—Matures early and very productive; pods large and well filled; seed large, smooth, white. Bound to take first place as a leading market gardener's first pea. Height, 3 feet. Price: Pkt., 5¢; lb., 40¢; postpaid.

NOTT'S EXCELSIOR—One foot. Earliest wrinkled pea; of close, compact, dwarf growth. The pods average 3 inches in length and are well filled to the squared ends with large peas, unusually sweet. It not only yields heavily in pods, but also in shelled peas. Price: Pkt., 5¢; lb., 35¢; postpaid.

SECOND EARLY

ABUNDANCE—Height, 2 to 2½ feet. Seed green, wrinkled. This is a heavy yielding variety and is a capital sort for family use; possesses great sweetness, flavor, and table qualities. Price: Pkt., 5¢; lb., 35¢; postpaid.

EVERBEARING—Two feet. Peas are very large, of excellent quality. For cooking purposes, the best means of bearing this variety is unexcelled. Price: Pkt., 5¢; lb., 35¢; postpaid.

TOM THUMB—This is the most dwarf pea. The vines grow about 12 inches high and are well filled with pods which are 2½ inches long and filled with 5 or 6 medium-sized peas. Price: Pkt., 5¢; lb., 35¢; postpaid.

CROP VARIETIES

*TELEPHONE—Four feet. Immensely productive. Pods are very large, pods of excellent size and quality. Has become one of the most prominent late peas, to be grown for market. Price: Pkt., 5¢; lb., 35¢; postpaid.

WHITE MARRORFINAT—Four feet. Vines are very robust. Bears many pods, always well filled. Price: Pkt., 5¢; lb., 35¢; postpaid.

MARKET GARDENER'S PRICES, PAGES 28 AND 29.
Pumpkins

One ounce to 50 hills; 3 to 4 pounds per acre. From 100 to 120 days from sowing to maturity

Pumpkins are planted frequently in connection with a crop of corn, or as a second crop after early peas, etc. The following varieties are all thin and tender skinned, distinct from the hard or thick shelled squashes.

CONNECTICUT FIELD—An immensely productive, large, orange-colored, field pumpkin, usually grown for stock feeding, but it also makes good pies. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

CUSHAW or CROOKNECK—(Sometimes called a squash.) Productive; color light cream, sometimes slightly striped; flesh salmon colored; mealy and sweet. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

JAPANESE PIE—Early and productive, of medium size, large at one end, terminating in a crooked neck. Skin deep green with darker stripes; flesh is a rich salmon color; excellent quality; a good keeper. Price: Pkt., 5c; oz., 10c; ½ lb., 30c; postpaid.

KING OF THE MAMMOTH (Jumbo or Potiron)—Weights from 40 to 150 pounds. Round, flattened at both ends, skin and flesh bright yellow. It makes a good table pumpkin. Good keeper. Price: Pkt., 5c; oz., 15c; ½ lb., 40c; postpaid.

LARGE CHEESE—This is a very popular pumpkin for pies and is quite commonly known as "Sweet Pumpkin." In size they average about as large as the Connecticut Field, but are flat shaped, with creamy buff skin and thick golden flesh; tender, large, hardy and productive. Excellent for table use. Good keeper. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

SMALL SUGAR—Fruits of small size, averaging about ten inches in diameter, of excellent keeping qualities, flattened, slightly ribbed. Skin deep orange-yellow; flesh sweet. Very early. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

SWEET POTATO—Pear shaped, good size, skin creamy white. The seed is all in the cavity of the large end, the thick neck being solid; exceptionally fine quality. Price: Pkt., 5c; oz., 15c; ½ lb., 40c; postpaid.

Don't overlook the money saving collections in this catalog.

Small Sugar

Peas

Peanuts

Culture very simple. Plant in light, sandy soil in April, in pods or shelled, two in a hill on level ground. Hill up from time to time as required. Price: Pkt., 5c; lb., 40c; postpaid.

Hollow Crown

Parsnips

One ounce to 100 feet of drills; 5 or 6 lbs. per acre. Matures in 125 to 140 days from seed.

Sow in April or early May. Cultivate the same as carrots. They may be dug in the autumn and stored for winter use, but if left in the ground till spring are very much improved in flavor.

HOLLOW CROWN—Standard variety, roots long, very smooth; white, sugary, tender and of excellent flavor. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

IMPROVED GUERNSEY (Improved Half Long)—The roots do not grow so long as the Hollow Crown, but are of greater diameter and more easily gathered. Very smooth, the flesh fine grained and of excellent quality. Price: Pkt., 5c; oz., 10c; ½ lb., 25c; postpaid.

TWICE AS LARGE

Sirs:—I have used your seed two years and find them to be good and your packets are as large as would get other places for twice the money. I always speak a good word for your seed.

MRS. C. T. McCOWN

For Market Gardeners Prices See Pages 28 and 29
Peppers

One ounce to 2,000 plants. Requires from 125 to 160 days from sowing to maturity.

The small peppers are the hottest, the large varieties being quite mild in flavor. Sow in a well-drained soil, preferably in the open. The following are the most productive of all pepper sorts in this section. The peppers are uniformly thick, and are used extensively throughout the season. Many are used for canning, and are excellent for pickling.

**Chinese Giant**—This describes the variety of recent introduction, and is undoubtedly the greatest sweet pepper ever offered. The flesh is quite thick, very mild and remarkably sweet. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

**Large Bell, or Bull Nose**—Large and early square shouldered, flesh thick, and less pungent than the other sorts; much used for canning. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

**Long Red Cayenne**—If you want a genuine hot pepper, the kind to use is the long red Cayenne. This is the real red hot kind. Grows 3 to 4 inches. Price: Pkt., 5c; oz., 30c; ¼ lb., 90c; postpaid.

**Neapolitan Large-Early**—Decidedly the earliest of all large mild red peppers, and the most productive of all pepper sorts. From seed started February 15th and plants set out May 13th, the first peppers were picked for market on June 24th. The large and early square shouldered, flesh thick, and less pungent than the other sorts; much used for canning. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

**Pimento**—This is a new and distinct pepper. Perfectly sweet, having no trace of pungency. Plants are loaded with fine, perfectly smooth fruits, medium size and thick meated. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

**Red Chili**—Fruit is small, bright red, very hot and pungent. Plants are very productive. Grown for making pepper sauce. Price: Pkt., 5c; oz., 35c; ¼ lb., $1.15; postpaid.

**Ruby King**—The most popular large red pepper. Plants loaded with fine, perfectly smooth fruits, medium size and thick meated. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

**Sweet Mountain**—Similar to Bull Nose, though usually larger in size and longer; of very mild flavor. Much used for canning. Price: Pkt., 5c; oz., 45c; ¼ lb., $1.50; postpaid.

Spinach

One ounce to 100 feet of drill; 12 lbs. to the acre.

Cultivated very extensively for “greens”. A profitable crop for market. Select a rich, well-drained soil, highly manured. For a succession, sow early in April and again in May in drills, 1 foot apart and 1 inch deep, properly thinning out when the plants are an inch high. For early spring use, sow early in autumn and protect the plants with a light covering of leaves.

**BLOOMSDALE (Savoy)**—The earliest of all and one of the best; the leaves are numerous curled and wrinkled. Price: Pkt., 5c; ¼ lb., 15c; 1 lb., 45c; postpaid.

**Long Standing (Thick Leaved)**—A fine market sort. Leaves large and thick, somewhat crumpled. Does not run to seed early. Price: Pkt., 5c; ¼ lb., 15c; 1 lb., 45c; postpaid.

Rhubarb

One ounce to 500 plants.

Rhubarb is an excellent spring food, possessing medicinal properties. It is the first vegetable of the season from the garden, and no planter should be without it.

**Victoria**—Stalks very tall and large; skin thick and red stained; pulp quite acid; very productive. Price: Pkt., 5c; oz., 15c; ¼ lb., 30c; postpaid.

**Linnaeus**—A large tender sort, sometimes called wine plant. Price: Pkt., 5c; oz., 15c; ¼ lb., 30c; postpaid.

**Rhubarb Roots**—Set in spring and they will be ready for use the following season. Price: 10c each; postpaid. By express 50c per doz.

Salsify or Vegetable Oyster

One ounce to 75 feet of drill.

Resembles a small parsnip, and when thinly sliced and cooked is a good substitute for oysters, having a very similar flavor. It succeeds best in light, rich soil. Sow early and quite deep. The leaves when first appear look like grass, making it important to plant in rows.

**Mammoth Sandwich Island**—Grows uniformly to an extra large size. The root is pure white and of superb quality. Invaluable to market gardeners. Price: Pkt., 5c; oz., 20c; ¼ lb., 60c; postpaid.
RADISHES

One ounce to 100 feet of drill; ready in 18 to 45 days from seed, according to variety.

Radishes must make a rapid growth to be crisp and tender. For early use sow in the hottest, half an inch deep. For an early crop in the open ground, sow thinly in drills on rich, sandy soil as early in the spring as it is fit to work. For a succession sow every two weeks.

Varieties marked good for forcing.

CHARLIER—One of the best varieties for growing out doors. The radishes are in good condition for the table very early and remain hard and crisp until they reach a diameter of about 11/4 inches, thus affording good roots for a long time. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

EARLY BIRD—Decidedly the earliest of radishes. Quick growth is one of the main essentials for a crisp and tender radish, and with loose soil and proper culture the Early Bird is ready for the table in twenty days from the time of sowing. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

EARLY SCARLET TURNIP, WHITE TOP—A most popular and attractive variety, a great favorite in many large markets. The radish is bright scarlet, white tip, and of beautiful shape; flesh white, crisp and finely flavored. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

Sakurajima—A Japanese radish of immense size; some single specimens of this variety weigh 15 lbs. Oval with cream colored skin, white flesh. Cooked like turnips. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

STUTTGART—Early giant white, large top shaped, often 4 inches across, flesh and skin white. Remains crisp and solid even after it has attained its full size. Can be stored for winter use. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

*SAKA RADISH—See Page 3.

WHITE BOX—Of handsome shape, very early and has but few leaves, and one-third more radishes can be grown in the same space than with most varieties. Of clear white color, solid, juicy and unsurpassed in flavor. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

WHITE OLIVE FORCING—White flesh and skin; crisp and mild flavor. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

WHITE STRASSBURG—Of somewhat larger size and thicker than Vienna. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

*NON PLUS ULTRA FORCING—This variety has such a small top and is as early as any in cultivation, making it one of the best for forcing under glass. Roots ready to pull may be had in three weeks and they remain fit for use longer than any other early variety. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

LONG WHITE VIENNA or LADY FINGER—Pure white, long tapering shape, attractive, sweet, mild, delicious. Matures in 25 days. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

NEW SPARKLER—A distinct new 18 to 21-day radish; has a beautiful scarlet top; with tip of purest white. Is solid, crisp and sweet, remaining so for a long time. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

ROSY GEM—We have a very clean, beautiful strain of this popular sort. It is extremely early maturing in 25 days. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c; postpaid.

7 Best Radishes

COLLECTION NO. 3 25 cents Postpaid

This collection includes 1 packet each of the following best varieties: Early Bird, Early Scarlet Turnip White Tip, Icicle, French Breakfast, Early Long Scarlet, Crimson Globe and Chinese Rose Winter, all for 25c; postpaid.

WINTER SORTS

Sow in July. Pull before severe frost and store in damp cellar.

CHINESE ROSE (Scarlet China)—Large oval, bright rose-colored, good keeper. Price: Pkt., 5c; oz., 10c; 1/4 lb., 25c;

CALIFORNIA MAMMOTH WHITE—Very large, growing 12 inches long. Pkt., 5c; oz., 10c; 1/4 lb., 25c.

ROUND BLACK SPANISH—Fine globe shape, 3 or 4 inches in diameter, skin black, flesh white. Pkt., 5c; oz., 10c; 1/4 lb., 25c.

LONG BLACK SPANISH—Black skin; white flesh, long, will keep until spring. Pkt., 5c; oz., 10c; 1/4 lb., 25c.

FOR QUANTITY PRICE, SEE PAGES 28 & 29
SQUASH
SUMMER AND EARLY SORTS
One ounce to 20 hills; 4 to 5 lbs. to the acre. Hills 4 feet apart each way. Ready for use in from 55 to 65 days from planting.

Any good, enriched soil is adapted to the growth of the Squash. The seed should not be sown in the spring until danger from frost is past and the ground is warm and thoroughly settled. Keep the earth about the plants loose and clean. Three plants to the hill. For remedy against bugs, see Insecticides.

DELICATA SQUASH—A perfect all-season Squash, summer and winter crop on one plant. Produces fifteen to twenty fruits to a vine. Delicious chestnut flavor. Delicata produces an enormous number of fruits of such convenient size that the entire squash can be used at one time. It is ready almost as soon as the early summer sorts, is better flavored, and remains in perfect condition as long as any keeping variety. Its flavor when cooked has been compared to the sweet potato, others liken it to roasted chestnuts, but all agree that it is delicious. The fruits are about 9 inches long, and when ripe are deep yellow, irregularly striped and mottled with a dark olive-green. The flesh is thick, fine texture and pale yellow in color. It is unexcelled for baking—the shape and size make it perfect for this purpose and none better for pies. When boiled it is dry, granular and mealy. Price: Pkt., 5c; oz., 20c; ½ lb., 50c; postpaid.

FORDHOOK—Small, oblong, shell yellow, flesh dry and sweet, and of good flavor. Very early; desirable for either summer or winter use. Price: Pkt., 5c; oz., 15c; ½ lb., 45c; postpaid.

GOLDEN BUSH SCALLOP—A very early flat, scalloped variety; skin deep yellow; flesh pale yellow and well flavored. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

SUMMER CROOKNECK—Very early and productive. Fruit about one foot long, with crooked neck and warty surface; color bright yellow. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

WHITE BUSH SCALLOPED (Patty Pan)—Very early; skin white; flesh tender and delicate, bears abundantly. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

FALL AND WINTER SORTS
From planting to maturity 100 to 125 days.

One ounce to 20 hills; 3 to 5 lbs. to the acre. Hills 8 feet apart each way.

Gather before injured by the frost for winter use, care the slightest injury will increase the liability to decay. Winter squashes. It is creamy orange in color; fine form, handsomely graceful appearance. Price: Pkt., 5c; oz., 15c; ½ lb., 40c; postpaid.

BOSTON MARROW (Autumnal)—Large, oval form; skin bright orange, mottled with cream color; flesh rich salmon yellow, fine grained and good flavor, unexcelled for pies. Price: Pkt., 5c; oz., 15c; ½ lb., 40c; postpaid.

MAMMOTH CHILI—Enormous size, round, flattened at ends, skin orange color and slightly ribbed. Flesh thick and deep yellow. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

PERFECT GEM—Nearly round; skin creamy white, flesh fine grained. Vine bears great numbers of small squashes. Price: Pkt., 5c; oz., 15c; ½ lb., 40c; postpaid.

SIBLEY (Pike’s Peak)—Pear-shaped with stem on large end, skin smooth, pale green; flesh thick, orange color; very dry, rich and delicate flavor. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

WINTER CROOKNECK—Fruit long and crooked-necked, skin dark green, mixed with yellow. A fine keeper. Price: Pkt., 5c; oz., 15c; ¼ lb., 40c; postpaid.

SQUARE CHARD OR SEA KALE
Far superior to the common beet for greens, of almost the same flavor and equal to spinach. Sown early in spring in rows; thin seedlings out to 6 inches in the rows; it makes rapid growth of leaves and is fit for use for greens sooner than any other variety, and can be cut throughout the entire summer. Later the leaves grow very large with broad, flat, wax-like stems and mid ribs, which may be cooked, like asparagus, or made into pickles. Price: Pkt., 5c; oz., 20c; ½ lb., 60c; postpaid.
DWARF PONDEROSA—An improvement over the old Giant Ponderosa. As its name implies, it is not quite so large, but otherwise the fruit is very similar. The vines grow in bush or tree form, similar to the Dwarf Champion. It has proven a great success wherever grown. Price: Pkt., 10c; oz., 40c; 1/2 lb., $1.40; postpaid.

EARLY DWARF CHAMPION—A great favorite, especially in the northern states, on account of its dwarf habit and upright growth. The fruit is of medium size, of purplish pink color, very smooth and symmetrical, very solid and of fine quality. The stems are short, thick, stiff and almost self-supporting. Price: Pkt., 5c; oz., 30c; 1/4 lb., 90c; postpaid.

CHALK'S EARLY JEWEL—The largest, smoothest and finest flavored second early scarlet tomato in cultivation. The plants are of compact growth with dark green leaves and fairly loaded with fruit throughout the entire season. The large handsome, bright scarlet fruits are very solid and deep through, being almost round, and ripen right up to the stem without any cracks or green core and have comparatively few seeds. The flesh is thick and sweet; skin thin, but strong, making it a good shipper. Price: Pkt., 5c; oz., 35c; 1/2 lb., $1.10; postpaid.

CRIMSON CUSHION (Beefsteak Tomato)—Large size, nearly round and of very good quality. The color is bright scarlet and flesh very thick and meaty. Specimens of this tomato have weighed as heavy as one pound. Price: Pkt., 5c; oz., 35c; 1/2 lb., $1.10; postpaid.

EARLIANA—It is a full week ahead of all others. Plants of strong growth and very productive. Fruits large, deep red and of superior quality. Smooth and free from cracks. Price: Pkt., 5c; oz., 30c; 1/2 lb., 90c; postpaid.

GOLDEN PONDEROSA—One of the most interesting novelties ever introduced. It equals Ponderosa in size but bears rich, golden-yellow fruits in abundance. A yellow tomato that has color to distinguish it, is not entirely novel. Many such varieties have been introduced, but have failed to gain popularity, by lack of flavor or some other essential, have disappeared from cultivation. Golden Ponderosa is equal in every respect to its parent, the Red Ponderosa, possessing all the qualities that have made our Ponderosa a household word throughout the land, and, in addition, has the striking color which compels instant attention. That which differentiates it from all other sorts is its conspicuous and striking appearance when served sliced with a red Ponderosa.

This combination produces an effect appealing to the appetite and supplies a decorative table effect both novel and attractive. Price: Pkt., 10c; oz., 40c; 1/2 lb., $1.35.

JUNE PINK—An extra early purple-fruited tomato similar to the popular scarlet-fruited Earlana in growth of vine, shape and size of fruit and time of maturing. Price: Pkt., 5c; oz., 5c; 1/4 lb., $1.10; postpaid.

Matchless

Mature in from 90 to 150 days from planting. 1 ounce to 2,000 plants. 1/4 lb. (transplanted) per acre.

For early plants, sow seed in boxes or hotbeds in March. When the plants are about two inches high, transplant to four inches each way. Set outdoors as soon as danger from frost is over. Transplant carefully four feet apart each way, and cultivate as long as the vines will permit. To obtain early fruit, pinch off the ends of the branches when the first fruit is set.

DWARF STONE (Livingston's)—Very early and productive; in size, color and quality of fruit equals the Stone; in habit of vine resembles Dwarf Champion, but is stronger and more erect, admitting very close planting. Price: Pkt., 5c; oz., 35c; 1/4 lb., $1.10; postpaid.

BEAUTY—The standard large fruited, medium early, pink variety. A hardy, strong, productive grower, producing large, always smooth fruits of perfect shape, excellent quality and purplish-pink color. The tomatoes grow in clusters of four to six and retain their splendid size until late in the season. Flesh is very firm; has a tough skin and but few seeds. Seldom rots or cracks after a rain. A good shipper. Price: Pkt., 5c; oz., 25c; 1/4 lb., 75c; postpaid.

BALTIMORE BAER—The best tomato ever introduced as a big money maker. For description see page 2.

ENORMOUS—Very large, beautifully smooth, solid flesh, few seeds, rather oval shape, mid-season, ripens all at once. Price: Pkt., 5c; oz., 35c; 1/4 lb., $1.10; postpaid.

FAVORITE (Livingston's)—Large, smooth, blood-red sort; early; ripens all over and through at once. Will bear shipping long distances. Very few seeds and has no hard, green core. Price: Pkt., 5c; oz., 35c; 1/4 lb., 75c; postpaid.
LIVINGSTON’S NEW GLOBE—Perfectly globe shaped, very early, large, smooth, has few seeds, firm fleshed; ripens evenly; rose-colored tinge with purple, very productive; an excellent keeper, flavor superior. Price: Pkt., 5c; oz., 35c; ½ lb., $1.10; postpaid.

MATCHLESS—Well worthy of its name, for in beauty, color and symmetry of form it is indeed without a peer. Vines are strong, vigorous growth, well set with fruit, very rich cardinal red color, and not liable to crack from wet weather; of large size, and the size of fruit is maintained throughout the season. Solid, of fine quality, keeps well. Price: Pkt., 5c; oz., 35c; ½ lb., $1.10; postpaid.

JOHN BAER—The best tomato on earth. It is the offspring of two marvelous tomatoes, the result of 15 generations of improvement and selection. It produces the most perfect, high, round red tomatos in 30 days, also an enormous crop under ordinary conditions; 100 to 200 fruits to each plant; ripens evenly right up to the stem; no cripples, no scallops, no blight, no cracked, wrinkled, one-sided, uneven, scarred fruit. When dead ripe John Baer tomato will not burst. It has a wonderful glistening, bright red color, and a mild, delicious, sweet flavor, is almost seedless, a marvelous stem setter, often 10 fruit in first cluster, solid and meaty. John Baer Tomato is the earliest, finest shaped fruit and has the best color and shipping quality of any tomato on earth. Price: Pkt., 10c; oz., 35c; ½ lb., $1.15.

LIVINGSTON’S CORELESS—A new, large main-crop variety. In shape it is almost round, having about the same diameter each way. It has no green core, and is of a bright red color, making it valuable either for slicing or for canning. Price: Pkt., 5c; oz., 40c; ¼ lb., $1.10; postpaid.

NEW COLOSSAL—An immense very handsome variety, ripening medium early. This will undoubtedly supersede the popular Stone Tomato as the leading market variety. It is bright red, of truly mammoth size, often weighing two pounds and more, and round and smooth. The flesh is firm, solid, and of finest quality and flavor, with very small core, making it one of the best for slicing. As it is almost free from acid it is most desirable for canning. Price: Pkt., 5c; oz., 40c; ¼ lb., $1.10; postpaid.

STONE—This variety is very large and of bright scarlet color; very smooth, ripening evenly to the stem without a crack, exceedingly solid; is an excellent shipper; quality the very best; fine for canning; a good keeper; without hard core; not subject to rot; its vines and foliage rank and robust. Price: Pkt., 5c; oz., 30c; ½ lb., 50c; postpaid.

TROPHY—(110 days). One of the best. Fruit large, smooth, of very deep color and a good flavor. A well-known variety and largely planted. Price: Pkt., 5c; oz., 30c; ½ lb., 50c; postpaid.

SMALL TOMATOES
Used for preserves, pickles, etc.

YELLOW PEAR—Bright yellow, fine flavor. Pkt., 5c; oz., 35c.
RED PEAR—Fruit bright red. Pkt., 5c; oz., 35c.
YELLOW PLUM—Clear deep yellow. Pkt., 5c; oz., 35c.
RED CHERRY—Bright red, grows in clusters. Pkt., 5c; oz., 35c.
YELLOW CHERRY—Deep yellow, a favorite for preserving. Pkt., 5c; oz., 35c.
YELLOW PEACH—Skin covered with slight bloom as in a peach. Pkt., 5c; oz., 35c.

HUSK (Ground Cherry)—Golden yellow. Pkt., 5c; oz., 35c.

LIKES THE GOLDEN PONDEROSA
Espoo, Minn., Mar. 10, 1939.

Dear Sirs—I just wish to tell you about two years ago, I sent to you for seed of the Golden Ponderosa Tomato. Last year I picked many tomatoes that weighed 1½ lbs. and one that weighed 2½ lbs. I think that was pretty good for Northern Minnesota. One day I picked about 20 bushels of ripe tomatoes out of our garden.

Your satisfied customer,

MRS. A. L. ALGER
The turnip is most easily affected in form and flavor by soil, climate and mode of culture. Sow in drills about 16 inches apart and half an inch deep, or sow broadcast, but in either case be sure to have the ground rich and freshly dug. Sow for main crop from the sow broadcast, though much larger crops are obtained by drill culture.

COW HORN—A white turnip of peculiar long shape and quick maturity. It grows to a large size standing half out of the ground. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

EARLY PURPLE TOP GLOBE—Deservedly popular, heavy yielder, of rapid growth and superior quality. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

EXTRA EARLY PURPLE TOP MILAN—Two weeks earlier than any other. Flat, white, with purple top. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

EXTRA EARLY WHITE MILAN—The earliest of all turnips, and of excellent quality. Top is very small, upright and compact, so the rows can be planted close together. The roots are clear white, very smooth, flat and symmetrical. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

EARLY WHITE FLAT DUTCH STRAP LEAVED—The most excellent garden turnip and like Purple Top Strap Leaf, a standard flat variety, maturing at the same time. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

GOLDEN BALL—A most delicate and sweet, yellow-fleshed, turnip of excellent flavor. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

POMERANIAN WHITE GLOBE—Very productive; in good soil roots grow from 10 to 12 pounds; good for the table or stock. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

PURPLE TOP STRAP LEAF FLAT—The old well-known sort of early spring and fall; purple above ground, flesh fine grained, of mild flavor and a good keeper. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

LARGE YELLOW, (Amber Globe)—Flesh yellow, fine grained and sweet, very hardy and productive; splendid keeper. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

SNOWBALL OR WHITE SIX WEEKS—Earliest and most perfectly formed round white turnip. Roots are very uniform in size and shape, short top and single taproot. Flesh snowy white, solid, crisp and very sweet. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

WHITE EGG—An egg shaped variety, for spring or fall sowing; flesh white, firm, fine grained; mild and sweet; particularly desirable for table. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

RUTA BAGAS

Should be sown about a month earlier than turnip. This is one of the best and most valuable of root crops. They may be very easily grown and more cheaply than potatoes, and usually are worth as much per bushel on the market.

AMERICAN PURPLE TOP—Tops very small; bulbs large; skin purple above, yellow underneath; flesh golden yellow; fine texture, sweet and of richest flavor. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

SWEET GERMAN (Long White French)—Bulb enormous. Flesh white, solid and rich. The best keeper of all the Ruta bagas, and popular for both table and stock. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

SKIRVING'S PURPLE TOP YELLOW—Quite productive; flesh yellow and sweet flavor, shape oblong. Price: Pkt., 5c; oz., 10c; 1/2 lb., 25c; lb., 75c; postpaid.

Tobacco

1 ounce will sow about 25 square feet and produce plants for 1 acre.

HAVANA—Best for the manufacture of cigars. Price: Pkt., 5c; oz., 35c; 1/4 lb., $1.00; postpaid.

CONNECTICUT SEED LEAF—An old well-known variety. Price: Pkt., 5c; oz., 35c; 1/4 lb., $1.00; postpaid.

ALWAYS GIVE SATISFACTION

Gentlemen:—We received garden seeds O. K. from you last week and are well pleased with them. Have used your seeds for about the past seven years and always gave satisfaction.

J. R. POPE
GRISWOLD'S "AERO" COLLECTION
$1.50 Value for $1.00

Big Value—High Quality—Good Results—Lasting Appreciation and the Universal Satisfaction of this Big Collection establishes the truth about Griswold quality—and quality is the keynote to the success that has characterized Griswold's seeds for thirty one years.

Twenty-six 5c and two 10c packages for $1.00 will give every opportunity to convince that Griswold quality is all and more than we claim. We value our reputation as our greatest asset and for thirty one years our sole aim has been, is, and will continue to be, to make the name GRISWOLD, when applied to seed, the highest possibility to obtain.

This Collection consists of twenty-six 5c and two 10c packages—catalog value, $1.50—and cannot be broken. Look up their description.

1 pkt. Bean, Crosby's Egyptian 5e
1 " Bean, Black Wax 5e
1 " Bean, Giant Stringless 5e
1 " Bean, Kentucky Wonder 5e
1 Cabbage, Early Flat Dutch 5c

NOTICE—Before sending your order, look over the index, as you will, no doubt, find something else you want. When sending your seed order include a few plants, poultry and bee supplies, insecticides etc. Thus you will save time and express charges.
# Market Gardener’s Price List

On this page you will find prices of all the different kinds of Garden Seeds displayed in our catalog. These prices are not postpaid. You can order them sent by express or freight, and if you wish them sent by parcel post your Postmaster can tell you the amount of postage. If you will add the number given if sent by express, plus the postage, you will have the cost of shipping. When ordering, you should state the number of packages wanted.

### In Making Your Order, Please Give the Price, to Avoid Delay and Errors
SEED POTATOES

One peck will plant about 100 hills, 8 to 12 bushels required to the acre.

With no other seed is the importance of change more essential than with potatoes, and by using our Northern grown seed you are assured of early maturity, increased yield and vigorous growth. The following varieties are, we think, the best and most satisfactory sorts for growing in Nebraska and other states of the same latitude. Most of our seed potatoes are grown in Minnesota or the Dakotas and are of superior quality. Order as early as possible and we will ship as soon as weather permits.

CARMAN NO. 3—This potato is of large and uniform size, yielding immense crops. It is of perfect form. It has but a few eyes, and they are shallow; the skin and flesh are extremely white and its cooking qualities are very fine. It is a remarkably handsome potato, enormously prolific.

EARLY SIX WEEKS—Another potato of the Ohio type in great demand. Not the heartiest yielder, but good sized, smooth, round to oblong tubers, in eating condition before the well-known Early Ohios.

IRISH COBBLER—It is an excellent extra early variety, maturing good-sized tubers seven weeks from time of planting; producing very few, if any, small potatoes; all tubers being of marketable size.

RED RIVER EARLY OHIO—This is the most popular early potato in this country. We have more calls for it than any other early variety. Every potato grower knows what it is and knows just what it will do in his locality. It is the standard extra early the world over and other varieties are measured by it.

PRICES OF POTATOES

For prices see colored price sheet enclosed.

The simplest method of keeping root crops in good condition for winter use—store in cool cellar in boxes, etc., and cover with dry sand or fine soil, thus excluding the air. They will keep as solid as when freshly dug, and are ready for use at any time.

Hybridized Potato Seed

From the Seed Balls—Headquarters Stock

Millions never saw a Potato Seed Ball. Thousands have tried in vain to wet the seed. Now is your opportunity. This unrivaled seed will produce an endless variety of new kinds. Your fortune may be in one of them. They are as easy to grow as tomatoes.

Growing new and distinct Seedling Potatoes from the Seed Ball Seed is intensely interesting. They will be the greatest curiosity of your garden. This seed will positively produce innumerable new kinds, colors, shapes, sizes and qualities. The product will astonish you. Some may be of immense value and bring you a golden harvest. Every farmer, gardener and bright boy should plant a few packets. You may be one of the lucky ones. Full directions on every packet. Pkt., 10c; 2 for 25c; 5 for 50c; 10 for $1.

TO KILL POTATO BUGS, USE "BUG DEATH" WITH AN ACRE AN HOUR SIFTER

MARKET GARDENER'S PRICES, SEE PAGES 28 and 29
STOCK BEETS

CORN SAVER

140 to 150 days required from sowing to maturity.

One ounce will sow 100 feet of drill. 10 pounds per acre

A MONEY MAKER—In these times of uncertain prices it behooves the hog raiser to cast about for a cheap fattening food for his herd. We offer you this Sugar Beet. It is not an experiment. We have been selling it for the past five years in every state in the Union. If you have not tried it, surely, someone in your neighborhood has. We get hundreds of testimonials every year as to its worth as a hog fattener. Before we ever offered it as such we gave it a thorough trial ourselves on our own farm with the result that we named it CORN SAVER.

HOW TO FEED—We began feeding our hogs one-third corn, one-third alfalfa and one-third of the new CORN SAVER BEET. The amount of alfalfa hay and corn can be reduced from time to time until you will not have to average more than one small ear of corn to each hog, with very little alfalfa hay and the balance CORN SAVER BEET. Give them all they can eat and the hogs will grow tooting fat and healthy. Our experience proves we have struck something that will make the profit on hog raising several times greater than heretofore and believe will entirely do away with hog cholera.

AMOUNT TO SOW—It is an easy matter to raise these CORN SAVER BEETS. Simply sow on deeply plowed soil 10 pounds to the acre from April to June, in rows 15 inches to 2 feet apart. Thin plants to 8 inches in row—transplant young plants to fill vacancies. Cultivate thoroughly with a fine-tooth cultivator or an ordinary one-row corn cultivator and you will have one of the largest money-making crops you ever raised. Beet hulls are thick. If it is dry soil seed 24 hours in water before planting.

Price: Pkt., 6c; oz., 10c; ½ lb., 20c; lb., 75c; postpaid. By freight or express, 5 lbs., $3.00; 10 lbs., (enough for 1 acre), $5.50.

MANGEL AND SUGAR BEETS

STANDARD VARIETIES

When the fact is considered that 50 tons of Mangel Wurzel may be grown on a singe acre, at a small outlay, the wonder is that every farmer does not grow it.

DANISH SLUDSTRUP—Long, reddish-yellow, grows well above the ground and easy to pull. Price: Pkt., 5c; ½ lb., 15c; lb., 55c; postpaid.

SWEET POTATOES

One bushel of potatoes should produce 2,000 sprouts, 6,000 to 7,000 plants to the acre.

YELLOW JERSEY, YELLOW NANSEMONT—These are the most desirable varieties. Ready about April 1st. Write for prices

SWEET POTATO PLANTS—Ready about May 1st. For prices, see page 7.
DWARF ESSEX RAPE

Highly recommended to plant with oats or kaflir corn, increasing the fertility of the soil for the succeeding crop and leaving the ground mellow and clean from weeds. Do not plant until the weather has become warm; sow 2 bushels if alone and 1 bushel if with other seeds.

COW PEAS

HIGHLY RECOMMENDED TO PLANT WITH OATS OR KAFLIR CORN, INCREASING THE FERTILITY OF THE SOIL FOR THE SUCCESSING CROP AND LEAVING THE GROUND MELLOW AND CLEAN FROM WEEDS. DO NOT PLANT UNTIL THE WEATHER HAS BECOME WARM; SOW 2 BUSHELS IF ALONE AND 1 BUSHEL IF WITH OTHER SEEDS.

WHIPPOORWILL—Early bunch-growing variety. For price see colored price sheet enclosed.

NEW ERA—An early variety, maturing seeds in from 8 to 100 days. Probably the best sort for north and west. Can be sown after wheat is taken off the ground and still produce a good crop of forage or peas. For price see colored price sheet enclosed.

FIELD PEAS

CANADA FIELD PEAS (60 lbs. to bushel). With oats 1½ bu. per acre, 2 bu. if alone. Very valuable for cattle feeding. Excellent for horses and pigs when sown with oats. Farmers will find it very profitable to sow these peas with oats for feed. We have a splendid grade of northern grown fancy seed. Sow broadcast and harrow in. For price see colored price sheet enclosed.

VETCHES

WINTER VETCH (Vicia Villosa)—The Winter Cover Crop. Also called Sand or Hairy Vetch. It is a hardy legume sow in northern states in the fall months, growing well that season and remaining green all winter. It supplies a place in the north that the less hardy crimson clover does in the south. As a winter cover crop it prevents washing or leaching of soil during the winter, and at the same time a nitrogen gatherer it enriches the soil. Vetch also furnishes a very valuable hay or pasture. Drill for cover crop 10 to 20 lbs. per acre. For the hay use 1 bu. For price see colored price sheet enclosed.

SPRING VETCH or TAKES (Vicia Sativa) (Oregon Vetch)—Sown broadcast at rate of 1 to 1½ bu. to acre like wheat or barley and sometimes mixed with oats, for soilin. Valuable for orchard. Used in France and Canada as a substitute for peas. Cultures same as field peas. For price see colored price sheet enclosed.

SOJA OR SOY BEANS

IMPROVED YELLOW—Splendid sowing and hay crop, preferred by many to cow peas, as they stand up better and are easier to harvest. Of great value from the fact that they fertilize the soil like clover. Ground beans are equal to linseed oil meal in feeding value; as hay for silo it is equal to or better than clover. Will mature in all parts of the corn belt and in the middle states has been grown over 4 feet high; heavily podded with seed, producing 10 tons of feed per acre. For price see colored price sheet enclosed.

GRISWOLD'S READY QUICK HOG PASTURE MIXTURE

Good for One Season Only

Our annual "Ready Quick" Hog Pasture Mixture is good for one season only. It is especially good for hogs, but equally desirable for cattle, sheep, calves and cows. It contains 14 different grains and forage plant seeds, practically all of which grow again if fed down.

Griswold's "Ready Quick" Hog Pasture Mixture can be sown early and be ready to pasture in 6 or 8 weeks and should be in the finest kind of condition in July and August, just when your other pastures are dried up. It can also be sown in July or August and used as a fall pasture. We recommend sowing 50 lbs. to the acre, and if your ground is very rich and strong we would say sow 75 to 100 lbs. and by all means keep it fed down, as the stock eat it better when it is young and tender. Be sure and give this valuable Mixture at least a small trial as you cannot possibly make any mistake by sowing it. For price see colored price sheet enclosed.

PRICES OF FIELD SEEDS SUBJECT TO MARKET CHANGES
ALFALFA

Alfalfa is a perennial plant of upright growth, sometimes 3 feet high. The nature of the leaves is somewhat like clover, although not as large. The flowers are a purplish blue and bear in sprays. The seeds are small, yellowish green, kidney shaped and of about the size of a pinhead.

SUITABLE SOIL—Alfalfa makes a strong and rapid growth on well-drained, rather heavy land, which is supplied with some lime, and where the sub-soil, while not necessarily sand or gravel, is porous. On sandy soil the growth is vigorous, when moisture is abundant but during drought it will suffer unless the roots reach water at a depth of 8 to 10 feet. The land should slope some, as alfalfa will not stand surface water.

SEED BED—The land must be free from weeds and the ground must be thoroughly pulverized and well packed. About the middle of April, sow the seed evenly from the seed box or freshly plowed ground. If it is necessary to plow the ground before seeding, do it early, harrowing thoroughly and sow after a good rain has settled it.

SPRING SEEDING—Sow seed broadcast, or with drill from March to June 15th, at the rate of 20 pounds to the acre.

FALL SEEDING—Discs oat and wheat land as soon as the crop is cut, and then harrow or disk every 10 days until a suitable time for sowing before the 15th day of September, when you can sow as above. Cut for hay the next fall. This is the best time to sow for all except northern states, if you are sure of getting fall rains.

NEBRASKA GROWN SEED—We are in the center of the largest alfalfa seed-growing district in the United States. Nebraska-grown alfalfa seed has gained for itself a reputation of which we are proud. If you live east of the Missouri river we would advise you to INOCULATE your alfalfa seed with bacteria before sowing. In the west where there is more sunshine it is not so necessary.

SELECTION OF SEED IS MOST IMPORTANT—Poor seed is a primary and great cause of a poor stand. In buying alfalfa seed the highest-priced seed is often the cheapest. The loss is much greater in using seed of poor quality than the difference in cost of the seed. This loss comes from the labor thrown away, the stands lost and yields sacrificed by its use, as well as the final expense in getting rid of the weed seeds introduced.

If seed germinates poorly, one must either plant more seed or expect a thin stand. Small shrunken seed will not produce vigorous plants. Weedy seed means the introduction into the field of plantain, dodder, thistle, mustard or some other pest, ready to take advantage of the fine fertile soil and undo the work of two years' preparation.

AERO BRAND ALFALFA SEED—No seed which we handle is given closer scrutiny than alfalfa. We buy only the best offered, using the microscope and analyzing for purity. Our Aero Brand grade is the brightest, plumpest and cleanest we can find; and even this is not good enough until we have reclaimed it through our perfected machinery and taken out everything in the way of sand, broken grains and dirt. We invite the closest inspection of our Aero Brand Alfalfa from particular farmers and we will gladly mail you a sample on request for microscopic inspection and analysis.

OUR FANCY GRADE ALFALFA will be found of excellent purity, free from prohibited weeds, and grading lower than the Aero Brand because of color rather than actual value.

For prices see colored price sheet enclosed.

LINCOLN BRAND STANDARD INOCULATING BACTERIA

Hastens Maturity
Improves the Feeding Value
Increases the Yield
Enriches the Soil
Builds up the Land
Saves Fertilizer Bills

Our Standard cultures are not cheap cultures. They may be cheaper in price than some but in price only. They cannot be made better if ten times the price were offered. Every package is fully guaranteed.

All legume crops should be inoculated with our Standard Cultures. Artificial inoculation with pure cultures has long since been determined to be the only safe and sure way. Inoculated legumes take their supply of nitrogen from the air and not only feed themselves during growth but store up a surplus in the nodules formed on the roots for succeeding crops. But unless the proper bacteria are supplied or present there will be few if any nodules. Neither will the crop be maximum. A good legume crop will store up in the soil for use for future crops as much nitrogen as can be obtained for thirty to fifty dollars in commercial nitrogen carrying fertilizer materials. Take no chance. Inoculate all legumes with our Standard Cultures.

Our Standard Cultures are put up in amber colored glass bottles (excluding the blue light ray which is deadly to bacteria) with rubber corks and with glass air tubes and cotton filters. Thus prepared they retain their virility even for years.

INOCULATE—TAKE NO CHANCES OF FAILURE—INOCULATE
Our Clover Seeds are of the Highest Quality
and Thoroughly Cleaned and Tested

WHITE DUTCH CLOVER—Best adapted to moist soils, but does well on any land. Sow 8 pounds to acre. For price see colored price sheet enclosed.

SWEET CLOVER (Alfalfa’s Twin Sister)

WHITE BLOSSOM or BOKHARA (Melilotus Alba)—This lives two years and then dies. It is the variety commonly referred to when “Sweet Clover” is mentioned and is the best for general use.

MEDIUM RED (Common or June Clover)—This is by far the most important of all the varieties for hay or pasture. Sow in spring or fall and if no other grasses are used the rate of 8 to 12 pounds per acre. This clover is a biennial, and at best only lasts three years unless it is allowed to reseed itself, which should be done every two years. For price see colored price sheet enclosed.

MAMMOTH RED (Saplin or Vine Clover)—Quite distinct from Common Red Clover. It lasts longer and is two or three weeks later than the Common Red Clover. grown 3 to 5 feet high and yields an enormous amount to the acre; especially valuable for hog feed and for plowing under green on worn-out lands. Sow 12 lbs. to acre. For price see colored price sheet enclosed.

ALSIKE (Swedish Clover)—One of the hardiest of all clovers. This clover is very nutritious, yields abundantly and can be cut several times during the season. It is good for pasture, green fodder or hay. The roots do not heave like those of Red Clover and for this reason it is especially adapted for wet, moist places. It does well on most any soil and resists the severest cold and extremes of drought and wet. We advise farmers to sow 2 or 3 pounds of this seed with their Red Clover and Timothy. If alone, sow 8 pounds to the acre. For price see colored price sheet enclosed.

CULTURE—Sow the seed at the rate of 15 to 20 lbs. per acre with a nurse crop of grain or alone, in well-prepared fields in April or May. Cover the seed very lightly. It may follow a cultivated crop by preparing the seed bed with surface-working implements. If the soil is plowed, this should be done several weeks before seeding.

GOOD AS ALFALFA—Many farmers claim that the forage from this plant is just as good as Alfalfa and just as readily eaten by the stock after they have become accustomed to it. Sweet Clover is one of the best plants for bees, it makes a very fine grade of honey.

TIME TO CUT—If cut for hay it should be cut when about two feet high and before the stem is woody. If cut just before the seed is matured two years in succession, the plant dies out entirely. For prices see colored price sheet enclosed.

When you are ready to buy ask us for prices and give the amount of seed you will need. We have cheaper grades that will give good satisfaction. Get our prices and samples.

Prices of field seed subject to market changes.
BEAUTIFUL LAWNS

Our process of cleaning, re-cleaning and testing for germination, not less than the care taken in selecting the finest the seasons and markets afford, have yielded a degree of uniformity in growth and quality impossible to attain with less complete facilities and less knowledge of sources and methods.

Plant Griswold’s Aero Brand Lawn Seed

To make a Good Lawn—Nothing is more easily made and kept in order by a little well-directed care. To get grass seed up quickly and evenly the surface must be mellow and level with at least six inches of good black soil. Sow one pound of Griswold’s Special Lawn Mixture to every 400 square feet and rake the seed in and roll well, or use a wide board until soil is uniformly firm.

A rich velvety lawn with a background of Beautiful Ornamental Shrubs enhances the value of a home and gives to it the natural artistic setting that we so much admire.

GRISWOLD’S LAWN FERTILIZER

Sward Food is a Top Dressing prepared to feed the grasses and insure a thick and matted growth of rootlets, resulting in a compact and velvety turf. It also acts as a preventative and destroyer of the Antler or Grass Moth, and contains in soluble form the organic requisites for the healthy and luxuriant growth of all varieties of grasses.

Don’t cover your lawn with unsightly and offensive stable manure.

To Revive Old Grass Around the House, rake off the dead grass and scratch the ground with an iron-tooth rake. If there are any bare places, sprinkle in a little mixed grass or lawn seed, then roll or tread spots. Apply a light dressing of “Sward Food” occasionally. Approximate quantity to be used: 25 lbs. for 2,000 square feet; 500 to 1,000 lbs. per acre. It is put up to suit the small front yard, the little flower bed, the garden patch, or the magnificent lawn: 5 lb. packages; 10 and 25 lb. bundles. Price: 5 lbs., 45c; 10 lbs., 85c; 25 lbs., $1.75. By express or freight.

KENTUCKY BLUE GRASS

This valuable grass is very productive, usually early and very desirable as a lawn or pasture grass. It comes in the spring and with a few rains during the summer will make good pasture until late fall. It is surprising how well this grass does west even during the dry season. It is very desirable for lawns, is extremely hardy and will grow when all other grasses fall. For price see colored price sheet enclosed.

WHITE CLOVER

This is just the seed to sow on the bare spots in your yard or lawn where a very quick green covering is desired as it will cover better in ten days than grass seed will cover in two months. For price see colored price sheet enclosed.

Griswold’s Special Aero Brand Lawn Mixture

A mixture adapted to our hot, dry climate. It is composed of Blue Grass, White Clover, and several other best lawn grasses. Some of these come early, some grow best during the summer, some grow well in the shade while others make their growth in the fall. In this way one has green grass the whole season. One pound covers 400 square feet (a square 20x20 feet) for new lawns, and half this amount for re-seeding old ones. For price see colored price sheet enclosed.

Blue Grass
GRASSES

IF YOU WOULD BE SUCCESSFUL, BUY THE BEST

In the sowing of a lawn or pasture it will be found economical in the end to seed the best. The cost over poorer seed is, at the most, only a small part of the actual investment. We do not advocate high prices, because high prices and high quality do not always go together, particularly in the grass seed line. We want to call attention to, and protest against, the many sellers of seed who advertise low prices, which necessitates a cut in quality, to compete at a lower price with goods of better quality. We know of many instances where seed has been shipped into this state which would not pass the state law. When comparing prices, you must compare quality; have the samples tested at your State University or State House and be sure. We offer grass seed at prices that are just, based upon the quality offered. Send for samples.

MEADOW FESCUE
OR ENGLISH BLUE GRASS

22 lbs. to bu. Sow 21 to 28 lbs. per acre)

Hardy and very valuable for good feed and pasture. Starts early in the spring and lasts until November and December. Just the grass for permanent pasture or meadow. Meadow Fescue grows luxuriantly, the blades being broad, tender and nutritious, and springs up quickly after cropping. It starts early in the spring, affording most excellent grazing by March 20th or 30th, and in the fall will frequently keep cattle fat until late in November. For hay it should be cut soon after the blossoms fall. For price see colored price sheet enclosed.

CANADA BLUE GRASS

This is the blue grass of Canada, New York and the New England states. It does better on poor, clayey thin soils than on rich land. It is smaller, grows closer to the ground and stands cold and drought better than Kentucky Blue Grass. Has a very blue color and flattish stems. Very nutritious and really a valuable grass. Not desirable for lawn. For price see colored price sheet enclosed.

TIMOTHY

This grass is used exclusively for hay and does well on most any soil. Sometimes grows to the height of 4 feet on rich loam. It is exceedingly nutritious, particularly when ripe. This grass is also used for pasture. It is, however, better for hay and is sown mostly with Red Clover. For price see colored price sheet enclosed.

BROMUS INERMUS

Grows in Dry, Semi-Arid Regions. Very Resistant to Drought and Freezing. Lengthens Season of Green Pasture. 14 lbs. to bu. Sow 20 lbs. per acre

Nebraska Experiment Station says: "This is one of the principal grasses grown in the dry and semi-arid regions of Russia and Siberia. It always grows luxuriantly in the spring, and continues growth until late in the fall. Bromegrass spreads by means of underground rootstalks. As a hay crop, the grass usually furnishes good cuttings for two or three years, sometimes cutting three tons of cured hay per acre, after which the sod becomes so root-bound that the grass does not grow tall enough for hay (this can be overcome by disking), but will furnish the best pasture for several years."

TIME TO SOW BROME

If plenty of moisture is present it is best to sow in the fall, otherwise it is better to sow in the spring. It is sometimes sown with winter wheat. It is recommended to sow with alfalfa where the latter is to be used as pasture. For price see colored price sheet enclosed.

ORCHARD GRASS

(14 lbs. to the bu.; 1½ to 2 bu. per acre)

Because of its rapid growth orchard grass is one of the most valuable and popular of our domestic grasses. It is hardy and may be grown anywhere in the United States, except the extreme South and the arid regions of the West. It is a very hardy perennial vigorous grower and does as well in shade as in sunshine. It is about two weeks earlier than timothy and one of the last to succumb to frost in the fall.

The tendency of Orchard Grass to grow in tufts may be overcome by thorough preparation of the ground and liberal seeding or sowing with other grasses. It may be sown with good results at most any time from January to September, inclusive. Sow (if alone) 1½ to 2 bushels per acre. For price see colored price sheet enclosed.

When in the market for grass and field seed, write for our latest price list, some kinds may be cheaper.

GRASS SEED MIXTURES, SEE PAGE 37

PRICES OF FIELD SEEDS SUBJECT TO MARKET CHANGES
RED TOP

Valuable either for mixing in hay or permanent pasture grass. Succeeds almost everywhere but does best in moist, rich soil. It is being sown with Alsike in Western Nebraska, with a great deal of satisfaction. It is often sown with Timothy and Clover. For price see colored price sheet enclosed.

ENGLISH OR PERENNIAL RYE GRASS

This grass is considered invaluable for permanent pasture grass. Produces an abundance of remarkably fine foliage and soon forms a compact sod. After being cut it grows quickly and remains bright and green through the season. It is also a good variety for hay if cut when in blossoms, as it is then most nutritious. Flourishes best in moist soil. For price see colored price sheet enclosed.

GRASS MIXTURES

SOW 20 LBS. TO THE ACRE

MIXTURE FOR HIGH LAND—Good for pasture hay. Brome Grass, Meadow Fescue, Orchard Grass, Timothy, Alfalfa and Red Clover mixed in proper proportions. For price see colored price sheet enclosed.

MIXTURE FOR LOW, DAMP SOIL—Can be cut for hay, but better for pasture. Kentucky Blue Grass, Red Top, Meadow Fescue, Alsike Clover, English Rye Grass and Timothy. For price see colored price sheet enclosed.

UNIVERSITY GRASS MIXTURE—This is a special mixture recommended by the University Experiment Station as the best for pasture. We mix it in the proper proportion and use only the very best grade of seed. Brome Grass, Meadow Fescue, Orchard Grass, Alfalfa. For price see colored price sheet enclosed.

SHADY LAND GRASS MIXTURE—For orchards or timber pastures. This is a permanent grass mixture and is equally well suited for pasture or lawn. It is difficult to start unless the soil can be cultivated, but a top seeding in early spring without cultivation will result in better pasturage than if no care is given other than nature's methods. For price see colored price sheet enclosed.

MIXTURE FOR PERMANENT HOG PASTURE—This will be considered very heavy seeding and expensive, but if you have a hog pasture for keeps, you cannot afford to skimp on seed or limit the varieties. Alfalfa, Mammoth Clover, Timothy, Blue Grass, Orchard Grass, Meadow Fescue. For price see colored price sheet enclosed.

GETS A FINE STAND

Dear Sirs: I placed an order of beans with you in June and I must say I had the nicest stand and best yield I ever expect to see and they are making between 25 and 30 bushels per acre.

L. G. ROSS.

Mr. Ross planted 900 lbs. of our Navy Bean Seed.

PRICES OF FIELD SEED SUBJECT TO MARKET CHANGES

37
SEED CORN

OUR SEED CORNS, EARLY AND LATE DENTS AND FLINTS, ARE THE BEST

BRED TYPES

GOLD MINE—The grain is a rich golden, shining like new coin from the mint; dent, long, deep; kernel often over three-fourths of an inch long. This corn will shell more pounds to 70 pounds of ears than any corn we know of. Seventy pounds of Gold Mine on the ear will make 62 to 63 pounds of shelled corn. This is the smallest proportion of cob of any variety.

HOGUE'S YELLOW DENT—This corn is highly endorsed by the State Experiment Station and is one of the very best corns for Nebraska and Kansas. Ears are medium size to large, maturing in about 100 days.

IMPROVED LEANING—A rich golden dent corn, good sized ears, rich in protein. Owing to the deep, bright color, smooth tapering ear, and solidity and weight of this corn, it is in high demand by shippers, either for ear corn or shelled. It is a very productive sort, and because of the smooth, even surface, it is much nicer to handle than the rough hilled sorts.

CALICO—That fine, large, variegated corn that always yields well and makes big ears. This corn always gets ripe before frost.

WHITE CAP BUTCHER—A medium yielder, early red corn with white cap; will mature in 89 to 90 days and be good and sound.

IMPROVED IOWA SILVER MINE—Silver Mine is the most popular White Corn grown in the corn belt. It is a pure white dent corn with ears of good size and is inclined to be well over the butts and tips. It is early, yields heavy, has deep grains, stands up well and will probably grow more corn to the acre on thin land than any other variety. It yields enormously on heavy land.

IMPROVED REID'S YELLOW DENT—Has a wide reputation and is endorsed by more experiment stations than any other corn grown. Has heavy stalks with an abundance of blades, making extra fine fodder. It will ripen in 90 to 100 days; will yield from 50 to 90 bushels per acre ordinary farming.

PRIDE OF THE NORTH—This is a well-known variety; beautiful, deep dent, fine golden color, 8 to 9 inches long, with small cob and very long and deep kernels. A tremendous shelter. Seventy pounds of ears will make 67 pounds of shelled corn. Stalks grow to about 7½ feet, are short jointed and leafy; average distance base of ear from ground is 3 feet. Two well-developed ears are frequently found on one stalk. Yields 40 to 75 bushels to the acre. Ripens in 88 to 90 days. Is hardy and vigorous.

WHITE FLINT—The great feature of this variety is the large grains and small cob it produces. The ears are 12 to 15 inches long, smooth and symmetrical. Kernels are broad and flinty, and white in color. White flint makes a very sturdy and vigorous growth with a great abundance of broad, succulent leaves, and is of great value for fodder and silage as well as grain.

YELLOW FLINT—Similar to White, except color.

For price of any of the above seed corn see colored price sheet enclosed.

BEFORE ORDERING A QUANTITY OF SEED CORN, WRITE US FOR PRICES.

POP CORN

AUSTRALIAN HULLLESS—The Quality Popcorn—Also known in some sections as Japanese Rice. Tom Thumb, or Bumble Bee Popcorn. The Australian Hullless is a dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strains of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality. Fine flavor and abundance of hull or shell. Most tender and delicious flavor when popped, without any hard particles, melts in your mouth. It is grown extensively for market. Try it once, you will not be without it again. Price: Pkt., 10c; lb. 40c; postpaid.

BABY GOLDEN POPCORN—Smallest popcorn in existence. It is very prolific, producing from 3 to 10 ears on a single plant. The stalks do not exceed 3 feet in height and the ears from 2½ to 3½ inches in length. The kernels are but very little larger than a kernel of rice, of a handsome, lustrous, light golden color, and pop without leaving any hard center. Price: Pkt., 5¢ oz., 10c; ¼ lb., 15c; lb., 40c; postpaid.

QUEEN'S GOLDEN—The largest of all popcorns. The stalks grow five to six feet high, and bear two or three large ears each. It is yellow, but pops creamy and white, and of excellent quality. Price: Pkt., 5¢; lb., 25¢; postpaid.

WHITE RICE—A prolific variety. Ears short; kernels long, pointed and white. Probably no variety of popcorn is superior to this for popping. Price: Pkt., 5¢; lb., 25¢; postpaid.

Ask for prices on popcorn in large lots.
OATS

UNIVERSITY NO. 21

Hardy and good yielder. Largest yielder in Nebraska. 80 to 112 bushels to acre; 2 to 3 weeks earlier than common oats. Has superseded all other types in this state.

The Nebraska Experiment Station in Bulletin No. 160 says: "Strain No. 21" ranked first in yield. Its yield was 7.8 bushels per acre greater than the original Kherson Oats as an average for the four-year period. The consistent superiority in yield of strain No. 21 in the field plots as well as the nursery indicates a marked improvement over the original Kherson Oats. The white color would also give it an added value on the general market."

Being an extremely early variety it is of almost incalculable value as a nurse crop; keeping the land clean; rendering early harvesting; maturing before extreme heat; permitting of growing late sowing crops; kernel is slender, plump and white. Very high in nutritive value. No better oat on earth for rich, heavy soils. Great oat for light soils. In fact, it is a genuine money maker.

Our seed has been obtained from the original No. 21 oat as sent out by the Nebraska Experimental Station. For price see colored price sheet enclosed.

KHERSON OATS

Known as University Oats No. 1

Kherson Oats, when ripe, are a beautiful yellow in color. They have fine large spranglings or full heads. The leaves are broad and extend nearly to the roots. They are a good yielder under favorable conditions. They do much better than many other varieties in dry seasons, giving a fair crop when other varieties yield hardly 10 bushels to the acre. This variety is especially adapted to soils where others would lodge, as it has a short, stiff straw, bearing grain nearly one-half its length. It is an immense yielder and on account of its earliness usually escapes rust when other varieties may be entirely ruined. Kherson Oats ripen with barley and the extra early wheats, hence make splendid succotash mixtures when grown together. We have a fine lot of Kherson Oats for seed. For price see colored price sheet enclosed.

SWEDISH SELECT OATS

Swedish Oats have given such general satisfaction that we know many will still adhere to this favorite. One reason for its enormous yields is its "three-kernel feature". It has been bred and selected to produce three kernels to the pod. The grain is short and plump, and very heavy, of clear white color. The stock we offer is pure and clean, entirely free from any weed seed or seed of any other oat or grain. They are also acclimated to American conditions of soil and climate, and for this reason give much better results. At an extra cost of but a few cents per acre you can increase your yields 25 to 50 per cent just as well as not, by using our seed. For price see colored price sheet enclosed.

Prices of Field Seeds Subject to Market Changes
SPRING WHEAT

MARQUIS

Ten days earlier than Blue Stem or Red File and produces 5 to 10 more bushels per acre.

This is the wheat that won the $1,000 prize at the New York Agricultural Exhibition against all exhibitors, representing every wheat growing section of the hemisphere. Superior to any known variety in milling and baking qualities. It has recorded a yield of 50 bushels per acre. It was originated at the Experiment Station at Ottawa, Canada, and introduced to the public in 1905. We recommend it as the best beardless spring wheat for this latitude.

Appearance—Marquis Wheat is similar in appearance to Red Rife, but the heads, as a rule, are heavier and the straw shorter, making it less likely to lodge. The kernel is flinty, a little darker in color than Red Rife, being dark red, and more plump than that variety. It is beardless, having smooth, yellow chaff. Under certain climatic conditions a small percentage of the heads sometimes show a reversion to the Hard Calcutta parent by bearing beards. Otherwise these heads are identical with the bald heads, maturing at the same time and containing the same size and shape of kernel. It weighs from 90 to 90 lbs. per bushel. For price see colored price sheet enclosed.

MACARONI OR DURUM WHEAT—Sent out by the United States Department of Agriculture under strong recommendation as to its great value for semi-arid lands where good crops of spring wheat could not ordinarily be produced, has more than justified every claim made for it. The acreage of this variety is increasing every year in spite of the opposition of some millers. It out-yields by far any other variety of spring wheat, and it has been demonstrated that it makes bread superior to that made from the best Fife Wheat flour, and has proved to be practically immune to the dreaded rust. In growing it withstands extremes of weather which no other wheat will endure. For price see colored price sheet enclosed.

MILO MAISE

Milo Maize is an excellent grain for dry regions. It will yield 15 bushels to the acre under conditions so dry that corn will be a total failure. When fed with some succulent feed such as alfalfa, stock beets or sorghum, it makes fine feed for fattening cattle. To prevent waste milo should be fed in bags or ground. Plant 4 to 6 pounds per acre in rows and cultivate. For price see colored price sheet enclosed.

SPELTZ OR EMMER

It is grown and handled in the same manner as barley, though many feeders do not thresh it but feed direct from the stack or shock. It is a splendid feeding grain, in our opinion second only to corn, and in dry or cold sections where corn will not mature Speltz will be the very best live stock feed that can be produced. For price see price sheet enclosed.

BUCKWHEAT

JAPANESE—This sort has proven to be much earlier and more productive than any other variety. The grains are very large and of rich, brown color. It excels in yield and earliness. For price see colored price sheet enclosed.

SILVER HULL—A very good and popular variety. The grain is of light color, is rounder than the common variety, matures earlier, and yields a half more to the acre. For price see colored price sheet enclosed.

BROOM CORN

46 POUNDS TO THE BUSHEL

OKLAHOMA—DWARF—Possesses several features of merit which place it at the head of others, viz.: Its earliness, dwarf habit (5 feet high), robust growth, extreme productivity, long, well-ribbed brush and its ability to withstand drought. For price see colored price sheet enclosed.

IMPROVED EVERGREEN—The best variety for general cultivation account of color and quality of brush. For price see colored price sheet enclosed.

BARLEY

WHITE HULLESS—A valuable variety, has large heads, plump kernels, both hulless and beardless and looks like large white wheat. Is two or three weeks earlier than any other barley and an immense yielder. Stools wonderfully. Sow only 1½ bushels per acre. For prices see colored price sheet enclosed.

COMMON—Succeeds best on lands more sandy and lighter than those adapted to wheat. Sow from 2 to 2½ bushels per acre. For price see colored price sheet enclosed.

MANDSHEUR—It is an early six-rowed bearded variety, maturing 50 to 90 days from the time of sowing; is very strong strawed and stools well, bearing large heads of plump grains; adapted to all kinds of soil and climate. For price see colored price sheet enclosed.

CHAMPION—It is beardless and nice to handle. Grows tall and stands up well. Straw is good and grows taller than any other variety. For price see colored price sheet enclosed.

PRICES OF FIELD SEEDS SUBJECT TO MARKET CHANGES

40
CANOE OR SORGHUM

FEEDING VALUE—It is known quite definitely that an acre of sorghum will produce more food value, more pounds of beef or pork, when properly fed, than an acre of corn, 200 to 300 bushels of grain per acre, and suitable for feeding most any kind of livestock. It is especially recommended in the semi-arid regions of the West, or upon poor soil where ordinary Indian Corn will not produce a profitable crop. It matures a crop in 70 days—about three weeks earlier than Kaffir Corn. For price see colored price sheet enclosed.

SCHROCK KAFFIR-SORGHUM

Similar to Milo Maize and Kaffir Corn in general habit. It matures earlier than either, however, and the grains are somewhat larger and softer. It is also said to be more prolific, yielding thirty to fifty bushels of grain per acre, and suitable for feeding most any kind of live stock. It is especially recommended in the semi-arid regions of the West, or upon poor soil where ordinary Indian Corn will not produce a profitable crop. It matures a crop in 70 days—about three weeks earlier than Kaffir Corn. For price see colored price sheet enclosed.

FETERITA

This is the most excellent plant, yielding two crops of fodder during a season. It grows from five to six feet high, making a straight upward growth. The stem, or stalk, bears numerous wide leaves. The stalks keep green and brittle and juicy, making an excellent fodder either green or dried. The seed is fine chicken feed. It also seeds heavily, sometimes yielding 60 bushels to the acre. For fodder sow one to two bushels either broadcast or in drills. For price see colored price sheet enclosed.

TEOSINTE

It resembles corn somewhat in appearance, but the leaves are much longer and broader and contain sweeter sap. It suckers more than any other forage plant, generally producing 20 to 30 stalks from one kernel of seed, and growing to a height of 11 feet. Can be cut two to five times in one season when 2 to 3 feet high and used for green fodder, or it can be dried and makes a magnificent fodder for cattle during the winter months. For price see colored price sheet enclosed.

SEED FLAX

It will pay you to sow nice, pure, high-grade flax seed. Our seed is thoroughly reclaimed, free from mustard as any other seed and is as good as can be purchased anywhere. One of the most profitable crops, especially on new land. For price see colored price sheet enclosed.

PRICES OF FIELD SEEDS SUBJECT TO MARKET CHANGES
MILLETES

GOLDEN MILLET—This grows very rank and is one of the best varieties for hay on account of being so sweet, palatable and milk-producing. On good, rich soil it will make a growth of 4 to 5 feet, and although the hay may seem coarse, yet it is so tender that if cut at the right stage, which is when in full bloom, even the hogs will eat the cured hay quite greedily. Sow three pecks per acre. For price see colored price sheet enclosed.

SIBERIAN—(Also called Red German, Dakota and Early Russian Millet.) It is from two to four weeks earlier than Golden Millet, and can be cut for hay in 60 days from planting. It stools heavily. Sow 3/4 bu. broadcast or 3/4 bu. in drill to the acre for hay, on rich land. For price see colored price sheet enclosed.

WHITE WONDER MILLET—The most striking feature of the White Wonder Millet is the size of the heads. The heads will run from eight up to eighteen inches and a single head will have as many as 15,000 seeds. Another very desirable feature of White Wonder Millet is its earliness. This variety is much earlier than Golden Millet but not quite as early as the Siberian variety. The foliage is very heavy, the leaves broad, and therefore it produces an immense amount of excellent fodder which cures very rapidly. For price see price sheet enclosed.

HOG MILLET—The seed is very rich and thus especially valuable as a hog food. Seed also makes very fine feed for poultry and young chicks. A very much prized peculiarity of this millet is that the seed ripens while the stem is yet green, thus if cut promptly can be threshed for the seed, while the hay after being threshed, will make excellent fodder. Sow same as other millet. For price see colored price sheet enclosed.

JAPANESE BARNYARD MILLET—(Called “Billion Dollar Grass,” owing to its high value. Its greatest value is for green fodder, of which it yields 3 to 5 tons per acre. It is excellent for cows, producing more milk than corn fodder. It grows 6 to 8 feet high, and produces 50 to 90 bushels of seed per acre. It should be sown the latter part of May. 10 pounds per acre. For price see colored price sheet enclosed.

PENICILLARIA or PEARL MILLET—Greatest and best yields of green forage and continues to grow and produce through the entire season if cut frequently enough to prevent its going to seed. In actual field tests made some years ago on heavily manured ground it made green forage at the rate of 95 tons per acre in 135 days. No other forage plant has ever come up to that record. Relished by all kinds of stock and they eat it greedily. It ought to be grown on your farm. Sow thinly in rows 8 feet apart at the rate of 8 to 10 pounds per acre. For price see colored price sheet enclosed.

SUDAN GRASS

The Greatest Drought Resister Known. A new forage crop of immense value to farmers. Sow in drills 4 to 5 lbs., per acre broadcast 29 to 25 lbs. It is a tall annual grass, growing under favorable conditions to a height of 6 to 10 feet, but when broadcasted thickly it grows only 3 to 5 feet high. The stems are fine, the largest stalks seldom thicker than a lead pencil. Where the plants are scattered, they stool abundantly, as many as 100 stalks from a single root. The grass cures easily, making hay of excellent quality, which is readily eaten by all kinds of live stock. Will ordinarily yield two cuttings of hay in a season. The hay should be cut as soon as the grass is fully headed. Two or more cuttings per season can be made, and the yield is from two to four tons per acre. The quality of Sudan Grass hay is superior to Millet hay and is said to be about equal to Timothy. Will grow on practically all soils and can be used as a catch crop, same as Millet. Sudan Grass is strictly an annual and dies each year like Millet. For price see colored price sheet enclosed.

PRICES OF FIELD SEEDS SUBJECT TO MARKET CHANGES 42
Nursery Department

FRUIT TREES AND PLANTS BY MAIL

This year all our trees and plants will be sent by Parcel Post. Smaller sized trees are easier to transplant than the larger ones. Another thing, fruit trees are high in price and express rates are also high, so there is a saving from many angles by sending out the smaller sized trees by Parcel Post.

The trees and plants will be delivered right to your door with all charges paid. By having them come this way, it will save you the trouble of having to go to town right in the busy season as you would have to do if you bought larger trees and had them come by express or freight.

The trees will be well rooted, sound and healthy, and of 1 to 4 feet sizes.

Our nursery stock is all inspected by the State Entomologist and must be free from all insects and diseases before it can be sold. A certificate to this effect accompanies each shipment. We guarantee our trees to give you satisfaction in so far that if they are not satisfactory upon arrival you can return them immediately at our expense.

APPLIES

GRIME'S GOLDEN—Tree vigorous. Fruit above medium regular surface rich golden yellow; flesh yellow, flavor rich and spicy, slightly acid. Specially good for early winter. Season November to January.

DELICIOUS—Fruit is large, with the surface almost covered with a most beautiful brilliant dark red, blending to golden yellow at the blossom end. In quality it is unsurpassed, in flavor sweet, slightly touched with acid, but only enough so as to make it all the more pleasing, with an aroma delightfully fragrant. The flesh is fine-grained, crisp, juicy, melting and delightful. In keeping quality it ranks with the best, coming out of storage in March and April in perfect condition. Tree is very hardy. Is no more an untried novelty, but has been largely planted in the Middle West and Pacific states. Commercial orchardists plant them by the thousands.

JONATHAN—A delicious dessert apple. Fruit good size, surface a brilliant red; flavor rich and spicy, slightly acid. Specially good for early winter; very hardy and productive. Season November to January.

OLDENBURG (Duchess)—Fruit large striped, beautiful, quite juicy, mild sub-acid, or almost tart; tree a good bearer, with upright head, requiring little or no pruning; very hardy. Indispensable north and west, good south, and favorite east. One of the best for culinary use, being particularly well adapted for cooking and drying. July and August.

RED JUNE—Size medium oblong, very red. Flesh white, tender, juicy, sweet, acid with a fine flavor. Quite early and keeps well for a summer apple. Tree very hardy, bearing young and abundantly.

WEALTHY—Originated by the late Peter M. Gilson. A vigorous spreading grower, very productive and hardy. Fruit above medium to large, oblate, very regular, smooth, light yellow, almost wholly covered with bright red splashes and stripes. A beautiful fruit. Flesh white, often stained with red, tender, very juicy, slightly sub-acid, very good for table use and cooking. A splendid and profitable market sort. Season October to February.

WINEASAP—A valuable, well-known variety. One of the leading export apples, fruit medium, roundish, skin moderately thick and tough. Dark red with yellow; flesh very rich and firm. Season December to May.

YELLOW TRANSPARENT—One of the earliest apples. Fruit is medium large, smooth, transparent.

Skin is clear white, turning pale yellow when ripe. Flesh white, fine grained, aromatic, and of splendid quality. Tree is vigorous, good bearer. Its hardiness, vigor and early bearing commend it. Ripes in early August.

CHERRIES

EARLY RICHMOND (English Pie Cherry)—A well known old standard variety. Tree is hardy, healthy, a free grower, very productive and regular in bearing. Fruit clear bright red, of medium size, acid, rich and one of the best for canning and for pies. Ripes in June.

MONTMORENCY—Large, red, rich and acid. Very hardy and productive. It belongs to the Richmond class and besides ripening ten days to two weeks later, there is little difference between the two.

COMPASS CHERRY—Absolutely hardy everywhere. Nearly an inch in diameter, bright red, sweet and juicy and of very fine flavor. The original tree bore fruit the third year from the seed and has borne a full crop every year since. The tree is a regular and heavy bearer and produces fruit the next year after setting out. Is hardy as an oak.

FOR PRICES OF FRUIT ON THIS PAGE, SEE PAGE 44
CRAB APPLES

WHITNEY NO. 20 (Hybrid)—A beautiful, upright growing tree. A young and abundant annual bearer and very hardy. Fruit of large size, conical, yellow, striped with red, and covered with a whitish bloom. Flesh white, crisp, sub-acid, almost sweet and very fine for eating; good for sweet pickles. Season August to September.

PEARs

BARTLETT—Large size, with beautiful blush next the sun, buttery, very juicy, and highly flavored; tree a strong grower, bears early and abundantly; very popular. August, September.

FLEMISH—Large, red checked, beautiful, excellent quality, productive; one of the hardiest; very popular in the West.

APRICOTS

ALEXIS (Russian)—Medium to large, light orange, yellow furred with red; flesh tender, juicy, sweet and good quality; hardy; very productive.

BUD (Russian)—Medium to large, light orange with blush on sunny side; flesh sweet, juicy with flavor of the peach; hardy and productive. August.

PEACHes

CHAMPION—Fruit large, beautiful in appearance, flavor delicious, sweet, rich and juicy; skin creamy white with red cheeks; freestone. The peculiarity of this acquisition is its hardiness. One of the best bearers in Nebraska. August.

ELBERTA (Free)—The great market peach of the Southwest; perfectly hardy in the North and is believed by many growers to be the best all around peach: color lemon-yellow with blush on sunny side; flesh pale yellow, tender and juicy; tree vigorous; a good shipping peach.

PLUMS

LOMBARD—Medium size, oval, violet red, flesh yellow, juicy, pleasant. A great bearer and peculiarly adapted to light soils. Tree vigorous and hardy, succeeds where most other varieties fail. The most popular and profitable plum under general cultivation. One of the best for Nebraska and Kansas. Ripens last of August.

BURBANK—Medium to large, orange-yellow dotted and marbled with red; flesh meaty, yellow sweet and good; valuable for canning and a good market plum; mid-June. Hardest and most prolific of the Japan varieties.

OUR FRUIT TREE PRICES

These prices are postpaid if in 1, 2, 3 or 4 zones, if beyond add 10% for postage.

BLACKBERRIES

Plant in rich soil and a little shade, among trees, or on north side of trees or fence, if possible.

Of all the varieties tested, the Snyder has proven the hardest.

SNYDER—Medium size sweet and good, strong grower, production extremely hardy; fully proven its value. After all the experience we have had with blackberries we are thoroughly convinced that this is the berry for the West and Northwest. Should be universally planted. Price: 15c each; 6 for 80c; $1.25 per doz.; postpaid. By express $1.00 per doz.; $7.50 per 100.

RASPBERRIES

It is difficult to transplant one year plants. Two year plants transplant easily and are cheapest in the end. Plant on strong soil, manure freely, cultivate well, and mulch heavily. Moisture must be retained in order to grow raspberries successfully. Strong, well rooted plants.

RED RASPBERRIES

LOUDON—The hardiest and most productive of red varieties, very large and of the best quality. Price: 15c each; 6 for 80c; $1.25 per doz.; postpaid. By express $1.00 per doz.; $7.00 per 100.

BLACK RASPBERRIES

CUMBERLAND—Largest black raspberry known. Perfectly hardy and vigorous grower. For productiveness nothing exceeds it. In quality rich, sweet and luscious, a mid-season variety. Price: 15c each; 6 for 80c; $1.25 per doz.; postpaid. By express $1.00 per doz.; $7.00 per 100.

BIG SUCCESS

Gentlemen—This spring I sold from less than half an acre $1,000 worth of strawberries from plants that you handled. In addition, the Superb and Progressive varieties made three distinct crops during the summer and fall, and am still picking berries at the present writing.

E. C. EDEN
SMALL FRUITS

GRAPES

There is scarcely a yard so small, either in country or city, that room for one to a dozen or more grape vines cannot be found. They do admirably trained up to the side of any building or along the garden fences, occupying but small room and furnishing an abundance of the healthful fruit. Make the soil mellow and plant the vines somewhat deeper than they stood in the nursery. Plant about 8 feet apart by the fence or building. For vineyards make rows 8 feet apart, 6 to 10 feet in rows.

Note: Our grape vines are all strong, well rooted plants.

BRIGHTON—Red. Bunches and berries large, dark red color, fine rich flavor, juicy and sugary. Almost seedless pulp, quality very fine. Extremely hardy, bears abundantly and stands the heat of summer well. Ripens extra early. Price: 35c each; 6 for $2.00; $3.75 per doz. postpaid. By express $3.50 per dozen.

CONCORD (Black)—Too well-known to need much description; is considered by many to be the best all around grape grown; is extremely hardy, vigorous and productive, bunches large, compact; berries large, juicy, buttery and sweet; and will succeed well almost anywhere. Price: 25c each; 6 for $1.50; $2.75 per doz.; postpaid; by express, $3.00 per dozen.

MOORE'S EARLY (Black)—Bunch large, berry round with a heavy blue bloom, quality said to be better than Concord; hardy and prolific; a good market berry; ripens about two weeks before Concord. Price: 35c each; 6 for $2.00; $3.75 per doz.; postpaid; by express, $3.50 per dozen.

POCKLINGTON (Green)—Pale green usually with tinge of golden yellow where exposed to the sun; bunch large, very compact, very large, flesh juicy, sweet, with considerable pulp. Vine a moderately good grower, but very healthy and very hardy, it buds notwithstanding severe cold even better than Concord. It produces a heavy crop of fine showy clusters. Price: 30c each; 6 for $1.50; $3.35 per doz.; postpaid; by express $3.00 per doz.

CURRANTS

Hardy, easily cultivated, stand neglect well. Liberally responds to cultivation; indispensable for jellies, etc. Set four feet apart in rich ground; cultivate well or much heavier; prune out old wood so that each remaining shoot will have room to grow. If the currant worm appears dust with He-Bo.

CHERRY—Berries sometimes more than half an inch in diameter, bunches short, vigorous and productive when grown on good soils and well fertilized.

FAY'S PROLIFIC—The leading market variety; bunches and berries large and uniform in size, easily picked; exceedingly productive.

WHITE GRAPE—Very large, yellowish white, sweet or very mild acid. Excellent quality and valuable for the table. Productive.

WILDER—One of the strongest and most productive. Bunch and berries very large, bright, attractive red color, even when dead ripe; hangs on bushes in fine condition or handling until very late. A valuable market sort.

Prices: All currants, 45c each; 6 for $2.40; $4.25 per doz.; postpaid $4.00 per dozen, by express.

GOOSEBERRIES

Plant in good rich soil in rows 5 feet apart by 3 feet in the row, and give a liberal dressing of manure every season. Pruning every year is essential for the production of fine fruit. The English varieties do the best in partial shade and should be heavily mulched.

DOWNING—An old and well-known variety. Fruit large and handsome, pale green, of fine quality. A strong, vigorous grower, seldom affected by mildew. One of the best. Price: 45c each; 6 for $2.40; $4.25 per doz.; postpaid; $4.00 per dozen, by express.

EVEBEARING RED RASPBERRIES

ST. REGIS—Plants set early in April gave berries June 20th of same year, and continued to produce ripe berries freely until the middle of October. In addition to the bright crimson color and large size of the fruit, it is so firm and rich in sugar that it will stand shipping 200 miles can readily be kept in perfect condition for several days after being gathered. It succeeds upon all soils, and the canes are absolutely hardy. Price: 15c each; 6 for 80c; $1.50 per doz. postpaid; by express, $1.35 per doz., $8 per 100.

Raspberries, St. Regis Everbearing
STRAWBERRIES

The Strawberry has been styled the queen of fruits. It is the first to ripen and the quickest to come into bearing.

These should do well in any ordinary farm or garden soil. The ground should be well prepared. For field culture set in rows three feet apart, and from 12 to 15 inches in the row. For garden 15 inches apart each way. In winter a covering of straw or old hay will protect the plants. Do not cover until the ground is frozen. Strawberry plants cannot be shipped by freight to distant points, but should go by express or parcel post to insure safe arrival.

SENIOR DUNLAP. Medium Early, Perfect—This is the most popular strawberry in all sections of the United States. It produces immense crops of dark red, top-shaped berries of medium size to large size. Few varieties bear fruit of such uniform size and color. Stands universally as a leading commercial strawberry and succeeds equally well all over the country. Price: $0.25 doz.; $1.25 per 100 postpaid. By express, $1.00 per 100; $8.50 per 1,000.

BRANDYWINE. Very Late, Perfect—Blood red, large yeilder of large, round berries, fine quality, having a delicious flavor; makes plenty of good, strong, well-rooted plants. If you are looking for a No. 1 canning berry or for table use, we would recommend the Brandwyine. A good shipper.

Price 50c per doz.; $1.25 per 100; postpaid. By express, $1.25 per 100; $10 per 1,000

EVERBEARING STRAWBERRIES

Strawberries that yield fruit continually from May until frost have been known for a long time. The new cultivated sorts were originated by cross-pollinating these wild everbearing Alpine sorts with our standard varieties and combining the everbearing habits of the one parent and the size and quality of the other.

PROGRESSIVE. Considered by many as the best of the fall bearing varieties. The plants are vigorous and healthy and they multiply all they ought to. The berries are about an inch in diameter, uniform in size, of deep crimson color, very firm and of high quality. It begins to bear with the second early of the June varieties, yields then a heavy crop of nice berries and is really profitable for its June crop alone. It continues bearing all summer, though not as heavy, of course, and with favorable weather a good crop in the fall, when the weather gets cooler again.

Price: 50c doz.; $2.75 per 100; postpaid. By express $3.25 per 100; $22.50 per 1,000.

SUPERB. Probably the largest of the fall bearing varieties. They are nearly round, smooth, dark, crimson, glossy and of sweet, mild flavor. The plants grow well, with clean, dark green leaves; multiply freely. It yields so heavily and the berries are so fine, it is a profitable variety to grow for its June crop alone and it is one of the most prolific and best as a cropper in autumn. Plants set in spring will produce a fine crop of fruit the first year, provided the blossoms are kept picked until the middle of July. Price: same as Progressive.
Griswold’s Flower Seeds
General List of Annuals

In this department we include both annuals that bloom and die the first season, and such perennials as flower freely the first year. For Perennials, see pages 55 to 57.

Flower Seed—All Prices Postpaid

GENERAL CULTURE—A rather light and moderately rich soil thoroughly spaded, is most desirable. That the tiny seedlings may be seen and the weeds removed, it is better to plant all flower seeds in rows. Sow the seed evenly in the rows, cover with the finest of soil, about three times the diameter of the seed, and press the soil firmly over the seed. Keep covered with cloth or paper till sprouts appear. The soil should never become dry after the seeds have been swelled, for if it does, they will be pretty sure to fail. Do not grow the plants too thick. Keep the weeds down and the surface of the soil well stirred with a hoe or rake during the summer especially if the weather is dry. A great many varieties can be seen in the house, if desired, early, and afterwards transplanted. Most plants will continue to bloom much longer if the flowers are picked, and not allowed to form seeds. Discount: Any 6 of our Large 5c Pockets for 25c.

ASTERS—One of the most popular flowers for late summer and fall display. Sow seed early in deep soil with plenty of mulch. Hohenzollern—Improved. The flowers are very large and double with curled petals on long stems very graceful; mid season to late blooming. White, dark blue, light blue, pink, lavender, purple or mixed. Pkt., 10c.

Giant Comet—A beautiful, distinct variety, resembling chrysanthemums. White or mixed colors. Pkt., 10c.

Queen of the Market—The best early aster flowering two weeks earlier than the other varieties. White, pink, blue or mixed. Pkt., 5c.

Branching—Large, late-blooming, with long, strong stems. Purple, pink and mixed. Pkt., 5c.

Betteridge Guilled—Flowers large, freely produced, and of brilliant colors; height 12 inches. Mixed. Pkt., 5c.

ALYSIUM—5 to 10 inches. Profuse bloomer, good for bordering or for bouquets; fine for window boxes. Sow very early. Sweet—Fragrant white flowers. The old favorite. Pkt., 5c.

Little Gem—Dwarf and compact. Good for border. Pkt., 5c.

Carpet of Snow—Very dwarf trailing plant. Pkt., 5c.

AMARANTHUS (Tricolor Splendens)—Joseph’s Coat!—2½ feet. The inner foliage is of blackest bronze, tipped with green, while the outer foliage is bright scarlet and gold. The colors are especially brilliant if grown in poor soil. Pkt., 5c.

ANTIRRHINUM (Snapdragon)—Dark glossy leaves and beautiful spikes of flowers, with finely marked throats; one of the most showy border plants. Of easiest culture. Queen of the North—Large, fragrant white flowers. Nice for pot culture as well as borders. Pkt., 5c.

Tail Sorts—18-inch. Mixed. All sorts of red and yellow; best for cutting. Pkt., 5c.

Dwarf Sorts—8-inch. Mixed. Large variety of colors; best for edging. Pkt., 5c.

BALSAM—Sometimes called “Touche-Me-Not” or “Lady’s Slipper.” A tender annual growing about eighteen inches tall in the shape of a small tree and producing all along the branches showy single and double flowers like small roses. Should be grown in rich soil.

Camellia—A wonderful flower—The best of all Balsams. Flowers very large, perfect in form, very fragrant and produced in abundance. Mixed colors. Pkt., 5c.

Peony Perfection—Large and perfectly double, with beautiful curved petals, giving flowers a globular form. Mixed colors. Pkt., 5c.

Early Fine, Mixed. Pkt., 5c.

Started Plants—Mixed. Per doz., 85c; postpaid.

ACROCLANCIUM—2 foot. Daisy-like everlasting flowers; pink, white or mixed. Pkt., 5c.

AGERATUM—5 inch. One of the best border flowers, blooming all summer; of easy culture. Grows 5 inches high. Blue, white or mixed. Pkt., 5c.

AGROSTEMMA (Rose of Heaven)—1 foot. Attractive pink blossoms long, slender stems. Pkt., 5c.

Asterospermum—5 foot. Large, showy flowers. Good for borders. Pkt., 5c.
BACHELOR'S BUTTON—(See Centaurea Cyanus), this page, and Globe Amaranth, page 49.

BUNNET ERY FLOWER—(See Schizanthus, page 52.)

CASTER BEAN—See Ricinus, page 52.

CALLIOPSIS—Very hardy and showy annual with bright yellow and reddish brown single daisy-like flowers easily grown and useful both for garden decoration and cutting. Sow early and thin to 6 inches apart. Mixed. Pkt., 5¢.

CARNATION—(Indian Shot)—Stately plants with handsome foliage and showy flowers. The seeds should be soaked 24 hours in warm water before planting. If sown in February, should bloom in July.

Crozy's Dwarf Hybrid—Saved from best and largest flowers only. All colors. Pkt., 5¢.

CELOSIA (Plumosa)—About 2 feet high, of branching habit, with feathery plumes of brilliant colors; one of the most effective ornamental plants. Pkt., 5¢.

CRISTATA (Cockscomb)—Very popular annuals of easy culture producing large ornamental comb-like heads like ruffled chemille.

Tall Varieties—Mixed. Pkt., 5¢.

CENTAUREA—There are two types of this plant, one the "Gymnocarpa" or "Dusty Miller," a plant with silvery gray foliage and largely used for bordering formal beds, and the other our old-fashioned Bachelor Button or Corn Flower Centaurea Cyanus, which is a very hardy annual and flowering all summer and useful for cutting.

Gymnocarpa (Dusty Miller)—Graceful, fine cut, silvery white foliage. Nice for edging beds. Pkt., 5¢.

Coxcomb

Early Flowering—Comparatively dwarf plants producing both white and colored flowers, coming into bloom much earlier than the giant forms and will give a great profusion of bloom until late in the autumn. Mixed. Pkt., 5¢.

Early flowering, flowers beautiful and large, petals broad pure white, flushed with a delicate tinge of rose, profuse bloomer. Pkt., 5¢.

CYLAMEN (Giganteum)—They make flowering bulbs in one season if sown in sandy soil. Beautifully mottled leaves, immense flowers of great substance. Mixed colors. Pkt., 5¢.

CANDITUTT—A free-flowering, hardy annual somewhat resembling Alyssum, but larger, with longer heads of bloom, fragrant and easily grown early in the season. Sow early where plants are to bloom.

Mix—All colors. Pkt., 5¢.

CHINESE WOOLFLOWER

(Celosia Childsii)—A distinct form of the plumed Celosia, with beautiful, ball-shaped flower heads of a purplish-crimson color, somewhat resembling a ball of wool. It flowers profusely during summer and fall. Two to three feet tall. One of the finest fall-blooming annuals. Pkt., 10¢.

Chinese Woolflower

Cranthemums
CHRYSANTHEMUM (Annual)—Showy and effective garden favorites, extensively grown for cut flowers. The hardy annuals are summer flowering border plants, good for pot culture and quite distinct from the autumn flowering varieties. Choice mixed. Pkt., 5c.

COLEUS—The most popular of all foliage plants. Easily grown from seed, but must be started in a box in the house or hot-bed, as the seed is very fine and when sown is scarcely covered, but must be kept moist. Tender annual. Pkt., 6c.

CLARKIA—Very pretty, free flowering annuals desirable for shady places. The flowers of rose, white, red, purple, etc., borne in profusion during the summer 1 to 2 feet. Mixed. Pkt., 5c.

CLEOME PUNGENS (Giant Spider Plant)—Rose colored flowers with long stamens. A tall grower and blooms freely until frost Pkt., 5c.

DIMORPHOTHECA AURANTIACA (African Daisy)—An extremely showy annual daisy from South Africa which suits our climatic conditions perfectly. The husky plant grows 12 to 15 inches high. The flowers, which are 2½ inches across, are a rich glossy orange yellow with dark disk and halo. These glitters in the sunshine and produce a magnificent sight when in full bloom. Seed may be sown in the same way as Asters or Petunias and should have a dry, sunny position. They bloom the greatest part of the summer and fall. Pkt., 10c.

FOUR O'CLOCKS (Marvel of Peru)—This is another good old-fashioned flower, bearing hundreds of flowers during the season of white, yellow, crimson and violet. Some varieties combine two or more of these colors in spots, dalmatian, and splashes in such a manner as to give the flowers a most bizarre effect. Mixed. Pkt., 5c.

GERANIUM—Favorite house plant. Seed started early will bloom the first year. Mixed colors. Pkt., 5c.

**Diandhus, Heddevig**

GLOBE AMARANTH (Gomphrena)—Sometimes called Bachelor's Button. A very pretty everlasting flower with blossoms resembling clover. 2 feet. Red, white or mixed. Pkt., 5c.

GODETIA—Beautiful garden plants, having delicately shaded, large satiny texture, trumpet-shaped blossoms of many colors. Easily cultivated in any good garden soil. 1½ ft. Pkt., 5c.

Gypsophila (Paniculata, Baby's Breath or Love In a Mist)—2 feet. White flowers on branching stems, producing a veil-like mist over the plant. Pkt., 5c.

GYPSOPHILA (Elegans)—Beautiful pink. Pkt., 5c.

DATURA (Sweet Nightingale)—A large, strong plant, with trumpet-shaped, fragrant, pear-white flowers; 3 feet. Pkt., 5c.

DIANTHUS—Heddevig (Double Japan Pinks)—Carnation-like flowers. Of value for bedding. The colors range from pure white to crimson spotted and striped. Perennial, but blooms the first summer, and for years if the flowers are freely picked; much larger than the Chinese Pinks.

Heddevig Fireball—Brilliant scarlet. Pkt., 5c.

Heddevig Midnight—Blood red. Pkt., 5c.

Heddevig Snowball—Pure white. Pkt., 5c.

Heddevig Mixed—All colors. Pkt., 5c.

CHINENSIS (Double Chinese or Indian Pinks)—Compact plants with large double flowers. Excellent for bouquets as well as bedding. Pkt., 5c.

**Griswold's Flower Garden Collection No. 5**

Fifteen Large 5c Packages for 50c Postpaid

It is difficult to select flower seeds which give the best and most pleasing effects unless one is familiar with their habits of growth, etc. The collection which we offer below is made up of the best and most popular varieties known.

1 pkt. Alyssum (Little Gem) 1 pkt. Pansy
1 pkt. Asters 1 pkt. Petunia
1 pkt. Balsam (Lady Slipper) 1 pkt. Portulaca
1 pkt. Bachelor's Button 1 pkt. Salvia
1 pkt. Cosmos 1 pkt. Sweet Peas
1 pkt. Four O'clock 1 pkt. Verbena
1 pkt. Gaillardia 1 pkt. Zinnia
1 pkt. Nasturtium

**NOTE—PLEASE ORDER COLLECTION BY NUMBER.**
**HELIANTHUS** (Sunflower)—Remarkable for the stately growth, size and brilliancy of the flowers, making a very good effect among shrubbery and for screens. California, Pkt., 5c.

**Russian Mammoth**—Single, of gigantic dimensions. For larger amounts see Bird Seed, Pkt., 5c.

**HELIOTROPE**—In shades of purple, fine for bouquets; the sweet vanilla-like flower is liked by all. Pkt., 5c.

**ESCHOLTZIA** (California Poppy)—A hardy, free-flowing annual growing about 15 inches high and producing quantities of single, poppy-shaped blooms in shades of yellow, orange and red. Flowers over a long period. Sow early where it is to remain, as it will not bear transplanting.

**California**—All shades of yellow. Pkt., 5c.

**EVERLASTING**—See page 55.

**IMPATIENS SULTANA**—Rosy carmine flowers 1 inch in diameter, produced freely throughout the season. Although a house plant, it does finely out of doors. 1½ feet. Pkt., 5c.

**JOE’S TEARS** (Colx Lachrymae) 2 to 4 ft. The seed is frequently used as an old-fashioned remedy for sore throat, hoarser and teething babies. It is powdered and worn around the neck as a chain. Pkt., 5c.

**KOCHEA** (Burning Bush or Summer Cypresses)—The plants grow with so many slender branches resembling a small, closely shorn evergreen with light green leaves until fall, when the whole plant turns crimson. Sow May 1st and thin to 2 feet apart. 2½ feet. Pkt., 5c.

**LANTANA**—Shrubbery plants with verbena-like flowers in shades of red, white and yellow. Pkt., 5c.

**LARKSPUR** (Delphinium) Giant Hyacinth-Flowered; 3 feet. Derived from the striking resemblance of the flowers to a double Hyacinth. Colors both brilliant and delicate. Mixed and Alba. Pkt., 5c.

**LINARIARIA** (Kenilworth Ivy)—Flowers lavender and purple. A charming, small, hardy perennial trailing plant, suitable for baskets, vases, pots and rock work. Pkt., 5c.

**LOBELIA**—Annual plants of dwarf, compact growth, 4 to 6 inches in height, covered with numerous small star-like flowers. Pretty house plants.

**Crystal Palace** (Compata) 6 inches. Deepest blue. Pkt., 5c.

**Trailing Lobelia**—A dwarf plant of trailing habit; splendid for porch boxes, hanging baskets and vases. Deep blue flowers and dark foliage. Pkt., 5c.

**MARIGOLD**—The Marigolds are old favorites, free-flowering annuals of easy culture. They light the garden with a glitter of yellow far into the frosts of autumn.

**African—** Immense flowers, double, all shades of yellow. Pkt., 5c.

**French—** Dwarf grower; double flowers, rich golden yellow market with velvety brown. Pkt., 5c.

**Orange—** A beautiful orange color. Pkt., 5c.

**MATRICARIA** ( Feverfew) (Alba Pinnissima) 3 feet. Neat, small, double white flowers, well adapted for bedding and cutting. They are perennial in mild climates, but in our latitude are treated best as biennials or annuals. Pkt., 5c.

**MESEMBRYANTHEMUM** (Ice Plant)—Suitable for rock work, hanging baskets, etc. Foliage thick, frosted, wax-like white flowers. Pkt., 5c.

**MIGNONETTE**—A universal favorite on account of its sweet and delicate fragrance. The massive spikes are closely set with lavender, highly colored and very fragrant flowers. Pkt., 5c.

**MIMOSA** (Sensitive Plant)—A curious and pretty plant with pinkish white flowers; the leaves close and droop at the slightest touch at night. Pkt., 5c.

**GRISSWOLD’S SPECIAL DWARF NASTURTIUM MIXTURE**

Will give a large variety of colors in even proportion. It is made up from named sorts, and also contains some of the Lilliput Nasturtium and of the Dwarf Chameleon, which have the richest and most varied combination of colors ever produced. Pkt., 5c. oz. 15c; ½ lb. 50c; lb. $1.25. Postpaid, 5c.

**TALL NASTURTIUMS** (See page 51).
NIGELLA. (Love in a Mist or Devil in a Bush.) Miss Jekyll. These plants are vigorous and give an abundance of double oddly shaped, fluffy flowers of the clearest blue, contrasting most charmingly with the fine fern-like foliage. Pkt., 5c.

PANSIES—One of the most interesting classes of flowers grown. A bed of pansies in bloom always has something new for you in variety of color and marking, every time you visit it, although they are in bloom continuously from early spring until late in the fall.

The seed may be sown in the hot bed or open ground. Keep the soil moist. They prefer a shady place. Do not let the plants seed if you wish to keep them in bloom. If sown in the fall, pansies will bloom very early in the spring.

Fancy Mixed—A mixture of the best sorts and colors. Pkt., 5c.
Superb Mixed—An extra good quality. Pkt., 10c.
Special Giant Mixture—An excellent combination of fancy strains, selected with a view to being as near perfection as possible. Pkt., 10c.

FLOWER SEED COLLECTION
See Page 49

51
PETUNIAS—Very popular for their rich coloring, continuation of bloom, pleasant fragrance, and easy culture. Can be sown in the open border, in full sun or partial shade. Transplant easily. 1½ ft. high. 

• General Dodds—Beautiful; velvety, dark red. Pkt., 5c. 
• Howard’s Star—Rich, velvety, maroon with white blotch on each petal. Mayflower. Snowball—Pure snowy white. Pkt., 5c. 
• Giant Ruffled and Fringed Single—Flowers are exquisitely ruffled or frilled, of immense size, and of great variety of colors. Pkt., 15c. 
• Mixed—Sure to produce a good percentage of double petunias. Pkt., 20c. 
• Single Mixed—Extra choice. Pkt., 5c. 

PORTULACA (Rose Moss). Fomous masses of delicate green foliage covering the floor of the garden. Flowers resemble small roses and are of a very pleasing color. They thrive best in a rather rich, sandy soil and a sunny situation. Will stand any amount of dry weather. 

• Single Mixed—All colors. Pkt., 5c. 
• Double Mixed. Not all the plants will come double, but ½ single ones can be pulled out. Pkt., 10c. 

PRIMULA (Chinese Primrose). This is one of the most charming winter flowering house plants. Leaves are rich green and prettily cut, the star-shaped flowers stand well above the foliage in umbels and have a delicate odor peculiarly their own. Pkt., 15c. 

PYRETHRUM (golden Feather) “Parthenifoliun Aureum.” 6 inches One of the best plants for edging, grown for its beautiful yellow foliage. More successfully treated as an annual. Pkt., 5c. 

RICINUS (Castor Bean). Zanthemiens Mixed. 10 to 12 feet. The ornamental leaves, beautifully lobed, are 2½ to 3 feet tall. Each plant makes a perfect pyramid of foliage thickly set from base to top. The difference between the varieties is in the coloring of the grand bamboo-like stems and the long slender leaf stalks. Pkt., 5c. 

SALPICIDUS (Velvet Flower). Undoubtedly should be in every garden. The blossoms are more or less of a further variety and are exquisitely beautiful. Each plant produces a pyramidal mass of brilliant blooms. Pkt., 10c. 

SCHIZANTHUS (Butterfly Flower). “The Poor Man’s Orchid.” pyramid lushes covered with a multitude of small butterfly-like flowers of the most brilliant and striking color designs. 1 foot. Pkt., 5c. 

SALVIA (Flowering Sage). Among the most brilliantly colored of garden flowers and extremely useful for bedding; also valuable for pot culture. Blossoms are borne in long spikes of fiery red and continue to bloom until severe frost. Start in house and transplant into light soil. Tender perennials 2 to 3 feet tall. Pkt., 5c. 

SCABIOSA (Mourning Bride). Commonly known as the Pin Cushion Plant owing to the queer effect of the center of the flower. The outer petals making a ruffle and shaded with pin stripes. The flower stems are long and the blossoms keep well in water. The soft shades predominate. 2½ feet. 

Tall German Double. Mixed, all colors. Pkt., 5c. 

Snowball. Elegant, white flowers, sure to be liked for vases and bouquets. Pkt., 5c. 

SCHIZANTHUS (Butterfly Flower). “The Poor Man’s Orchid,” pyramid bushes covered with a multitude of small butterfly-like flowers of the most brilliant and striking color designs. 1 foot. Pkt., 5c. 

SENSITIVE PLANT. (See Mimosa, page 50.) 

SIMILA. One of the most desirable window vines on account of its charming, glossy green, elegant and graceful foliage. Sow seed in February and keep in moist place. Pkt., 5c. 

SNAPDRAGON. (See Antirrhimum, page 47.) 

STOCK (Giant Perfection) Very desirable because of its brilliancy of color, profusion and duration of bloom. Fragrant with large double rose-like flowers. Pkt., 5c. Mixed. 

SUNFLOWER. (See Helianthus, page 50.) 

VERBENA. Free-flowering hardy annuals of low-spreading growth; flowers of the most brilliant colors. Sow them early and they will bloom profusely from June until winter. 

• Deliance. Best scarlet. Pkt., 5c. 
• Alba. Delicate white. Pkt., 5c. 
• Mayflower. Delicate pink, very fragrant. Pkt., 5c. 
• Hybrida Blue. Blue shades. Pkt., 5c. 
• Purple. Purple shades. Pkt., 5c. 
• Choice Mixed. All colors. Pkt., 5c. 
• Starter. Mixed colors. Pkt., 4 for 50c; postpaid. 
• VINCA (Periwinkle). Splendid house and bedding plant, with glossy leaves and circular flower; mixed. Pkt., 5c. 

WALLFLOWER. Single annual. Very fragrant; purple, orange, and bronze. A favorite English flower. Sow seed the first of May will bloom from July until severe frosts. It is very satisfactory as a pot plant for winter, if kept in a cool room. Pkt., 5c. 

• CINNAMON. Flowers all summer, making the most brilliant display possible. Plants are of strong branching growth with abundant dark green foliage, each branch terminating in a bold showy flower. Excellent for border or summer hedge. Seeds grow easily and young plants transplant safely. 

• Giant Flowering. Plants of vigorous growth, about 3 feet high, bearing profusely their perfectly formed double flowers. Mixed. Pkt., 5c. 
• Shortstalk Fireball. Glowing, brilliant scarlet. Pkt., 5c. 
• Zebra. Striped. Flowers striped with red and yellow. Pkt., 5c. 
• White Gem. Small, double white flowers. Pkt., 5c. 

HOW TO GET 25c WORTH OF SEED FOR NOTHING—SEE PAGE 27
Annual Climbers

ADLUMIA CIRRHOSA (Allegheny Vine)—15 ft. The feathery foliage is like the Maiden Hair Fern. Delicate rose pink and white flowers cover the plant. Pkt., 5c.

ARISTOLOCHIA (Dutchman's Pipe)—An ornamental climber with brownish flowers resembling a miniature pipe. A perfectly hardy perennial, standing any climate where the oak lives. Pkt., 5c.

BALLOON VINE (Love in a Puff)—A rapid grower with fine white flowers followed by inflated seed pods resembling small balloons. Height 10 ft. Pkt., 5c.

BALSAW APPLE AND PEAR—Very rapid and dense climbers, with golden-yellow fruit which opens when ripe, showing the seed and blood-red inside. Mixed. Pkt., 5c.

CANARY BIRD FLOWER—A rapid growing, delicate vine with clean, handsome foliage and an abundance of canary-yellow blossoms, somewhat resembling a bird with half-extended wings. An excellent climber for shady places. Pkt., 5c.

CARDINAL CLIMBER—We consider this a most beautiful brilliant and distinct annual climber and rapid grower, attaining a height of 20 feet or more with beautiful deeply cut leaves not unlike some of the Japanese Maples and is literally covered with a haze of circular, fiery, cardinal red flowers from mid July to frost. The flowers are about half an inch in diameter and are borne in clusters of from 5 to 7 blossoms each; should be planted in warm, sunny situation on good soil. Pkt., 10c.

CYPRESS VINE—A beautiful climber with a profusion of scarlet or white star-shaped blossoms and fern-like foliage adapted to ornamental work. Pkt., 5c.

DOLICHOS (Hyacinth Bean)—Splendid climber, producing abundant clusters of pea-like flowers, followed by ornamental seed pods. 10 to 20 feet. White, purple or mixed. Pkt., 5c.

MOON FLOWER (Ipomoea Notiflora)—One of the most vigorous climbers. Will grow 30 feet; its large waxy white flowers open evenings and cloudy days. The hard outer coat of the seed should be cut through with a knife and planted in warm, rich ground. Keep the soil moist. Pkt., 5c.

GOURDS—Desirable for many places where an immense amount of vine is wanted quickly, producing odd and interesting fruit. Most sorts grow 20 to 30 feet in a season.

Cobaea—A rapid growing climber with large, purplish, bell-shaped flowers; plant the seed edgewise, and cover lightly. Pkt., 5c.

CONVOLVULUS or MORNING GLORY—The well-known kind. Mixed colors. Pkt., 5c.

CORNIVORES or SMART LEAF—The mammoth flowers of this vine run from 4 to 6 inches across and are marked with most beautiful colors and shadings. The vines are strong and robust, growing from 30 to 50 feet high during the season. Pkt., 5c.

PASSION FLOWER—One of the best summer vines for general growing. The beautiful blue flowers somewhat resemble a water lily in shape. Pkt., 1c.

WILD CUCUMBER—A very rapid climber, often growing 30 feet in one season. It is covered with clusters of white, sweet-scented flowers, followed by ornamental prickly seed pods. Pkt., 5c; oz., 10c.

SPECIAL NO. 16
For those who desire vines to cover long stretches of fence, etc., we have a mixture of 12 or more varieties of annual climbers. Pkt., 5c; 20c per half oz.; 35c per oz.

SEE OUR MONEY SAVING COLLECTION Pages 2 and 3
SWEET PEAS

Sweet Peas are among the most beautiful of all our hardy annuals, and can be planted in a sunny, open place, several feet from any building or close fence, and as far as possible from large trees. Sow as early in the spring as the ground can be worked. Make a trench 6 or 8 inches deep, but cover the seed only about an inch at first. As they come up, rake the dirt around the little plants, so that by the time they have reached the top of the ground, the trench will be almost full. Furnish support early. Give them plenty of water, and keep the blossoms picked closely. If they produce seed pods, they will stop blooming.

LARGE FLOWERED AND UNWIN TYPES

Early Flowering Varieties

AURORA—A beautiful orange rose. Pkt., 5c; oz., 15c; ½ lb., 35c.
BLANK KNIGHT—Deep maroon, veined black; large and open. Pkt., 5c; oz., 15c; ½ lb., 35c.
BLANCHE BURKEE—Large, pure white. Pkt., 5c; oz., 15c; ½ lb., 35c.
BOLTON'S PLUM—The extra large expanded flowers are of a soft salmon-orange pink; very showy. Pkt., 5c; oz., 15c; ½ lb., 35c.
CAPTAIN OF THE BLUES—Purple and Blue. Pkt., 5c; oz., 15c; ½ lb., 35c.
COUNTRESS RADNOR—A new lavender, very fine. Pkt., 5c; oz., 15c; ½ lb., 45c.
DOROTHY ECRORD—Pure white flower, beautifully shell-shaped; extra large, 3 on a stem. Pkt., 5c; oz., 15c; ½ lb., 35c.
DUKE OF WESTMINSTER—Very rich purple tinted with violet. Pkt., 5c; oz., 15c; ½ lb., 35c.
EMILY HENDERSON—Very large, beautiful white. Blooms early. Pkt., 5c; oz., 15c; ½ lb., 35c.

Extra Early Blanche Ferry—Standard rose pink wings, creamy white. Very early. Pkt., 5c; oz., 15c; ½ lb., 40c.
FLORA NORTON—A rich lavender, entirely free from pinkish tinge—almost a bright blue. Pkt., 5c; oz., 15c; ½ lb., 45c.
FLORENCE NIGHTINGALE—Delicate lavender. Pkt., 10c; oz., 25c; ½ lb., 75c.
FRANK DOLHY—Pale blue, very large and fine. Pkt., 5c; oz., 15c; ½ lb., 45c.
GLADYS UNWIN—A pale rose pink, with large bold flowers on long stems. Very early. Pkt., 5c; oz., 15c; ½ lb., 35c.
HONORABLE MRS. S. KENYON—Beautiful Primrose. Pkt., 5c; oz., 15c; ½ lb., 35c.
KATHERINE TRACY—A lovely pink. Pkt., 5c; oz., 15c; ½ lb., 35c.
LORD NELSON—Navy blue. Pkt., 5c; oz., 15c; ½ lb., 35c.
Lottie ECKford—White, edged with blue. Pkt., 5c; oz., 15c; ½ lb., 35c.
LADY GISELE HAMITON—A very light, dainty lavender. Pkt., 5c; oz., 15c; ½ lb., 35c.
LOVELY—A soft shell pink. Very good. Pkt., 5c; oz., 15c; ½ lb., 35c.
MISS WILMOTT—One of the richest orange-pink sweet peas. Pkt., 5c; oz., 15c; ½ lb., 35c.
NAVY BLUE—Dark indigo blue. Large and well formed. Pkt., 5c; oz., 15c; ½ lb., 35c.
NORA UNWIN—Nicely waved or fluted; usually has 3 flowers on a stem. One of the best white sweet peas yet introduced. Pkt., 5c; oz., 15c; ½ lb., 35c.
PRIMA DONNA—Exquisite rose pink; large and profuse. Pkt., 5c; oz., 15c; ½ lb., 35c.
PRINCE OF WALES—Rosy crimson. Pkt., 5c; oz., 15c; ½ lb., 35c.
PHILLIS UNWIN—Very large size. Rosy carmine. Pkt., 5c; oz., 15c; ½ lb., 35c.
QUEEN ALEXANDER—Scarlet. Pkt., 5c; oz., 15c; ½ lb., 35c.
SALOPIAN—Rich scarlet red. Pkt., 5c; oz., 15c; ½ lb., 35c.

SPENCER OR BUTTERFLY VARIETIES

Later Flowering Varieties

SPECIAL MIXED—A well-proportioned mixture of the above named varieties. Pkt., 5c; oz., 15c; ½ lb., 45c.
CHOICE MIXED—A good mixture of many old and new varieties. Pkt., 5c; oz., 10c; ¼ lb., 35c.

SPENCER VARIETIES—Choice mixed. Pkt., 5c; oz., 20c; ¼ lb., 35c.

GOOD BOOKS

On page 18 you will find a list of Books on Rural Topics. These are written by experts in this line. Look them over and order the ones that most interest you.
Hardy Perennials

Plants of this class are perfectly hardy in the open ground; they die down to the ground but only to the ground in the winter; once planted they are a lasting pleasure. Failure with them is practically impossible. Orders should reach us by April 1st; though in some seasons we can continue to supply this stock up to May 1st. NOTE—We can only supply perennial seed of varieties where it is listed.

ACHILLEA (Ball of Snow)—A favorite hardy perennial well worth growing, giving throughout the summer an abundance of small double pure white flowers in loose bunches; much prized for cutting. Seed Pkt., 5c; Plants, 20c each.

ACONITUM (Monkshood)—Handsome herbaceous plants with bold spikes of hood-shaped flowers, thrilling in either shade or sun. 2 1/2 ft. Aug.-Sept. Rich dark blue. Seed pkt., 5c.

AGUILLÉGIA (Colombine)—The Columbines are one of the most e'gant and beautiful of the hardy plants, producing their graceful spurred flowers on stems rising 2 feet or more above the beautifully divided foliage. Single mixed colors. Pkt., 5c; Plant, 25c each.

AGROSTEMMA CORONARIA (Rose of Heaven)—The flowers of the Agrostemma, known as "Rose of Heaven," were formerly woven into garlands or crowns, hence the name Coronaria. Easily grown Mixed colors. Seed pkt., 5c.

ALYSSUM SÁXIFRÁGÁNUM COMPACTUM (Basket of Gold) Valuable for early spring bedding, producing a profusion of bright yellow flowers. Good rock plant. Height one foot. Seed pkt., 5c.

ASTER (Michaelmas Daisies)—Michaelmas Daisies now h 1 a most important place in all hardy flower gardens, with their masses and clouds of dainty and brightly colored blossoms throughout the autumn months up to November, when other flowers are scarce. Mixed varieties in the finest array of sizes and colors. Seed pkt., 5c.

Bellis Perennis (Double Daisy)—6 to 8 inches. A charming old favorite for edging beds, borders or rock gardens. Blooms April to June. Pink, white or mixed. Seed Pkt., 5c.

CAMPANULA MEDIA (Canterbury Bells)—The old-fashioned sort with beautiful large bell-shaped flowers; Light blue, rose, white and mixed. Height 2 to 3 feet. Seed Pkt., 5c.

CAMPANULA CALYCANथA (Cup and Saucer)—Flowers resemble a cup and saucer, very beautiful. Mixed. Pkt., 5c.

CHRYSANTHÉMUM (Hardy)—Mixed colors. Pkt., 5c.

COREOPSIS LANCEOLÁTÁ GRANDIFLORA—This is one of the finest of hardy plants, with large showy bright yellow flowers, produced in the greatest abundance all summer long. As a cut flower they stand very near the head. Have long stems and last a long time. Height 3 feet. Seed pkt., 5c; Plants, 25c each.

DELFÍNIIUM OR LARKSPUR—indispensable to the herbaceous garden, their long showy spikes of flowers persist from June till frost and furnish the most satisfactory blues to any color scheme. All Delphiniums are pot grown. Mixed colors. Seed Pkt., 5c; Plants, 25c each.

DIANTHUS BARRATUS (Sweet William)—The varieties we offer are an improvement on the old-fashioned kinds, inasmuch as the colors and size of the flowers are very superior, being grown from select seed. Excellent border plants and fine for cutting. Double scarlet, white or mixed. Also single mixed. Seed Pkt., 5c.

DIANTHUS PLUMÁRÝS (Clove Pink)—An exquisite mixture of colors. Pkt., 5c.

DIGITALIS (Foxglove) Handsome and highly ornamental hardy plants of stately growth and gives a wealth of bloom. Height three to four feet. Seed Pkt., 5c; Plants, 25c each.

DAISY (Giant Shasta) Remarkably large, semi-double daisies, 3 to 4 in., across and pure white, with petals in two or more rows about a golden center. The plant is extra vigorous and maintains a fine show of great flowers throughout the summer and autumn. Seed Pkt., 5c; Plants, 25c each.

FORGET-ME-NOT (Myosotis Palustris)—None of the spring flowers are more appreciated than the Forget-Me-Not. Blooming all summer, they run in color from light azure-blue to deep royal blue, clear pink and pure white. Seed Pkt., 5c.

GAILLARDIA GRANDIFLORA (Blanket Flower)—One of the showiest hardy plants growing about two feet high and succeeding in any soil in a sunny position; beginning to flower in June, they continue the entire season. The large flowers are of gorgeous coloring. The center is dark red brown, while the petals are marked with rings of brilliant crimson orange and vermilion, and often a combination of all in one flower; excellent for cutting. Seed Pkt., 5c; Plants, 25c each.

Hollyhocks. 6 to 8 ft. August-September. One of the most majestic of hardy plants, and a clump or line in any garden gives an effect not obtainable with any other plant. Seed sown any time before midsummer will produce plants that bloom the following year.

Double Varieties. White, Crimson, Blood Red, Yellow, Pink. Seed Pkt., 5c; Plants, 25c each.

Double Mixed. (Charters Superb)—Seed Pkt., 5c.

Single Varieties—White, Rose, Yellow, Red and Mixed. Seed Pkt., 5c.

PERENNIAL PLANTS—CONTINUED

HIBISCUS CRIMSON EYE—Flowers of the largest size, often five to six inches across; pure white, with a large spot of velvety crimson in the center. Seed Pkt., 5c; Plants, 25c each.

HIBISCUS (Rose Mallow)—Very showy, pink flowers. Pkt., 5c.

LATHYRUS LATIFOLIUS (Hardy Everlasting Pea)—One of the best and most desirable flowering hardy climbers, attractive both in flower and foliage growing to a height of eight to ten feet and producing clusters of large showy flowers the entire summer. Fine for cutting, lasting well. Seed Pkt., 5c.

LUPINUS POLYPHYLLUS—A valuable race of perennial Lupines, giving an abundance of long spikes of delicate scented flowers in June and July. Clear blue. Height 3 feet. Mixed seed Pkt., 5c.

LYCNIS CHALCEODONICA—A most desirable plant, bearing heads of brilliant orange-scarlet flowers in June and July. Perhaps no class of plant has more popular names of which the following is but a partial list: Jerusalem Cross, Lamp Flower, Maltese Cross, Ragged Robin, etc. Height 2½ feet. Seed Pkt., 5c.

POPPY ICELAND—Single mixed. Elegant free flowering plants, bearing flowers in abundance all summer. Pkt., 5c.

POPPY ORIENTAL—Very striking colors, beautiful large flowers. Pkt., 5c.

PLATYCODON GRANDIFLORUM (Balloon Flower or Japanese Bellflower)—These are the most satisfactory of any plant we offer for the hardy border. They bloom for a month, commencing about July 10th; have large bell-shaped blooms in the greatest profusion. We offer two colors, blue and white. Height, 2 feet. Seed Pkt., 5c; Plants, 20c each.

PSEUDOCHERANTHEMUM ROSEUM (Persian Daisy)—Easy to grow and always in bloom. Their main season of blooming is in June. Cut off the flower stems after blooming, they will then bloom again. These are extremely showy. Height 2 feet. Seed Pkt., 5c.

STOKESIA CYANEA (Cornflower Aster)—Grows eighteen inches high bearing freely from early June until September its handsome lavender-blue Cornflower-like blossoms which measure from four to five inches across. Very showy. Seed Pkt., 5c; Plants, 20c each.

LIBERTY IRIS

LIBERTY IRIS—No other flower has so many combinations of color, especially of delicate and unusual shades. They are absolutely hardy, as in form, texture and coloring as any Orchid, and many are delightfully fragrant. They are not particular as to the soil; will grow where anything will but do better in well-drained locations. There is nothing prettier than this Liberty Iris, blooming from May 10th to June 10th.

FLORENTINA ALBA—Creamy-white, faintly flushed lavender; fragrant and early. This is the Orris root of commerce, being used for the manufacture of toilet powder. The roots are delicately perfumed. Plants, 25c each.

MRS. NEUBRONNER—Very deep golden-yellow. Extra. Plants, 35c each.

PALLIDA DALMATICA (Heavenly Blue)—Standard delicate lavender, falls clear deep lavender; flowers very large and extra fine. Plants, 40c each.

PURPLE PRINCE—Standard intense deep violet-blue; falls velvety dark purple; exceedingly rich and striking. Plants, 25c each.

QUEEN OF MAY—A lovely shade of rosy-pink, tinted with lilac; beautiful. Plants, 30c each.
PERENNIAL PLANTS—CONTINUED

PEONIES

"ARISTOCRAT OF FLOWERS"
The wonderful improvement made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. The gorgeous flowers, which rival the finest roses in size, form and color, are produced in great abundance.

**ANDRE LATURES**—Light red, prolific and beautiful. 60c each, postpaid.

**ALEXANDRE DUMAS**—A very pretty pleasing multiflower sort. Brilliant pink crown interspersed with white, salmon and chamois. Extra, 60c each; postpaid.

**DUCHESS DE NEMOURS**—Superb cup-shaped, sulphur-white flowers, fading to pure white. In all Peonies there is nothing so exquisitely chaste and beautiful as this variety in the half-open bud state; excels as a cut flower. Don't omit it. 60c each, postpaid.

**FESTIVA MAXIMA**—This is not only the finest white in existence, but many regard it as the queen of all the peonies. A grand cut flower variety, coming into bloom usually for Decoration Day. 60c each, postpaid.

**FELIX CROUSSE**—Large globular brilliant red flowers. A strong vigorous grower of medium height. One of the best. 75c each, postpaid.

**FRAGRANS**—Clear, delicate pink, rounding out into a wondrous full flower. Price, 50c.

**GOLDEN HARVEST**—A most striking variety, producing large, tri-colored blooms. The guard petals are blush pink with creamy white center. It combines cream, gold, white, pink, salmon, peach and apricot. The delicate color effect of the flower being creamy pink, strong, delicate fragrance. 60c each.

**L'ESPERANCE**—Soft, pale pink, slightly shaded with carmine. Very early, fragrant. Price, 60c each; postpaid.

**LOUIS VAN HOUTTE**—Fine shapely bloom of dazzling red: an old favorite. 60c each; postpaid.

**QUEEN VICTORIA**—The broad guard petals are a pretty blush-white; center slightly edged pink. Large. Price, 50c each, postpaid.

**RUBRA SUPERBA**—Magnificent rich brilliant deep crimson without stamens. Very large, full and double, and very late; always come perfect blooms. Very free bloomer. The past year it bore more blooms than any other variety we had. 75c each, postpaid.

**PHLOX**

This is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered make it especially desirable. These noble flowers are not only beautiful as individuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. Price: 30c each; any 6 for $1.50; 12 for $2.55; postpaid.

**ALCESTE**—Deep violet, shading almost to blue.

**ATHIS**—Deep, clear salmon. Some claim this to be the showiest variety in cultivation.

**B. COMTE**—Brilliant French purple, with crimson-carmine shadings.

**BRIDESMAID**—Pure white, clear carmine eye; blooms in large, round heads; attractive.

**CONSUL H. FROST**—Deep rose color; large white eye.

**DUGUESCLIN**—Roozy-lilac, distinctly rayed with lighter halo.

**ESCLARIMONDE**—Clear rosy lilac, deeper eye, exquisitely rayed and shaded.

**GENERAL VON HEUTZE**—Immense trusses of very large flowers; color of the most brilliant salmon-red, with white center; simply grand.

**HENRY MARCEL**—Dark violet-rose, white eye; distinct.

**HENRY-MURGER**—Enormous pure white flowers, with a very large showy, deep carmine center; fine florets and trusses; extra.

**INDEPENDENCE**—An excellent large-flowering early pure white; none better.

**KOSUTH**—Rich deep purple. Extra fine.

**LE MAHDI**—Dark violet-purple.

**L'ESPERANCE**—Clear rosy-lilac; large white eye distinctively rayed; large florets; an even bloomer.

**LOTHAIR**—Clear, even carmine, deep crimson eye.

**MISS LINGARD**—Pearly-white flower, with a very faint pink eye; very remarkable bloomer, producing two to three crops of flowers during the season.

**PANTHEON**—Large, clear, deep, bright pink, with faint halo; a charming variety.

**R. P. STRUTHERS**—The very best Phlox grown today. Color clear cherry-red suffused with salmon shades; deep red eye; fine large trusses.

Mixed Seed. Pkt., 5c.

SPLENDID SUCCESS

Gentlemen: Have always had splendid success with the bulbs I received from you and hope your seed will prove to be as satisfactory.

Winnie M. Meibr.
Summer Flowering Bulbs

Plant in deep, rich soil, when the ground becomes warm. For earliest flowering the tender bulbs may be started in the house. For succession of bloom, plant up to June 1st. After fall frost, lift the bulbs, let them dry, and then removing the tops, store in a cool, dry place, away from frost, planting early in the spring.

**CAnna**

The most popular decorative plant of the day. The earth should be spaded deeply and well enriched. After planting water sparingly until the plants have taken root and show good leaf growth. Our Cannas are large size started plants. Write for special low prices in large quantities.

Alphonse Boulavere—5 ft. green foliage the flowers are large of bright red color. 25c each.

Aemania—Grand color, yellow, heavily dotted and overlaid with blood-orange. 5 ft. 25c each.

**Dahlias**

Large, symmetrical double flowers having broad petals incurving at the center. Blooms from August to freezing weather.

**A. D. Livoni**—Rich pink, finely formed; a very handsome flower. 25c each.

**Arabell**—Very large and beautiful. Color soft primrose, shaded with rose. 25c each.

**Frank L. Basset**—Color bright royal purple, shading to lavender-blue, an extremely early and profuse bloomer. 25c each.

**Golden Wedding**—A giant flower. Deep golden-yellow, the same as found in the Golden Wedding Chrysanthemum. A gorgeous variety for the garden for cut flowers. 35c each.

**Jack Rose**—In color it resembles the Jacquemont rose. Profuse bloomer and splendid for cutting purposes. 25c each.

**Princess Juliana (New)**—Pure white free flowering, the best white for cutting; prize winner. 35c each.

**Queen Victoria**—Large, rich golden yellow. 25c each.

**Red Hussar**—Richest cardinal red, with long stems. Splendid for cutting. 25c each.

**Sylva**—A beautiful deep pink, shading lighter to the center. 25c each.

**Mixed Dahlias**—Including some of the above varieties. 25c each; per doz., 25c; postpaid.

**Dahlia Seed**—Single or double. Pkt., 5c, postpaid.
GLADIOLE

This is one of the best summer-flowering bulbs. It is a flower anyone can grow and is lovely enough to satisfy the most exacting. The flowering season may be continued by planting from the middle of April to the first of June. Set the bulbs 6 inches apart and 2 to 4 inches deep.

**AUGUSTA**—Lovely pure white, blue anthers. 7¢ each; 65¢ per doz.; postpaid.

**AMERICA**—The finest pink Gladiolus yet introduced; especially valuable to florists; spikes 2 and 3 feet long; flowers large, open and spreading. Color delicate lavender pink, 7¢ each; 65¢ per doz.; postpaid.

**BARON HULOT**—Dark purple, violet, 8¢ each; 75¢ per doz.; postpaid.

**BRENCHLEYENSA**—Intense fiery scarlet, 7¢ each; 65¢ per doz.; p. p.

**COLUMBIA**—Light orange-scarlet freely blothed with blush-purple throat freely mottled. 10¢ each; $1.00 per doz.

**HALLEY**—The predominating color of these flowers is delicate salmon-pink with a slight roseate tinge, though the lower petals bear a creamy white blotch with a stripe of bright red through the center, the whole producing a delightful effect. 10¢ each; $1.00 doz.; postpaid.

**PINK BEAUTY**—A beautiful deep pink variety, very early. One of the best. 6¢ each; 5¢ per doz.; postpaid.

**MRS. FRANK PENDLETON**—One of the most exquisitely colored and formed Gladiolus in our entire list. In addition the size of bloom is not exceeded by any other. The color is a delicately flushed salmon pink, the color extending to the reverse side of the petal as well as in the center. The blooms are wide open and are arranged individually on the very slender but wiry stems. Each flower is doubly enhanced by a rich maroon blotch on the three lower petals. 10¢ each; $1.00 doz.; postpaid.

**PRINCESS**—The $1.000 Gladiolus. Flowers are 5 to 7 inches broad, petals wide and rounded, forming an almost circular flower. The color is a brilliant crimson, with white blotches on the lower petals. Spikes 4 feet in height; produce 12 to 15 flowers. 10¢ each; $1.00 per doz.; postpaid.

**SCHWABEN**—A variety of extreme vigor, many of the bulbs producing two or three flowering stalks which very often produce side branches besides. The stalk produces about 20 very large flowers, 6 to 8 usually open at one time. The color is the best of clear canary yellow, shading to a soft sulphur yellow when opening. 12¢ each; $1.25 per doz.

**GRISWOLD'S SPECIAL MIXED**—All colors and varieties. Every one a beauty. 4¢ each; 10¢ per doz.; postpaid; 50 for $1.00; 100 for $3.00 by express at buyer’s expense.

---

**Bedding and House Plants**

**GERANIUMS**

25¢ each; the six for 90¢; postpaid

**ALPHONSE RICARD**—Large, perfectly formed semi-double flowers of bright vermillion-red.

**AMERICAN BEAUTY** (New)—Same color as the famous American Beauty Rose. Very free bloomer.

**BEAUTE POINTEVINE**—The color is a beautiful shade of shrimp-pink, delicately shading to white; a most profuse bloomer all season.

**JEAN VIAL**—Beautiful shade of mauve-pink, shading to clear white throat; the flowers and trusses are enormous, sometimes measuring 6 inches in diameter. Extra fine.

**LA FAVORITE**—Flowers purest white; very free flowering; always a perfect mass of white; an old favorite double flower of dwarf and branching habit. A perfect bedding and pot variety.

**S. A. NUTT**—This is more generally used as a pot plant and for bedding than any other variety the color is a handsome dark velvety scarlet with maroon shading, a vigorous grower.

**SWEET-SCENTED GERANIUMS**

25¢ each; 6 for 90¢; postpaid

**LEMON**—The foliage is pronouncedly lemon scented.

**NUTMEG**—Foliage has true nutmeg fragrance.

**ROSE**—The famous sweet rose-scented Geranium; very fragrant.

**PANSY GERANIUM** (Pelargonium)

Lady Washington Geraniums

25¢ each; 5 for $1.00; postpaid.

**EASTER GREETING**—Large bright amaranth red.

**LUCY BECKER**—Pleasing shade of rosy pink.

---

**FALL BULBS**

In September of each year we import from Holland a large shipment of Fall Bulbs. These should be planted any time from the middle of September until the ground freezes. This list includes bulbs for outdoor planting and for planting in the house. Write for our Illustrated Bulb Catalog.

---

**OUR FALL BULB CATALOG WILL BE READY ABOUT AUGUST 1st. WRITE FOR IT**

**AVALANCHE**—Purple corolla with red sepals.

**ROSINE PATRIE**—Large double flowers, white corolla.

**SPECIOSA**—Bloom in great profusion. Tube and sepals bright rose, corolla brilliant carmine.

**VIOLETS**

30c each; 2 for 50c.

**GOV. HERRICK**—Single dark blue.

**SHASTA DAISY**

20c each; 3 for 50c.

Beautiful large, white flowers with golden centers. Blooms entire season.

**SALVIA (Flowering Sage)**

15c each; 4 for 50c.

Flowers are borne in long spikes of fiery red and blooms until severe frost. Fine for borders.

**ANGEL'S TRUMPET**

It grows easily, blooms freely indoors in winter and in the garden in summer. Has large, tropical leaves, with blooms 8 inches long by 6 inches wide at the mouth, resembling a trumpet. Pure white in color and as fragrant as a Jasmine. Blooming plants, 50c each.

**PANSIES**

10c each; 85c dozen.

Large plants in bud and bloom of the most beautiful varieties and colors.

**VERBENAS**

15c each; 4 for 50c.

Our collection is made up of the best. Large flowering and most brilliant colored varieties. Large sized plants.

**GIANT PRIMROSE**

20c each; 3 for 50c.

**OBCONICA GRANDIFLORA**—A profuse blooming Primrose with large flowers, ranging in color from white to deep rose. Always covered with flowers. Should be in every collection.

**TENDER VINES AND CLIMBERS**

**THE WONDERFUL GIANT MOONFLOWER** (Ipomoea Maxima)—A giant in growth and flower, and wonderfully fragrant. This grand new Moonflower is a decided improvement over the old well-known variety, Ipomoea Grandiflora. The flowers are more than twice the size, oftentimes measuring from 6 to 7½ inches across. Its growth is very rapid when planted in good rich soil. Fine plants, 30c each.

**GERMAN or PARLOR IVY**—A rapid-growing plant, well adapted for training in the parlor. Leaves glossy green and flowers yellow, borne in clusters. 15c each.

**SMILAX**—A lovely house vine. 15c each.

**TRADESCANTIA** (Wandering Jew)—Fine for baskets. Two distinct kinds. 15c each.

**VINCA MAJOR VARIEGATA**—Fine for baskets and vases; green and white foliage. 20c each; large, strong plants, 50c each.

**CINNAMON VINE**—A beautiful Hardy climbing vine, which will quickly surround an arbor, window or veranda with a profusion of vines covered with handsome, glossy, heart-shaped leaves, bearing great numbers of delicate white blossoms, which emit a delicious cinnamon fragrance. We know of no vine that is more satisfactory, being perfectly hardy, thriving everywhere, and when once planted will grow for many years and be a source of constant delight. The vines quickly make long shoots 25 feet or more in length, and can be used for all purposes where a beautiful climbing vine is needed. Plant the bulbs about 1 inch deep in rich soil, and with the approach of winter cover lightly with straw and leaves to prevent freezing. 2 for 15c; 4 for 25c; postpaid.
ROSES

NOTE: The roses are 1 year old; will make a rapid growth the first year. Order in spring, not later than June 1st.

To obtain the most satisfactory results, roses should be planted in well-drained, rich, deep loamy soil, and given a place where they have sunlight and circulation of air. For winter protection an application of rotten manure should be given them in the late autumn, and spaded into the ground the following spring.

NOTICE: If the plants look wilted when received, put them in lukewarm water for 15 to 20 minutes. Set the plants about 2½ inches deeper than they were growing before and press the soil firmly around the roots. Give them a good watering. Shade from sun and wind until they begin to grow.

TEAS AND HYBRID TEAS

Price of first 7 Roses on this page: 30c each; 5 for $1.25.

KILLARNEY (The Irish Beauty)—Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty. One of the very finest forcers and has become the type for a numerous family.

KILLARNEY BRILLIANT—Newest member of its family and expected to follow Killarney, its parent, off the field. Color varying from crimson-pink in winter to a bright, true pink in hot weather, brilliant throughout the year. As free a producer and a trifle stronger than the parent, with nearly double the petalage.

SUNBURST—This magnificent giant yellow Rose is a fine forcer. It stands head and shoulders above all other of its color and will rank with American Beauty and the Killarneys in value and grandeur. The color is orange-copper or golden orange and golden-yellow; edge of petals lighter. Some call the color cadmium-yellow. It makes no difference what you call its color, it is the yellowest of all roses in the overblooming class. Belongs in the class of big Roses. It puts all the yellows to sleep when it comes to bedding in the garden. The golden-yellow color stays right with the sunflower until it fully finishes. Better get acquainted with “Sunburst.”

THE BRIDE (White Tea Rose)—Flowers very large on long, stiff stems. They last a long time after being cut, making it one of the best for bouquets. Sometimes a pinkish white in hot weather, but usually a pure white.

HYBRID PERPETUAL ROSES

Price of all Roses listed below except where noted: 30c each; any 5 of your own selection for $1.25; any 12 for $2.75.

AMERICAN BEAUTY (Mme. Ferd. Jamin)—Generally conceded to be the most grandly beautiful of Roses in size, form and color. Each red, passing to crimson, very delicately veined and shaded and surpassingly fragrant. A hardy everbloomer and rapid grower. Small, 30c each; postpaid.

CLOTHILDE SOUPERT—A really wonderful Rose for bedding out or for pot culture; medium size and very double; white, shading to deep pink at center; a profuse bloomer and a strong dwarf grower, deliciously fragrant.

ETOILE DE FRANCE—For the best red garden Rose it lies between this one, Rhea Reid and Helen Gould. Some say one and some say the other.

GENERAL JACQUEMINOT—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the “Jack” for its all “round” good qualities.

GRUSS AN TELEITZ (Greeting to Teplitz, or Virginia R. Coxe)—Hardy in all sections, grows freely, to a height of 4 to 5 feet; vivid dazzling, fiery crimson; sweetly fragrant; produces a mass of gorgeous blooms on long stems.

PAUL NEYRON—The largest of all Rose blooms; bright, shining pink, clean and beautiful; very double and full; finely scented; blooms first season and all summer. Grows to a great height in a single season and stems are almost thornless.

PINK SOUPERT—Rose-pink in color; otherwise same as Clothilde Soupert; always in bloom.

WELL PLEASED

Gentlemen: Received the plants in fine shape, was well pleased.

MRS. W. L. BUFORD

BEDDING AND HOUSE PLANT SEE PAGE 59-61
HYBRID PERPETUALS—Continued

Price of first 5 Roses on this page: 30c each; 5 for $1.25; 12 for $3.75

FRAU KARL DRUSCHKI (the White American Beauty or Snow Queen)—An everyday hardy, vigorous grower, with bright green leaves delicately veined; splendid long buds and magnificent snow-white blooms with very large saucer-shaped petals. Rightly named and deservedly a prize winner.

MADAME PLANTIER—A June Rose, well worthy of its long and continued popularity. Pure white, large and double; hardy as a forest tree; a free and continuous bloomer of the best white Hybrid Perpetuals, used extensively for cemetery planting.

MAMAN COCHET—Rich, rosy pink, shaded silvery-rose on outer petals; exquisite in color and graceful in form from bud to bloom and delightfully fragrant; beautiful, healthy foliage and long, stiff stems. Unquestionably the queen of pink Tea Roses and a leading cut-flower variety.

WHITE MAMAN COCHET—Identical with its parent, Maman Cochet, in everything except color.

MISTRESS JOHN LAING—Beauty in clear, bright, shining pink; each bud in its long, serrated calyx with adjacent, green foliage forms a very dainty and lovely boutonniere; immense, full bloom on long stiff stems sweetly scented.

HARDY CLIMBING ROSES

This class of Roses needs some protection in this climate, that is, states north of Kansas. A good plan is to lay them down and cover with straw or leaf mulch. It is freezing and thawing alternately that kills Rose bushes. Price of all Climbing Roses except Climbing American Beauty: 25c each; 5 for $1.25; 12 for $3.75.

CLIMBING AMERICAN BEAUTY—Seedling from American Beauty with an admixture of Wichuriana and Tea blood. Same as its namesake in size, color and fragrance, with the addition of the climbing habit. Better blooming qualities, good foliage, and has proven hardy and withstands heat and drought. Small, 25c each; postpaid.

CRIMSON RAMBLER—Most popular out-of-doors climber of today; a rapid producer of long, heavy canes, reaching a height of 10 to 20 feet in one season; rich clusters of bloom form a mass of vivid-crimson beauty until late in the season. Perfectly hardy in the most trying climates, being a native of Japan.

EXCELSA (Red Dorothy Perkins)—Intense crimson-scarlet; double flowers in brilliant clusters set in glossy shining foliage which never mildews nor spots. An intensified Crimson Rambler, which it promises to displace. Extremely vigorous and the handsomest of all the red climbers.

DOROTHY PERKINS—Beautiful shell-pink color which holds for a long time, fading finally to a lovely deep rose; very sweet scented; fully equal to Crimson Rambler in foliage, hardiness, habit of growth and blooming qualities.

WHITE DOROTHY PERKINS—Pure white sport from Dorothy Perkins, with which it is identical in foliage and habit. A valuable addition to the hardy climber class.

SHOWER OF GOLD—Deep golden-yellow orange flowers borne in splendid trusses forming a mass of bloom. Extremely long laterals are densely clad with a beautiful Wichuriana foliage, the leaves on upper side and stems a reddish-brown shot with a silvery sheen.

TAUSENDSCHOEN (Thousand Beauties)—Varying shades from a delicately flushed white to a deep pink or rosy-carmine, in bright clusters of blossoms almost covering the handsome pale-green foliage. A vigorous, hardy climber with few thorns, of German origin.

POLYANTHA OR BABY RAMBLER ROSES

A class of miniature Roses derived from the Climbing Polyanthas. They are of dwarf habit and bloom so freely as to cover the entire plant with bloom all through summer and fall. The plants are splendid for bedding, or as edging for borders they are hardy. They are useful, either pot grown or for bedding purposes or for hedge effect. Prices: all varieties, 30c each; 5 for $1.25.

BABY RAMBLER—Completely hides itself all summer; bright red

CATHERINE ZEIMET—The white Baby Rambler; extra fine.

BABY TAUSENDSCHOEN—Its flowers are large, so much like Tausendschoen that it has been rechristened "Baby Tausendschoen." It is a bush form of the "Climbing Tausendschoen," or "Thousand Beauties," having all the charm in the variable coloring in its flowers that its parent has, being firm white, delicately flushed pink, changing to deep rosy carmine. This is a splendid Rose. Try it.

BABY DOROTHY (Pink Baby Rambler)—A prolific producer of pure pink flowers, with all of the good qualities of Crimson Baby Rambler.

HARDY CLIMBING VINES
ORDERS SHOULD REACH US BY MAY 1ST AT THE LATEST
Your home, outbuildings, fences and trunks of old trees can be made very attractive by the use of hardy vines. Such permanent improvements add greatly to the value of your property, and the value increases from year to year. We furnish nice, strong, field-grown plants at prices given below.

HONEYSUCKLES
For real handsome vines, to be near you, climbing over your windows and doorways, there is nothing prettier than sweet-scented Honeysuckles; the foliage is pretty, neat and clean, the flowers are almost continuous, and their fragrance delicious.

HONEYSUCKLE HEDGES
Some of our friends have conceived the idea of planting Honeysuckles along the division fences, and it is wonderful what pretty hedges they make. Iron or wire fences are the best, but almost any kind is soon covered with a mantle of living green. Other climbing vines will answer the purpose, but sweet-scented Honeysuckles are both fragrant and beautiful. They should be planted two feet apart.

MONTHLY FRAGRANT—Red and yellow; very fragrant. Blooms all summer; leaves tinged reddish color. Large size 75c; postpaid.

HALL’S JAPAN—A good strong growing, almost evergreen sort, with pure white flowers, changing to yellow. Very fragrant and covered with flowers from July to November. Large size 75c; postpaid.

HARDY IVIES
AMPELOPSIS QUINQUEFOLIA (Virginia Creeper)—A native vine of rapid growth, with large, luxuriant foliage, which in autumn assumes the most gorgeous and magnificent coloring; perfectly hardy; the best climber for Nebraska. 50c each, postpaid.

AMPELOPSIS ENGLEMANII—Of denser growth, shorter jointed and richer in effect than the Quinquefolia. Grows 6 to 10 feet in a season. Will cling to a brick wall without any extra support. 60c each, postpaid.

WISTERIA
The Wisteria is particularly valuable for training over buildings, second flood verandas and wherever tall-growing climbers are wanted it is a vigorous, rapid grower, entirely hardy. The flowers are borne in large clusters.

CHINESE PURPLE—Of lovely, rich violet-purple color, deliciously scented; handsome. Large size, 75c each; postpaid.

CLEMATIS
There is no more ornamental class of plants than Clematis and the rich show of bloom produced by the best varieties is far too magnificent to be fairly portrayed by mere words. The colors run from intense velvety-purple through crimson, blue, lavender and white. We presume that every one of our customers who sees Clematis plants in bloom each summer promises to plant some in his own garden or yard at the next opportunity. They are especially adapted to our climate.

LARGE FLOWERING VARIETIES
JACKMANII—The flowers are large, intense rich velvety violet-purple and are produced in such masses as to form a cloud of bloom. Well known and very popular. $1.15 each; postpaid.

SMALL FLOWERING VARIETIES
PANICULATA—One of the most valuable of all hardy flowering vines. Of exceedingly rapid growth, soon reaching a height of 15 to 20 feet and spreading out in all directions. Small, pure white flowers, borne in great masses of panicles or clusters on long stems, so profuse as to fairly cover the plant with a sheet of fleecy white. Its blooming period is in August and September, when most other varieties have ceased, and it is then a sight to behold. Not its least charm is its delightful Magnolia-like fragrance. Hardy as an oak. Strong two-year field plants to bloom this year, 75c each; postpaid.
Hardy Ornamental Shrubbery

The planting of shrubs, or perhaps combined with shade trees, with some conception as to the effect to be produced in future years, is a matter to be considered by everyone who wishes to complete the picturesqueness of a Villa residence or country home. Shrubs around a house hide unsightly corners, and the hard, straight lines of the architecture; or planted at a distance, by the sides of walks, carriage drives and fences, they break what might be a monotonous line of vision over bare lots, and give a tone of privacy to the surroundings. While the shrubs we send out are of large size, they are not so large but that they can be sent by parcel post.

Prices of all ornamental shrubs are postpaid unless otherwise stated.

BARBERRY THUNBERGII (Japanese Barberry)—One of the best all-round shrubs for the Northwest, thriving under all conditions. Slender, graceful branches with fine bright green foliage, turning to brilliant crimson and orange in fall. Branches are covered with small yellow flowers in June, followed by scarlet berries that stay on bushes almost all winter. Barberry Thunbergii is not subject to rust, and may be planted anywhere. Price, 18 to 24 inches 40c each; $2.50 per 10, postpaid; $25 per 100 by exp.

ALMOND, DOUBLE FLOWERING PINK (Prunus—to—)—The Flowering Almonds are pretty dwarf bushes that bloom quite early and are very showy in spring. Their slender leaves, upright branches are entirely hidden by stemless, very double flowers of pink color, resembling small roses. Grows to a height of 4 to 5 feet and blooms in May. One of the best flowering shrubs and highly recommended for the western states. Price: Large size, $1.00 each.

MOCK ORANGE OR SYRINGA (Philadelphus) Coronarius—One of the very best of the old, well-known shrubs. It seldom or never fails to bloom. The fragrant and beautiful waxy white flowers appear in great profusion in June. In shape and fragrance they resemble the Orange blossoms, therefore the name. The shrub grows to a height of 10 feet; can be kept lower, though, by pruning. Often used for an ornamental hedge. Hardy everywhere and valuable for immediate effects in landscape planting. This is one of the most satisfactory shrubs for the Middle West, hardy, and it never fails to bloom and needs little care. To cover an unsightly alley in your back yard, this and the Upright Honeysuckle are the best. Plant in this case about 4 feet apart. Price: Large size, 60c each.

HYDRANGEA (Paniculata Grandiflora)—This familiar old shrub is one of the most prominent factors during August and September, in brightening up the lawn and shrubbery groups. Single specimens, if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, stocky clumps of compact form, and are wonderfully attractive when laden with their massive white plumes. Large beds, kept at a uniform development, are extremely showy; first snowy white, then pink, then reddish and green. Price: Large size, $1.00 each.

Mock Orange or Syringa

DOUBLE FLOWERING CRAB—One of the most beautiful of the many fine varieties of flowering crabs. Tree of medium size, covered in early spring with large, beautiful, double fragrant flowers of a delicate pink color. From a distance the flowers have the appearance of small roses. Price: Large size, $1.00.

Forest Tree Seedlings

See Page 67
ORNAMENTAL SHRUBS—Continued

BUSH HONEYSUCKLE, RED TARTARIAN (Lonicera Tatarica)—The best known of all the Bush Honeysuckles, and in our estimation the finest variety of all. Grows to a height of 8 to 10 feet with upright somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, and of bright pink color, followed by showy red berries which ripen in midsummer and cling to the bush for several weeks. This fine shrub is of great value, planted as a background for smaller shrubs. It withstands successfully the severest winters. Price, large size, 65c each.

LILAC, PURPLE (Syringa Vulgaris)—The old fashioned purple flowering kind, with its wealth of lovely fragrant flowers in May. Bush is a rapid, vigorous grower. Hardy everywhere. Price, large size, 65c each.

LILAC, WHITE (Syringa Vulgaris Alba)—Similar to the above, but flowers are borne in rather loose clusters, pure white and delicately fragrant. Bush is an erect, tall grower. Price: large size, 65c each.

SPIREA VAN HOUTTE. M.—The grandest of all the Spireas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of 20 to 30 flat, white flowers make up the racemes, and these clusters are set close along the drooping stem. Perfectly hardy and an early bloomer. Price: Large size, 50c each.

SPIREA ANTHONY WATERER. D.—A new crimson-flowered variety. It makes a low, compact bush 15 to 18 in. high and is covered nearly the whole growing season with large umbels of deep crimson flowers. Perfectly hardy. It makes a fine, compact plant for low clumps or for bedding purposes. Price: Large size, 65c each.

**Lilacs**

**SNOWBALL.** Guelder Rose (Viburnum Opulus Flora Plena)—One of the favorites of old-time gardens. It grows into a magnificent high bush with upright branches and handsome foliage. It forms one of the most impressive sights of early summer, when its pure white, four-petaled flowers, borne in showy balls, are in bloom. Hardy everywhere. Price: Large size, 60c each.

**WEIGELIA ROSEA.** An elegant shrub with beautiful rose colored flowers. Blooms from June until fall. It is erect in habit with good foliage. The height is 5 feet. Very hardy. The only variety of Weigelia that is really hardy in Nebraska and does not need winter protection. Price: Large size, 60c each.

**AMOOR RIVER PRIVET.** Hardy. Foliage glossy green and holds it color well almost the entire season. Will stand shearing to any extent. Where the California Privet is not hardy, the Amoore Privet should be planted. We recommend this Privet for all the states north of Missouri. It costs a little more, but will stand your climate and will be perfectly satisfactory. Price: Plants all well branched, 18 to 24 inch, 35c each; $3.00 per 100 postpaid; $25.00 per 100 by express.

Special Offers in Evergreen Trees

HARDY EVERGREENS FOR WINDBREAK AND HEDGE PLANTING

Strong, Heavy, Well Rooted Transplanted Stock For Express Shipment—Hardy Outdoor Spruces, Pines, Firs, Etc.

SAFE ARRIVAL GUARANTEED TO ANY POINT IN THE UNITED STATES

Evergreen trees will bring a new beauty and charm to your home. There is unquestionably no better way of beautifying your place than surrounding it with beautiful Evergreens. As an ornamental tree, Evergreens are unsurpassed. No other trees remain green through summer and winter; none are more beautiful. But while their value in this respect is great, evergreens are useful in other ways. They protect houses, stock and crops from wind, sun and snow. They conserve the soil's natural moisture. They form a substantial shelter and nesting place for the birds that rid your acres of worms and destructive insects. They are a source of salable timber for fence posts and other uses. Plant some Evergreens around your garden and just see how much difference there is in the temperature and moisture. You will find that you can grow flowers, fruits and vegetables that you never could before.

These varieties have been thoroughly tested and proven absolutely hardy and reliable and will grow successfully in all parts of the country. Send in your order now. Shipment will be made during March, April or May—depending on locality.

Non-Kinkable—Light—Strong—Flexible—An indestructible moulded hose for Lawn, Greenhouse, Stable, Garage. Made in continuous lengths up to 500 feet, which gives you any length you want and avoid leaky couplings. 3/8 inch, 90c per ft.

REGULAR GUARANTEED HOSE
Will be replaced if not satisfactory—3/8 inch 5-ply Elm Garden Hose in 50-ft. lengths complete with fittings, $0.90. Hose Gaskets (rubber washers) doz., 10c.

REEDS AND RAFFIA
For Basket Making

Raffia
Raffia is the name given to a long-leaved palm found on the Island of Madagascar. The outer skin of the leaves is stripped off by the natives and tied in long hanks or braids, after which it is packed in bales ready for shipment. As a weaving material it is ideal, combining, as it does, softness and flexibility with great strength. The strands average three feet in length, this gives it a decided advantage over splints and grasses.

Besides the natural shade, we have it in 12 colors, Black, Navy Blue, Light Blue, Purple, Light Brown, Dark Brown, Dark Green, Bright Green, Pink, Bright Red, Dark Red, and White, a sample of which will be mailed upon request.

Colored, per bunch, 1 oz. $0.10

Add 10c per lb. for postage and packing.

BUSY
Top, galvanized iron, base steel.
Price: Postpaid, $.135; not postpaid, $.25.

GALVANIZED STEEL HOSE CLAMPS
They are strong and serviceable.
Price: 1/4 in., or 3/8 in. size, 7c each; 60c per dozen; postpaid.

ANACONDA—One of the best Lawn Sprinklers. Price: Postpaid, $2.00; not postpaid, $1.90.

DANDELION KILLER
This new Dandelion Killer is a tube 1 inch in diameter and 38 in. long. It has a screw cap at the bottom for filling and a valve which lets out about one teaspoonful of liquid to each plant. Simply fill the tube with gasoline and you can kill the dandelions as fast as you can walk around over the lawn. Price: Postpaid, $1.15; not postpaid, $1.00.

WOODED HOSE MENDER
1/4 in. and 3/8 in. only. Price: Per dozen, 1/4 in., 40c; 3/8 in., 50c; postpaid.

REEDS (RATTAN)
Since the recent awakening to the importance of basketry, Rattan has been brought into marked prominence. Like Raffia, it is also a palm, growing to an astonishing height and found mainly in China and the Philippine Islands. Nos. 1 to 7 are the common sizes, and 7 being used for the coarser work. This is the true natural reeds or rattan which we could not secure during the war, but are now glad to offer.

Bunch 1/2 lb. lb.
No. 2 .10 .75 .85
No. 3 .10 .85 1.25

High Grade Fertilizer and Lawn Dressing

Gardeners and owners of lawns in the Middle West country have not yet comprehended the importance of intelligent application of fertilizers. Too often they, knowing the need of something, blindly try this and that at much expense and without results. The following is a list of fertilizers we have on hand at all times. We fully recommend these. Write us for quantity prices.

“Red Snapper” Plant Food

Makes Plants Grow and Blossom

This Plant Food, which is for flowering plants, vines, shrubs, etc., has exceptional merits. The blomns come that more profitable; they are larger in size and richer in coloring. This Plant Food is not the ordinary chemical stimulants generally offered for sale, but an organic fertilizer containing a very rich analysis of Plant Food. It is made from the head bones and nitrogenous curtilage of Red Snapper Fish and is dried, sterilized and ground into the finest meal. It is thoroughly clean and sanitary, and can be used in the finest homes and conservatories as well as for outdoor use. We enclose in each box of Plant Food a small packet of so-called Plant Tonic, which is used to sweeten sour or dead soil and put it in better condition to assimilate the Plant Food. We wish everyone of our customers would try one or more packages of this article and they will be surprised at the results.

Price: 2-lb. package Plant Food, 60c; postpaid; 50c not postpaid; 5-lb. package Plant Food, $1.25 postpaid; $1.00 not postpaid. 1/2-lb. package Plant Food, $0.70 by express.

Concentrated Tablets

A New Scientific Concentrated Fertilizer for Potted Plants and Vegetables

Take the place of liquid manure. Used by 25 or 50 parts in 100. It starts the plant at once into healthy and vigorous growth and makes them bloom luxuriously. Trial size box sufficient for 30 house plants for 3 months. 12c postpaid. Regular size box, sufficient for 35 plants for 3 months, 25c postpaid. Large size sufficient for 35 plants for eight months.

Steamed Ground Bone

The Finest of Steamed Bone

This is finely ground and of first quality; it starts to decompose quickly so results from its use are soon apparent but it does not dissolve so fast as most chemical fertilizers so it continues for a long period its improvement in the soil fertility. It is less likely than other fertilizers to leach or waste. With bone there is no danger of burning the plants, it contains 23 per cent Phosphoric Acid, one of the principal plant foods. Use 3 to 5 pounds of bone meal for each tree and vine when setting out, working it in well around the roots. For New Lawns, use 500 lbs. of bone meal with a ton of sheep manure per acre. This should be plowed under or spaded in several weeks before sowing the seed. Old lawns, top dress very early in spring with sheep manure and bone meal mixed, at the rate of 2,200 lbs. per acre or 50 lbs. per 1,000 square feet.

Field and Garden Crops. 3/4 to 1 ton broadcasted and harrowed in. This is especially desirable for use with sheep or cattle manure which is rich in nitrogen. Price: 4 lbs., 25c; 50 lbs., $2.70; 100 lbs., $5.25; by express or freight.

Standard Flower Pots and Saucers

Sent by Express or Freight

We pack these carefully, but will not be responsible for breakage in transit.

Spray Mixtures and Insecticides

Paris Green
An insoluble, poisonous powder for potato bugs, codling moth, worms, caterpillars, slugs and bugs. Applied as a powder it should be mixed with plaster or Boux, 100 parts to 1 part of Paris Green; in solution mix 1 pound in 300 to 500 gallons of water. Price: ½ lb. pkg., 35c; ½ lb. pkg., 40c; 1 lb. pkg., 75c; 5 lb. pkg., $8.50.

Arsenate of Lead—Powdered
May be used as either a dust diluted with hydrated lime, plaster or road dust, or as a liquid spray with water. Lime-sulphur solution or Bordeaux, only half the weight is needed as of the past form. Price: ½ lb., 40c; 1 lb., 70c; 5 lbs., $2.50; 10 lbs., $4.80; 25 lbs., $11.75; 50 lbs., $20.00.

Bordeaux—Powdered
Requires 1 to 1½ pounds to 10 gallons of water as fungicide spray. Price: 1 lb., 50c; 3 lbs., $1.00; 10 lbs., $3.50; 25 lbs., $7.50; 50 lbs., $12.50.

Calcium Arsenate
Is very light and fluffy—when used for dusting will go farther than Paris Green or Arsenate of Lead. If mixed with water for spray purposes will hold in suspension, permitting an even and equal distribution so necessary for effective control of insects. Used in the same manner and for the same purposes as Paris Green or Arsenate of Lead for garden pests Calcium Arsenate sells for considerably less than Arsenate of Lead or Paris Green. It will pay you to use Calcium Arsenate and protect your crop and pocketbook.

Sure Noxem—Powder Form
Insecticide—Most Leaf-Eating Insects
One of the best vegetable insecticides in use. Specially recommended for destroying worms and insects.

What To Use It On

Nico-Fume Liquid
For fumigating or spraying; contains 40 per cent nicotine. Price: ½ lb., 60c; 1 lb., $1.00; 4 lbs., $7.50; 8 lbs., $14.50.

"Black Leaf 40"
Very effective for sucking insects such as plant lice, red spider, leaf hopper, thrip, etc., sprayed on. Dilute 2 teaspoonsfuls to a gallon of water. It also forms a splendid spray for both insects and fungus with Bordeaux. Price: 1-oz. bottle, 75c; ½-lb. tin, $1.00; 2-lb. tin, $2.25; 10-lb. can, $13.75.

Slug Shot
Just dust it lightly on the plants. It kills potato bugs, cabbage worms, melon, squash and cucumber bugs. Non-poisonous and harmless to all creatures except insect life. Price: 1 lb. can, postpaid, 25c; not postpaid, 20c; 5 lbs., not postpaid, 60c; 10 lbs., $1.00.

Hammond's Grape Dust
Kills certain mildews and blights on Flowers or Fruits, Roses, Chrysanthemums, Violets, Grapes, Gooseberries, Musk Melon, Onion Smut, Rust Mite on the Cabbage, Rust or Mildew on Parsley and on any plant. Grape Dust is a practical, economical and usually effective remedy. The application is to be made by dusting the diseased portions of the plant. Price: 1-lb. can with perforated top, 30c; postpaid, 25c; not postpaid, 30c; 5 lbs., 85c; 10 lbs., $1.50.

Bug Death
This is a powder used for killing any bug or worm that eats the foliage or flowers of any plant. It is absolutely harmless to plant or animal life, thus making it a safe poison. Can be used dry or with water. For best satisfaction should be used when the tender shoots come. Price: 1-lb. package, postpaid, 25c; not postpaid, 30c; not postpaid, 3-lb. package, 50c; 5-lb. package, 55c; 10-lb. package, $1.50; 100-lb. keg, $9.00.

Pest Exterminators

Sterlingworth Cut-Worm Killer

We now offer STERLINGWORTH CUT-WORM KILLER as a preparation which is quick and sure in effect and non-poisonous to animals. It is the most effective solution to Cut Worms that are irresistibly attracted to it and eat it in preference to postpaid; not postpaid, 25¢; 57¢, postpaid.

Full directions with each package. Price: 1 lb., postpaid, 40¢; not postpaid, 35¢; 5 lbs., not postpaid, $1.25; 25 lbs., $5.50.

Tree Tanglefoot

Tree Tanglefoot is a sticky compound similar to that used in making Fly Paper. It is easily applied directly to the bark of the tree, and is a most effective and economical protection for fruit, shade, and ornamental trees against all crawling insects. For tree surgery it is usually also used to waterprood the cut of the tree. One pound makes 10 linear feet of bandage. One application remains sticky three months and longer fully exposed to the weather. 1 lb. can 50¢; 5 lb. can $2.40; 10 lb. can $4.50.

Kerosene Emulsion

This is a safe and sure remedy to kill all sucking и insects, that is, those which get their nourishment through a proboscis, which they insert into the leaves of bark. Price: qt., 60¢; gallon, $1.35 by express.

He-Bo Substitue for Hellebore

We know of no powder more satisfactory for use against rose slugs, currant worms, cabbage worms, and many other leaf-eating insects where a milder poison than Paris Green is desired than Sterlingworth He-Bo. Dust on vegetation. Put up in sprinkler box. Prices: ½ lb., 30¢; 1 lb., 50¢; postpaid; not postpaid, ½ lb., 25¢; 1 lb., 40¢; 10 lbs., $2.75.

If you have rats or mice use Rat Corn. No matter whether you have one rat or a thousand Rat Corn will do the work. One can of Rat Corn is better than a dozen cats. It mummifies your rodents; they leave no trace and become hard as leather. Harmless to human beings. Price in three sizes: 30¢, 57¢, 90¢, postpaid; not postpaid, 30¢; 50¢; $1.10 postpaid; not postpaid, $1.00.

Ant Driver

This is effective against most of the known species, especially the small red and black ant, which are most troublesome in this country. Price: postpaid, 40¢; not postpaid, 30¢.

Thalco-Tobacco Soap

Is a powerful agent for the destruction of all bugs and insects. Of special value for spraying roses, shrubs, and vines. One or two applications will rid plants of the pests. Full directions with each cake. 3 oz. cake makes 1½ lbs. cake, and makes 4 gallons, 25¢, postpaid; 10 lb. cake makes 80 gallons, $3.00, by express, your expense.

"Red Snapper" Plant Soap

It is used as a bath and spray for flowers. When a small quantity is diluted with water in the shape of a lather or tube and plants sprayed, it keeps the pests away. Ferns and large plants are sprayed with the solution, being careful that the underside of the leaves are thoroughly wet. As this soap combines the three well-established and generally used essentials of insect killing elements, extract of tobacco or nicotyl, sulphur and fish oil soap, it saves the annoyance of killing many kinds of insects by hand. "Red Snapper" Plant Soap, "A Bath for flowering plants" and a sure cure for the insect pests. 25¢ postpaid.

Tobacco Dust

One of the best remedies for green and black aphids, fleas, beetles, etc. for insects in the ground. Price: 1 lb., postpaid, 15¢; not postpaid, 10¢; 5 lb., 30¢; 10 lb., 75¢; 50 lbs., $2.50; 100 lbs., $6.00.

Fish Oil Soap

(Whale Oil Soap) Wash for insects and eggs on the bark and for smearing the trunks of trees to pro- tect from the worm from craw- ling up. Price: 35¢ per lb., (mail weight, 2 lbs.); 5 lbs., $1.65 (mail weight, 6 lbs.); 10 lbs., $2.75.

Nox-Em-All Gopher Tablets

Kills Pocket Gophers, Ground Squirrels, Prairie Dogs, and other Rodents. Don't let the Pocket Gophers ruin your alfalfa fields. Don't let the Ground Squirrels spoil your garden and crops. Don't permit the prairie dogs to lay waste your fields that would otherwise produce crops. It is easy to poison them. A little time in the early spring will rid your farm of these destructive pests. NOX-EM-ALL GOPER TABLETS are the most effective poison we know. They are sure death to Pocket Gophers, Ground Squirrels, Prairie Dogs, Ground Hogs and other Rodents. They are made of tidbits especially attractive to these pests which eat them happily. They are easy to use—sure in results. Buy them—use them and save your crops. Directions printed on each package. Put up in two sizes, 200 tablets, 30¢; 500 tablets, $1.00.
Sprayers
Myer’s Duplex Back Geared Double Acting Spray Pump

No. R-316-B. This pump is built especially for heavy work. The 2-inch cylinder is brass lined. The plunger is brass, hemp-packed, and piston rod is brass. You can use any material hot or cold. It is fitted with large air chamber pressure gauge, with 50-gallon barrel mounted on skids with pressure gauge. One 15-foot lead of ¾-in. 4-ply discharge hose, one Fembro nozzle, one 5-foot pipe extension with lever shut-off, and mechanical agitator. Special features of this outfit are cog gear movement, increased leverage, device for spraying under heavy pressure, mounted complete, occupying smallest space. Capacity sufficient for eight nozzles. Well adapted for spraying potatoes or other vegetables in rows. Price, complete, $65.00.

No. R-309-B. Same as R-316-B with pressure gauge, 6 feet of suction hose, one 15-foot lead and other liquid discharge hose, one Fembro nozzle, one 8-foot pipe extension but without barrel and skids. Price, complete, $55.00.

Cog Gear Barrel Spray Pump
No. R-318 has bronze ball valve and brass seats. The plunger is brass fitted with hemp packing. Will handle hot, cold or any caustic mixture. The cylinder discharge pipes are all brass. The air chamber is 32 inches in length, enabling the pipe to throw a uniform, constant elastic spray. It has good leverage, is very powerful and is easily operated. The malleable iron base fits an 8x8 inch hole. Price without hose or nozzle or barrel, $18.

R-318-B same as R-318 except fitted with one lead of 15-ft hose with graduated Vermorel nozzle like cut, $24.

No. 305-B. This pump is made in a first-class manner. All parts that come in contact with the liquid are of heavy brass. It can be easily and solidly bolted to any barrel. The air being compressed has made chamber with 2-in. all brass cylinder makes the spray continuous. A mechanical agitator or and small jet of liquid from the pump keeps the ingredients thoroughly agitated. It sprays, whitewash, calcimine, water, paints and any other liquid. Pitted with 15 ft. best 5-ply rubber hose, and graduated Vermorel nozzle complete as cut (except barrel.) Price, $32.00.

No. 305 ideal Sprayer

The Myers Power Spray Gun
Length over all, 24 inches—Utilizes the Entire Capacity of any Spray Pump and does away with all Bamboo extensions.
Nozzles and fittings. It is furnished with three separate disc designed to deliver the entire capacity of the pump, either 4, 6 or 8 gallons per minute.

Fitted for ¾-inch Hose Coupling and ¾-inch Pipe. Price, $10.

Extension Pipes

| 8-foot Iron Extension Pipe | $0.95 |
| 8-foot Bamboo Extension Pipe, with cutoff | $6.00 |
| 10-foot Bamboo Extension Pipe, with cutoff | $6.40 |
| 12-foot Bamboo Extension Pipe, with cutoff | $6.75 |

O. K. Spray
No. 307. For hot, cold or any kind of mixture. Has a mechanical agitator, solid brass ram plunger, round bevel valve and seat. A strictly reliable first-class pump for spraying orchards or potatoes. Easily adjusted to barrel of any size. Handle is of wrought steel, so as to enable the operator to get up a pressure of 300 pounds or more. It is fitted for two strings of discharge hose. Price, without hose or nozzle, as cut (without barrel), $34.00. Two 15-ft. discharge hose and two Fembro nozzles, $10 extra.

No. 31 Ideal Sprayer

The Ideal is well designed and built for durability and convenience of operation. As light as possible and still allows ample strength in the completed machine. All working parts coming in contact with the liquid are made of brass. No. 31 you can pump up a pressure of 150 pounds and the machine will operate five minutes without further pumping. No. 31, with air pressure tank (see cut) $40. No. 50 without tank, $30.

Myer’s Knapsack Spray Pump

No. 336-P The tank holds five gallons. The pump has a large air chamber, ball valves, solid plunger and agitator. It is so arranged that no water can drip on the operator. The pump can be removed easily. The pump is also fitted with handle, so the operator can set the knapsack on the ground and work as a bucket pump. The handle lever can be shifted from right to left shoulder at will. Price, $17.50.

Extension for Compressed Air Sprayer

Pipe Extension for Compressed Air Sprayer is complete with screw cap and Cyclone Nozzle Attach to regular nozzle. When in use the regular nozzle becomes a controlling valve. Pipe Extension complete with nozzle, $1.25.
SPRAYERS—Continued

Perfexion Sprayer
Built on the best lines, of high-grade material and with the idea of turning out a sprayer which has none of the faults and defects so common in many knapsack sprayers. The hose is attached to the sprayer at an angle so that it will not kink and become cracked and broken. The shoulder strap is attached with snaps and can be quickly and easily removed. The hose is %4-inch 5-ply cloth inserted and is equipped with our automatic shut off nozzle. This sprayer handles White-wash, Water, Paints, Bordeaux Mixture, etc., perfectly. These sprayers are made in galvanized steel or brass as ordered.

Prices. Galvanized Steel, $8.00; All Brass, $11.75.

New Misty
Made of heavy tin; has the same size air chamber as our other styles, and the reservoir holds about one quart and throws a single spray straight ahead. Price, postpaid, 65c; by express, 55c.

Midget Junior
No. 202
A small, well-made sprayer for household use. Will handle all kinds of liquids perfectly. The pointed nose of the pump passing through the tank makes it a very strong sprayer. Price, 50c; postpaid. By express, 40c.

Easy Sprayer
This sprayer holds one gallon of liquid, is equipped with automatic shut-off lever nozzle, and made of heavy galvanized iron; the larger sprayers only for size. Price, by express, $3.00.

Dickey Duster
For use in applying dry insect powder. Price, 55c postpaid; 50c by express.

Compressed Air Sprayer No. 2
Will spray all liquid mixtures including Fungicides, Insecticides, White Wash, Disinfectants, etc., whether it be on plants, bushes, trees or in barns, poultry houses or other buildings. This pump is very easily operated and the entire contents used without setting the sprayer down. An eepm from the lotional stroke of the pump while spraying does the work. The sprayer is made of heavy sheet metal with riveted seams. Diameter 7% inches, height 15% inches with a capacity of 2% gallons. The nozzle has an automatic shutoff. Price, $8.50.

Kant Klog
This sprayer holds over 4 gallons. The air pump is made of heavy brass 2 inches in diameter. A safety valve is provided. Special attention is called to the new "Kant Klog." The first and only made which gives both flat or dround or solid sprays. Price; polished brass and 3 feet brass extension rod, $9.00.

Sprayer No. 15
This sprayer is of substantial construction, intended for the same use as the No. 2. It is so constructed that a turn of the handle when engaged in the pump head will attach or detach the pump from the tank or the plunger from the pump. The tank is the same weight, size and capacity as the No. 2. The pump is 2 inches in diameter, made of heavy brass tubing with %4-inch steel plunger rod. A very strong durable pump. Price, $8.50.

Little Giant
No. 327%4; A Brass Spray Pump complete with agitator hose, fine and coarse spray and solid stream nozzle with maliceal foot rest will throw a stream 50 feet; 23 inches high, made of %1 inch brass tubing. Price, $5.50.

Sprayer and Paint Machine

THE B-D SIFTER
Is Ideal for Applying Bug Death Dry and Other Dry Insecticides
It is a remarkable effective and distinctively economical method Easy to operate and gives quick covering to plants and vines requiring a top application. Price, 75c each.

Sprays powdered insecticides. It weighs 1¼ pounds. Price, by express, $1.65 each.

PRICES DO NOT INCLUDE POSTAGE, EXPRESS PRICES ON THIS PAGE SUBJECT TO CHANGE

Very useful for trimming hedges. 6-inch $1.75; 9-inch $2.35.

WATER'S TREE PRUNER

Has cast steel single blade. Wood pole, 8-foot handle, $3.75; 10-foot handle, $4.00, by express.
**Seed Sowers and Planters**

**A New Midget Drill**

**Cahoon Seeders**

**SOWS ALL SEEDS**

This is just the drill for the little gardener. It stands about 8 inches high and will sow a 5c package of seed just as well as larger amounts. Can be attached to a wooden handle and used in a hothed or greenhouse. Hopper holds 1 pint. The machine is made as good as larger ones. Index shows how to set. It can be attached to a No. 20 Standard Wheel Hoe. Price, $3.90 each.

**Eureka Seed Drill**

It will sow and cover Beets, Cabbage, Carrots, Celery, Lettuce, Onions, Radishes, Spinach, Turnips and all such seeds with the greatest regularity, much better and faster than hand work. It is not a toy, but a strong, practical machine. Of course when you have a large garden, you will want our Iron Age Drill, but for a few vegetables the Eureka is superb. It is the only machine suited to sow in a hothed. Sows the smallest packet of seeds as well as a large bulk. Price, $1.75, postpaid; by express, $1.50.

**Cyclone Seeder**

Simple in construction and easy of operation; has automatic regulator and cutoff, and performs its work perfectly. It is practical. Price, $3.00, by express.

**Thompson's Wheelbarrow Seeder**

Sows Clover, Timothy, Alfalfa, Red Top, Orchard Grass, Flax, Brome Grass and all Grass Seeds. No job of seeding too large for this machine. Price, $4.50. Sows 25 to 40 acres per day, so close to the ground that the wind can never blow the seed away, insuring the operators a good even catch. Strong and durable. We know of these seeders being in use 30 years which are thoroughly good and effective today.

Order THE THOMPSON and you will get the nest, a seeder that will sow both heavy and chaffy seeds. Price, No. 1, 12 ft., $11.25; No. 6, 14 ft., $11.75; No. 6, 16 ft., $12.25.

**BEEKEEPERS SUPPLIES**

The highest standard of excellence in material and workmanship is found in our beekeepers supplies. The best is always the cheapest. Our goods are sure to please. Prompt and careful attention given to all orders whether large or small, and mistakes promptly corrected. The following prices are not postpaid.

“Nulite” Portable Lamps, Lantern and Heater

Illustrated below are each carefully designed to last as long as the finest workmanship and highest character of material can make them. Equipped as they are with “Automatic Gas Tip Cleaner,” the efficiency of these portable appliances is increased fully 90%. Each fixture is a miniature gas plant in itself, producing an intense, clear and steady light from an admixture of about 96% air to 4% common gasoline vapor gas, costing a fraction of a cent per hour to use. They are securely packed in individual cartons with complete operating instructions. Used extensively by truck-gardeners, fruit-gardeners, poultrymen, farmers, planters, dairyman, stockmen, and for the lighting of homes, stores, halls, churches, ware rooms, barns and outbuildings, everywhere.

STORM KING LANTERN

339 Candle Power

The “Storm King” is all the name would imply—it is STORM, WIND, RAIN and INSECT PROOF and will burn just as well outdoor as indoor, in extreme cold or warm weather or in summer—used by poultrymen to increase egg production, also farmers, rurals, campers, hunters, everybody requiring light for hard continuous use. Capacity of four 1 quart—burns 10 to 15 hours on one filling—Height 13 in.—weight 4 lbs., equipped with Mica Chimney, one large No. IA Rag Mantle, and all accessories—shipping weight complete 5 lbs. Price, $8.60.

MANTLES

- No. 1A Inverted Rag mantles. Price, per doz. $1.95.
- No. 1B Inverted Rag mantles. Price, per doz. $1.70.

THE “COMFORT” HEATER FOR THE HOUSE OR CAMP

In city, town and country this combination heater-cooker—this miniature littletine furnace has been equally welcomed as an indispensable household necessity. It drives out chill and dampness in the bath-room dining room or den—in the fruit and vegetable room to keep out freezing temperature—in poultry houses in extreme cold weather and without adjustment it can be used by camper, traveler or hunter, to cook the hurried meal; burns 8 hrs. on 1 quart of gasoline—saves time, work, worry, and expense—height 12 in.—weight 4 lbs., Blue Steel Heat Drum—Highly polished nickel fount complete—shipping weight 5 lbs. Price, $8.85.

NULITE No. 119—400 Candle Power

Assures a pure white unblurred light of 400 candlepower at all times. With it in your home, office or store, you know the joy of a faultless light—a light twenty times as powerful as an ordinary wick coal oil lamp. Fount holds three pints. Burns 14 to 16 hours on one filling. Height 22 in., wt. 6 lbs., finished highly polished nickel plate. Equipped with No. 10 fancy white shade—2 No. 1B Mantles, shipping weight complete 11 lbs. Price, $9.50.

Buckeye Incubator, Sold on 40 Days’ Trial
WITH AN ABSOLUTE GUARANTEE TO HATCH EVERY HATCHABLE EGG
THIS IS A GUARANTEE THAT MEANS SOMETHING

The Buckeye is GUARANTEED to hatch MORE
CHICKS and STRONGER CHICKS than any other incu-
bator.

It is further guaranteed:
To require no artificial moisture. To operate satis-
factorily in any temperature down to freezing, and to
require no attention to the regulator from the time a
 hatch is started until it is finished.

The perfect construction of all its mechanical parts is
also guaranteed, and any incubator or part thereof
that does not fulfill our guarantee in every particular,
will be replaced without question any time within 40
days.

Over four hundred thousand (400,000) satisfied users
represent the proof that we offer in support of Buckeye
superiority—little breeders, big breeders, beginners, ex-
erts—breeders that include every class from boys and
girls with a little 60-egg machine—up to the tremendous
poultry plants with capacities of 50,000 eggs and more—
all uniform in the same verdict.

It is no longer considered a feat to build an incu-
bator that will hatch "some" chickens from "some"
of the kinds placed in it (there are many such incubators
on the market), but the truly successful incubator is the
MACHINE THAT WILL HATCH A CHICKEN FROM
EVERY HATCHABLE EGG—the vigorous kind of chick
that start to grow the moment they are hatched, and
continue to grow without forcing or doctoring.

Sure Hatch Incubator

The best hatcher built for the money. For the past several
years we have had more or less calls for a medium priced incubator, but as
we will not sell a thing that we cannot guarantee it took us a long time
to find one that measured up to the specifications desired. We had our
eyes on one a long time before we could get the agency. We have known
for a long time that the SURE HATCH is the best incubator built for the
money, now that we have the agency, we offer you the SURE HATCH INCUBATOR, believing if you buy one you will be well pleased.

The sides and ends of the Sure Hatch Incubators are made with
two distinct walls of redwood. The space between these two walls is air-
tight to provide a dead air space for incubation.

The heating is done with the best hot water system. The tank and
the heater are both made of the best Pure Lake copper, which will last
many years. An incubator to be of good service must have a strong
heating device to warm the machine to the proper temperature during the
cold weather, which is the most profitable time for setting the machine.

Oakes Electric Hen

The Oakes Electric Hen is metal throughout except the insulation which is
porcelain, asbestos and fibre. The case is double walled and packed
with wool felt to hold the heat.

The heat is controlled by a regulator, operated by a very sensitive
thermostat, easy to adjust to any degree. No moisture is required. It
consumes about as much electric current as one 25-watt lamp, in a room
of ordinary temperature the heat is on only about one-quarter of the

The incubator can also be used as a brooder as a set of legs and a
double brooder curtain are furnished as a part of the equipment. The
Oakes Electric Hen if properly handled will last a lifetime and is guaran-
teed to give satisfaction. Write for special catalogs.

GRISWOLD'S Colony Brooder Stoves

The Colony brooder stove is without exception the most modern and sanitary brooding device that has so far made its appearance on the market. We believe our stove brooder listed on this page is one of the best, if not the best, in use today. It is without doubt as good as Chick Insurance.

The Stove

This store is modern and up to the minute—gas proof—with the most modern type of rocker grates—which means no clinkers. It is a free safe burner and the fire pot is so shaped that your fuel cannot choke and hang up above your fire, but slides down evenly as used, assuring you a constant steady fire.

The body of the stove is of a very heavy cast iron and has corrugated ribs that make it impossible to crack or warp.

The check draft works over a baffle plate that makes it positive in its operations and is coupled with a tandem thermostat which, by the turning of one little screw, allows you to regulate it to any desired degree of heat.

The stove is amply large to allow of the free pouring of the fuel into the stove. This often prevents mess and dirt on the floor and in your clean litter.

The ash pit is large with no sharp corners for ashes to edge in, this makes it simple and easy to clean.

The ash pit door is one of the famous clamp type. Once on, always on until human hand removes it. It has the screw type damper in the front which permits you to regulate to an exact degree the amount of draft you wish your fire to have.

The base section is of very heavy casting, lined on the bottom with asbestos pads and corrugated to allow of the free transmission of air under the stove. Your door cannot get hot.

Feed your Baby Chicks Buttermilk Starting Food Page 85

This Brooder Has Been Thoroughly Tested

It is the best kind of chick Insurance

The Hover

Our hovers are of the famous sectional type. This permits you to take them apart at the end of the season and properly store them so they will not become damaged, then they always fit for future use.

In getting up this stove for our trade we wanted the best money could get and we believe it is just what you want. We are here to serve you with a stove we can guarantee to work and satisfy.

The stove comes complete with hover and all and we are glad to be able to present to our trade a stove made exclusively for us. We know it is safe, sane and sure.

POULTRY SUPPLIES—Continued

The Standard Colony Brooder

The Most Remarkable Coal Burning Brooder Ever Invented

Self-Feeding,  Self-Regulating,  Simple,  Safe,  Everlasting

Guaranteed Operating Cost Less Than Six Cents a Day

This type of brooder can be satisfactorily operated in any locality or under any conditions. The especially built coal-burning stove for brooding purposes is self-regulating. The whole apparatus has one adjustable nut and not even a thermometer is necessary. It burns any kind of coal, is self-feeding and is guaranteed to run more than 12 hours in any weather on one filling of coal at an average cost of 10 cents per day. The coal is poured in at the top of the stove. It is fireproof, and is so simple that a boy or girl can operate it.

The air is always pure and fresh. There is no damper or valve of any kind between the smoke stack and the fire draft. It is controlled by an ingenious device that makes them unnecessary. The fresh air is provided by the automatic action of the draft on the stove.

This year we offer this Brooder in two sizes. They are exactly alike. The small one works just as satisfactorily as the large one. Price: No. 18, hovers 50 to 500 chicks, $35.50; No. 19, hovers 100 to 1,000 chicks, $31.50.

“Buckeye” BLUE FLAME  Colony Brooders

Here is a Colony Brooder heated by an extremely efficient "Blue-flame" burner that can be used to good advantage by breeders who are unable to secure hard coal.

These brooders are equipped with a wickless type of blue-flame burner that will furnish an abundance of heat at a very low cost of operation. There is nothing complicated about their operation, and since we know them to be the most highly efficient brooder of this type on the market, we have no hesitation about recommending them.

All these brooders, regardless of size, are equipped with a self-feeding oil container holding one gallon of oil, which never requires filling more than once in twenty-four hours.

The flame in the burner is controlled by a finely adjusted valve which requires very little attention.

The hovers are substantially built of galvanized steel and are supported by four cast-iron legs.

“Buckeye” LAMP HEATED  Brooders

Nothing about it but metal—excepting the curtain—and that's interchangeable.

The dead air space keeps all the heat in and all the cold out. This construction insures the highest degree of efficiency, and we guarantee the satisfactory heating of every brooder in any inside temperature down to freezing.

The Buckeye lamp is not enclosed, making the oil burner just as safe as a coal burning stove. The constant current of fresh air over the lamp bowl prevents all possibility of overheating the oil and absolute safety is the result. This improvement is just as good an insurance policy. It's the fresh air that makes the chicks grow. The lamp is made of the best possible material, being equipped with a Miller burner. A thermometer is furnished with each brooder.

LIKE LINCOLN BRAND FEED

Dear Sir:—I fed my baby chickens your Lincoln Brand feeds last summer and they did better than anybody's chickens near here, and are now laying more eggs than any, and am anxious to keep the good work going as it speaks a good word for you as well as myself being benefited.

MRS. CHAS. W. WEAVER

WRITE FOR BIG BUCKEYE CATALOG.
Sanitary Brood Coop

Made of galvanized iron. It is mite, rat, weasel, nick and skunk proof. It can be taken down and put up in 40 seconds, the bottom can be removed for cleaning without taking the coop apart. It has three doors hung on pivot; the first a flat door which lets the chicks out; the second, of one-half inch wire netting, for use on hot nights; the third is of solid iron for cold and stormy weather. The coop is well ventilated but is entirely rainproof. It is approximately 1x24 inches square and 16 inches high. It can be carried with one hand to any convenient location. Price: each $2.65; 6 for $15.00, by express.

“Little Chick” Feeder Saves the Feed

It is made strong and durable. The frame in each end is made from substantial lumber, over which is securely fastened heavy ½-inch mesh galvanized wire screen. This wire screen is neatly bound on the edges with strong galvanized sheet steel. The “Little Chick” Feeder is large and roomy. Size: 6 inches high, 18 inches wide and 24 inches long. Will easily accommodate FORTY to FIFTY chicks at one feeding. Can be placed anywhere and can be moved from place to place easily. Price: $3.00.

Spiral Celluloid Leg Bands

Ten colors, blue, red, yellow, green, white, violet, pink, orange, cerise, black. Price, postpaid: Poultry size, any color (be sure to state breed), 12 for 30c; 50 for 75c; 300 for 2$.00; 100 for 50c; 500 for $1.00, for $5.00.

For Baby Chicks, Price: postpaid: 12 for 15c; 25 for 25c; 50 for 50c; 100 for 70c; 500 for $3.00; 1,000 for $5.00.

POULTRY SUPPLIES—Continued

Lawn Park Brood Coop

It is made entirely of galvanized materials, will not rust, and is proof against all chick enemies, absolutely protects chicks against hawks, rats, vermin, cold, storms and all other chick enemies. The metal repels lice and mites—that’s important. The body of the coop is made from strong 24-gauge galvanized steel. The wire park is made from heavy ½-inch mesh galvanized wire screens. The Lawn Park is large and roomy, being 18 inches wide, 19 ½ inches high and 24 inches long with park closed; and 48 inches long with park extended. Permits the chicks to have plenty of sunshine and fresh air. The Park runway being bottomless lets them range on grass. Can be moved from place to place easily. Coop proper has removable galvanized bottom. Easily cleaned. Highly sanitary. It saves the chicks. Price, $5.00 each, 6 for $25.50.

Poultry Punches

The Pettey Poultry Punch for marking chicks by punching the web of the feet is made of steel, nickel plated. It is substantially made, cuts a clean hole, and is convenient to use. Price, 25c; postpaid.

Leader Adjustable Leg Bands

Doz. 20c; 25 for 30c; 50 for 50c; 100 for 70c; postpaid.

Tested Thermometers

INCUBATOR AND BROODER

Can be used in any Incubator or Brooder. Each “Wilder” Thermometer is carefully inspected, and is compared with a standard instrument before leaving the factory and is Guaranteed Accurate within the Smallest Fraction of a Degree. It maintains this accuracy year after year.

INCUBATOR THERMOMETER

Equipped with legs to stand on and wires to hang up. Price, $1.00 postpaid.

BROODER THERMOMETER

One of the best brooder thermometers, is well made throughout. Price, $1.25, postpaid.
POULTRY SUPPLIES—Continued

Automatic Fountain and Chicken Feeder

This appliance for chicks, feeds water, grain, grit, etc. automatically. It is an absolutely sanitary founaain made to fit any half-gallon, quart or pint Mason Jar. We do not furnish Jars. Fan is hinged to the wire so that it is not necessary to remove the can in order to fill it. Price: 20c; not postpaid, 15c. Shipping weight 6 oz., each.

Two-Piece Drinking Fountain

This fountain consists of a conical-shaped bucket or pan, and a stamped pan which forms the base and the trough from which the fowls drink. Both parts are made of galvanized sheet steel and all parts are well soldered.

The top is pointed so as to prevent chickens from standing or roosting on it. Made in three sizes.

Baby Chick Feed Hopper

This Hopper is made of galvanized iron throughout. It is designed especially for feeding baby chicks. The Hopper is 8 inches in height and about 2 1/2 inches wide. It is made with an adjustable swinging front that eliminates any possibility of clogging. 10-in. size $1.30; 20-inch size, $1.65.

Improved Drop Bottom Fountain

Double Wall

This fountain is the same as the single wall except that it is double wall instead. The two cylinders forming the body of the fountain are sealed, making a dead air space between them. This construction is similar to the thermos bottle and gives the very best protection from both heat and cold.

Improved Drop Bottom Fountain

Single Wall

This fountain combines the good qualities of the three fountains—economy, flat back and drop bottom—which we formerly listed. The pan, which forms the trough, is hinged at the back and fastened by a catch in front. The flat back allows the fountain to be firmly placed against the wall and the drop bottom enables the fount to be thoroughly cleaned and kept in a sanitary condition.

Poultry Feeds of all kinds. for both Baby Chicks and Hens, are listed on Page 85.
Henfriend Water Fount
Made of very best galvanized iron. cheap, practical and durable, protected from dirt. yet easy to clean; will not drown the chicks; easy to fill and carry as a pail. Keeps the water cool in summer. Filled with water, morning will not freeze during the day in cold weather. A child can fill it. Price: 2½ gallon size, postpaid, $1.35; 1 gallon size, postpaid, $1.00; not postpaid, 85c; ½ gallon size, postpaid, 60c; not postpaid, 50c.

Turk Poultry Waterer
The Turk Poultry Waterer is built on the vacuum principle and needs no lamp or artificial heating device, for in winter the water is put in and keeps warm all day and in summer the water is put in cold and remains cool all day. The water will not freeze all day long with or cause worry of an accidental fire. This waterer holds 4 gallons, it is easy to fill, cannot be tipped over, the chickens cannot easily get dirt, chips or foreign matter into the reservoir. It is guaranteed if instructions are followed not to freeze up and to supply water 14 hours from the time that it is placed in the poultry house at 20 below zero weather and will not freeze up to do any damage for 24 hours. It is a good waterer either for winter or summer. Price, $6.00.

Automatic Feeder and Fountain
Feeds water, grain, grit, etc., automatically. Is easy to fill and operate. Just lift trigger as shown in cut, which releases jar, leaving pan without any obstruction, allowing easy cleaning. Thus a sanitary fountain. Made to fit any Mason Jar. Has 5-inch diameter. We do not furnish jars. Price, postpaid, 25c; not postpaid, 15c each. Per dozen, postpaid, $1.50; not postpaid, $1.85.

Stearn's Bone Cutter
It has automatic feed; is self-cleaning; is the fastest fine cutting machine on the market; will stand more wear and tear; is least liable to get out of order; is the only bone cutter that will not clog with grit. Price, $18.00. Write for prices of larger sizes.

Medicated Nest Egg
This is really a scientific triumph. A nest egg and lice killer combined. Effective, lasting and non-expensive. Keep your hens free from lice, healthy and contented. It means more eggs and profits. Used the same as any other nest egg, but is far superior, as it serves as a nest egg and a disinfectant also. Easy to apply and always at work. Almost an exact imitation of the real hen egg. If you wish to rid your poultry of lice you should use our nest egg. Place one in each nest and if the hen is setting put it under the straw. Price: 5c each, 4 for 20c, postpaid. By express, 7c each, 6 for 40c.

COMMON NEST EGGS
Made of plaster paris 6c each, 5 for 25c, postpaid. By express, 50c per dozen.

The Humane Anti-Hen Setting Device
The only device ever invented that will stop a hen setting and cure her of hot water in 24 hours and do it without the slightest pain or suffering for the hen, and no wasted time and trouble for you. Clasp on leg and let the hen run free for 24 hours, then remove. Price: 12c each, 1 dozen, $1.50, postpaid.

Model Mill
This has proven to be one of the best Hand Grinding Mills on the market. Grinds corn, wheat, oats, etc. Capacity, No. 1, ½ to 1 bu. per hour; No. 2, 1 to 2½ bu. per hour. Price: No. 1, $4.50; No. 2, $6.50.

No. 32 Hand Grinding Mill
In this mill are embodied all the good features of other hand grinding mills, to which have been added universality, burrs or grinding plates that are adjustable for grinding coarse or fine. This machine grinds oats, barley, rye, corn, peas, dry bone, shells, etc., for feeding to poultry. It is a well-designed machine, is strong and well made throughout and of excellent finish, has a 16-inch fly-wheel, and is light running. The capacity of this mill is not equalled by any other of the same size. Shipping weight 49 pounds. Capacity, 1 to 2 bushels per hour. Price, $5.50.

Fine Looking Plants
Jewell Co., Kans., Apr. 6, 1920
Gentlemen—I am a new customer, have never tried your seed until this season. The tomatoes I have sowed in boxes certainly are fine looking plants and I think every seed came up.

Medicated Poultry Roost

Kills Mites and Lice

The Wegner Medicated Poultry Roosts are guaranteed to rid your chickens from MITES and LICE, also SCALY LEG when properly saturated with our PERCH OIL. Our Perch Oil is a MEDICANT which is especially prepared for our Perch Bars and is a wonderful DISINFECTANT as well as a MITE AND LOUSE eradicator.

The construction of our Perch Bars is just as you see it in the cut. The size of the wood bar is about 3½ inches; with the upper edges slightly rounded, and are furnished in 5-6-7-8-9 and 10 ft. lengths. The inner webs of the wood bar extend to the bottom of the metal tank, and quickly absorb the Perch Oil placed therein, by capillary attraction and will thus saturate the entire roost in about 20 hours. No insect can live on this roost nor on the body of the birds that roost on them. The metal container is covered on three sides with the wood tread member.

Price: 50¢ per ft. Special Medicated Roost Oil $1.50 per gal.

Side Elevation

This roost is sold on a guarantee of satisfaction or money refunded.

Successful Grain Sprouter

For sprouting oats or other grain for poultry. Made entirely of galvanized steel in sections as shown in illustration. Each section holds two trays for grain. Sections are interchangeable and sprouter may be enlarged by additional sections as needed. Five sizes.

No. 1—Base and 1 Sect.—2 trays, holds 3-10 qts. dry grain (30 to 60 hens).... $14.00

TWELVE REASONS WHY YOU SHOULD BUY THE LETZ MILL

YOU WILL FIND LETZ BURRS ONLY IN LETZ MILLS

Prices Do Not Include Postage, Express or Freight Charges Except Where Noted.
Lincoln Brand Poultry Feeds

Our Lincoln Brand Poultry Feeds are economical to use because they contain only good clean seeds and grains mixed in the proper proportions to make balanced rations for your birds at every age. That will help baby chicks grow rapidly, developing strong constitutions and grow into splendid pullets and cockerels. For full grown stock you must supply feeds that will not only nourish their bodies but also enable them to lay eggs. Corn alone makes fat, but very few eggs. The formulas used in our poultry feed mixtures are recommended by the Poultry Department of the Nebraska State Experiment Station.

**Lincoln Brand Developing Feed**
Has no equal for growing chickens. It is a mixture of small and cracked grains and seeds mixed in the proper proportions for the most rapid growth of poultry. Should be fed as soon as chicks get too large to feed Lincoln Brand Chick Feed. 6 lbs., 25c; 10 lbs., $1.25; 90 lbs., $10.00.

**Lincoln Brand Scratch Feed**
This can be used to follow Lincoln Brand Developing feed. It consists of eight or twelve different kinds of seeds and grains. It contains no oyster shell or grit no waste material. The fowl always finds something tempting for which to peck. Keep the hens busy with Lincoln Brand Feeds and you will not lack eggs. 6 lbs., 25c; 50 lbs., $1.75; 100 lbs., $3.25.

**Lincoln Brand Laying Mash**
A high protein mash for laying hens. It consists of six or eight ground grains with a good proportion of meat scraps mixed in the right proportion for the best results. It is the finest mixture we can prepare regardless of price. It is highly recommended by the State Poultry Experiment Station. Should be fed in connection with the Lincoln Brand Scratch Feed and kept before them in a hopper of easy access at all times. Be sure and give your laying hens plenty of fresh water. 5 lbs., 25c; 50 lbs., $2.00; 100 lbs., $3.75.

**Alfalfa Meal**
Made from green klin-dried alfalfa hay. Is very valuable either as feed for chickens or stock. 6 lbs., 25c; 50 lbs., $1.65; 100 lbs., $3.00.

**Blood Meal**
This is pure, rich, dried blood. Very fine for incubator chicks, as it prevents loss from breaking down or insecurity. Good to start hens laying. Feed one part blood meal to fifteen parts of mash. 3 ½ lbs., 25c; 50 lbs., $4.50; 100 lbs., $8.25.

**Meat Scraps**
For laying hens may be mixed one part meat scraps to three parts crushed grain, bran or shorts. Wet with hot water, or skimmed milk, preferred. Feed night and morning. 3 ½ lbs., 25c; 50 lbs., $3.25; 100 lbs., $6.00.

**Poultry Bone**
Should be kept before poultry of all classes, at all times, especially where egg production is desired. They will consume any amount they want. Young chickens should be permitted to get it at their pleasure. Large, medium and small 4 lbs., 25c; 50 lbs., $7.00; 100 lbs., $13.50.

**Crushed Shells**
If you expect your hens to lay eggs you must furnish them with something to make shell. Oyster shells, 10 lbs., 25c; 100 lbs., $1.75.

**Cristal Grit**
Not only your large fowls, but your small chickens must have grit. Most so-called chicken cholera is simply indigestion caused by lack of grit with which to grind the food. Large, medium and chick. 10 lbs., 25c; 50 lbs., 90c; 100 lbs., $1.75.

**Charcoal**
This is a most excellent ingredient to mix with mash. 10c per lb.; 1 lb., 25c; 50 lbs., $2.25; 100 lbs., $4.50.

**Milkoline**
The base of MILKOLINE is pure, modified buttermilk, to which essential fats and acids are added. Prove to yourself that you can have bigger, fatter hogs, less disease and make more money from hogs and poultry by feeding MILKOLINE, at a cost of only 2 cents a gallon or less. Prove at our risk that you can guarantee an extra profit from $3 to $10 per hog and increased egg production from your hens. Satisfaction guaranteed or money refunded. Send for booklet.

**Prices**:
5 gal. keg, $7.50; 10 gal. keg, $12.50; 15 gal. keg, $16.50; 32 gal. barrel, $32.00; 55 gal. barrel, $49.50.

---

**MORE EGGS. MORE EGGS.**

**Sturdier Chicks**

**Don't Feed Green Food!**

**GET MORE EGGS BY USING**

**SucculentaTablets**
They are better, cheaper and more relished by all fowl. Simply dissolved one tablet in one quart of drinking water. Succulenta Tablets are not a drug nor a remedy, but a food—wholesome and harmless. They make hens lay: make chicks grow: hasten the moult.

**A Full Egg Basket is Assured**

**Shorter Moult. No Bother**

**Baby Chick Feed**
Buttermilk Starting Food

A ready prepared food for baby chicks, composed of hulled oats, wheat middlings, wheat, corn, prepared Buttermilk, bone, iron, sulphate, gentian root and prepared mustard mixed in the proper proportion. Buttermilk Starting Food supplies Buttermilk to the chicks in dry form with only the water of elimination. Supplies all the needs of the chick—except for grit and fine drinking water—until one week old; then add green food. In the second week begin supplying animal food, also Lincoln Brand Chick feed in litter, to induce exercise and gradually prepare the chicks for the change in feed later on. Feed Buttermilk Starting Food by mixing with small amount of water until crumbly but not pasty or sloppy. 3/4 lbs., 30c; 3 lbs., 60c; 11 lbs., $1.45; 25 lbs., $2.25; 50 lbs., $4.00; 100 lbs., $7.50.

**Lincoln Brand Chick Feed**
This feed we placed on the market several years ago and our trade has continually increased until we now sell it in carload lots. This feed is made of the sweetest and most wholesome cereal grains, with a proper mixture and size and mixed in the proper proportions for the best results for small chickens. Feed this for the first few weeks. Always give your chickens plenty of fresh water. 5 lbs., 25c; 10 lbs., $1.00; 100 lbs., $3.50.
**BIRDS AND SUPPLIES**

The companionship of a bird has brightened the life of many a tired, over-worked mother and whom the daily cares and burdens rested heavily. The music of a good singer makes the whole house more cheerful and every member of the family enjoys the pure, clear notes of a happy little song bird.

We have both Imported and American-bred birds, of selected stock. Our male canaries are guaranteed singers.

**ST. ANDREASBURG ROLLER CANARIES**

These birds are bred in a world-renowned town of Europe where the best canary breeders in the world are located. The St. Andreasburg Canary’s voice is soft, with rolling notes, and is very restful, being an ideal bird for an invalid, and frequently purchased for presents to sick friends. Prices: Guaranteed good singers, Males, good birds, $12.00 each; selected, $15.00 each; extra selected, $20.00 each. Females, $8.00 and $5.00 each.

**HARTZ MOUNTAIN CANARIES**

These birds are imported right from the Hartz Mtn. region in Europe. They are famous for their most popular variety, sure to please. Prices: Guaranteed good singers, Males, good birds, $12.00 each; selected, $15.00 each; extra selected, $20.00 each. Females, $8.00 and $5.00 each.

**PRATT’S POULTRY REMEDIES**

"MONEY BACK IF THEY FAIL"—

**PRATT’S ROUP CURE**

Is a scientific preparation in tablet form, and when dissolved in water is absorbed by the blood and organs, purifying the system, allaying inflammation and reducing the fever. It not only cures, but prevents roup, colds, canker, catarrh and dyspepsia, and should be given to horses, and all farm stock, frequently to keep diseases away. Pratt’s Roup Cure is quite different from many so-called roup cures, which may cure a cold, but never a genuine case of roop. Extra large boxes, 60c; smaller size, 30c; postpaid.

**PRATT’S LICE KILLER**

Powdered Form

It quickly and thoroughly kills all lice on little chicks, big chicks, setting hens and brood hens and chicks. It kills lice, horse, cattle, dogs and cats of lice, and destroys ticks on sheep. It destroys insects and bugs on vines, plants and flowers. A valuable deodorizer and disinfectant for all poultry houses, barns, stables, etc. Drives out moths from closets, furniture, carpets and clothing. 30c and 60c packages, postpaid.

- Pratt’s Gape Remedy, 35c and 70c packages.
- Pratt’s Condition Tablets, 35c and 60c packages.
- Pratt’s Bronchitis Remedy 35c and 60c packages.
- Pratt’s White Diarrhoea Remedy, 30c and 60c packages.
- Pratt’s Chicken Cholera Remedy, 30c and 60c packages.
- Pratt’s Scaly Leg Remedy, 35c and 70c packages.
- Pratt’s Soorehead and Chickenbox Remedy, 35c & 70c pkgs.

- Pratt’s Poultry Regulator. 30c. 60c. $1.20 packages postpaid. 12 lb. pail $4.10. by express.
- Pratt’s Poultry Disinfectant and Lice Killer, 1 qt., 70c. 2 qts., $1.25. 1 gal. $2.00. by express.

**Don Sung**

Don Sung (Chinese for egg laying) is a new scientific discovery for hens that stimulates the egg-laying organs and makes the hen healthy, strong and vigorous. As a result, she lays regularly in any season. Don Sung is easily given in the feed, and costs nothing to try. It doesn't force or hurt the hen in any way. In fact it makes her healthier. It is used by thousands of successful poultry raisers, the world over. Price, 55c. postpaid. Large size, $1.04, postpaid. (Holds three times the 25c size). Special size, $2.50 postpaid; Holds six times the 60c size.)

**CARBOLA**

Carbola is a new mineral pigment combined with a germicidal twenty times stronger than pure carbolic acid, but is absolutely non-poisonous and non-caustic. Carbola is ready the minute you mix it with cold or hot water. It does not spoil by standing, so can be kept on hand for use when convenient or on a rainy day. It does not flake or peel. You apply it with a brush or sprayer. Carbola never clogs the sprayer. It is used by thousands of poultrymen, dairymen and farmers in all sections of the United States and by many experiment stations and agricultural colleges.

Carbola is so easily prepared and applied that you can easily keep your poultry houses, stables, dairies, cellars, etc., thoroughly sanitary and attractive in appearance at all times.

Your money back without an argument if it is not what we claim. If it is not worth the price, we claim.

10 lbs. (10 gals.), $1.35; 20 lbs. (20 gals.), $2.65; 50 lbs. (50 gals.), $6.55, by express or freight.

All prices on this page subject to change. All prices do not include postage, express or freight except where noted.

Rare Investment Opportunity

We are Going to Sell

a limited amount of our non-assessable, cumulative annual interest paying, voting, preferred stock now in our treasury, to net the investor about

7%

The par value of this preferred stock is $100.00 per share, with about two dollars worth of assets behind each dollar of stock and has never before been offered to the public and undoubtedly never will be again as this addition to our capital will be sufficient to meet all purposes.

The seed industry has always been and always will be one of the basic fundamental industries of this country, and we are located in the heart of the seed producing territory of the United States where we have been selling seed for the past thirty years.

Now is the time to consider the safety of your principal by investing in an established conservative business instead of trying to get rich in a minute by investing in new, untried enterprises that promise such large returns and usually end disastrously.

Our business shows a healthy, steady growth from year to year which we expect to further increase by sane, conservative business methods.

For full information as to amount of business done, profits, etc., write us at the address given below as we employ no agents or allow no commission.

Write to us now while this is still fresh in your mind as we are going to sell only a limited amount, or send in your check in multiples of one hundred dollars and we will forward certificate immediately.

Get More Eggs with DON SUNG

TABLETS FOR EGG LAYING

A NEW DISCOVERY

ABSOLUTELY GUARANTEED to put your hens in good health, help them through the moult and make them Lay More Eggs. It has paid thousands of other poultry raisers and will pay you!

Try DON SUNG at Our Risk

We Guarantee "More Eggs or No Pay"
Poultry raisers all over
Don Sung mail

"Before using Don Sung, my chickens were laying from 4 to 6 eggs a day. Then I commenced feeding them Don Sung and they increased to 18 and 20 eggs per day. I have 23 hens in all."—A. C. LEDFORD, Casar, N. C.

"We were getting 1 and 2 eggs a day or about a dozen a week. After using Don Sung for 10 days the egg production increased from 2 a day to 12 and 15 a day."—MRS. BEN KOLLER, Edgemont, S. D.

"Your Don Sung tablets do all that you say they will do. My hens did not lay at all when I received your tablets and I got my first eggs the seventeenth day after I started giving them Don Sung. They have now increased to 11 eggs a day from 23 hens, and below zero weather all the time."—MRS. CHAS. BARTZ, Weyerhauser, Wis.

"I think Don Sung cannot be beat. I started using it the first day of January. I have used it just one month and received 105 eggs from 13 Plymouth Rock hens. I am certainly well pleased."—MRS. VERA STOETZEL, Roseland, Neb.

"Enclosed find money for $1 box of Don Sung. It sure makes hens lay. We have 12 hens and we get 10 eggs a day."—G. H. MOWERY, Lyons, Kans.

"When I commenced to give Don Sung I was getting 1 to 5 eggs a day. Today, in my fourth week, I gathered in 31."—MRS. LOTTIE REXLING, Silvermine, Mo.

"Received my Don Sung and have used it with great success. I was only getting 2 and 3 eggs a day. Now I am getting from 12 to 17 a day."—MRS. L. H. MORRIS, Good Luck, Ky.

"I was only getting 2 eggs a day when I commenced feeding Don Sung. Now, 2 weeks later, I get 25 a day."—MRS. J. E. GERHARD, Malta Bend, Mo.

"Enclosed find $2 for two boxes of Don Sung, one for myself and one for my neighbor. I wasn't getting an egg when I commenced feeding Don Sung. Now I get as high as 62 a day."—LUCY POPP, Magazine, Ark.

"I have 14 hens, and before I began to give Don Sung, I was getting from 1 to 4 eggs per day. Now I get 10 one day and 11 the next day, while the remainder are setting. I have tried all kinds of egg tonics, but this is far ahead of anything that I have tried."—J. P. WHITTINGHILL, Penrose, Ark.
the United States say es hens lay

"I fed a 50c box of Don Sung to my flock of 28 hens that were not laying. But they are laying now. I receive as high as 27 eggs and never less than 22."—MRS. JENNIE DAVIDSON, Yates Center, Kans.

"I have 10 hens and was getting 1 and 2 eggs a day. Since using Don Sung my hens improved so much that I am now getting 7 and 8 eggs a day. I thank you for it, for it is wonderful."—HENRY DAVIS, Newport News, Va.

"I have fed your Don Sung for 9 days and when we began feeding it we were getting 7 eggs a day. The ninth day after feeding we got 29 eggs. Enclosed find check for $5, for which send me $5 worth."—J. W. TAYLOR, Beaver Dam, Ky.

"The Don Sung is all you claim it to be. Am having good success. I was only getting from 1 to 2 eggs a day. Am now getting 12 and 15 a day."—EVA J. SIMONS, Windber, Pa.

"Don Sung is the very best egg tonic I have ever used. Before I began to use it, I was not getting an egg. I used two 50c packages and am getting from 20 to 25 eggs daily."—MRS. CARRIE HARRIS, Chetopa, Kans.

"I find your Don Sung is all you recommend it to be. The first week I fed it I got 70 eggs, the next week 103. Send me $1.50 worth."—J. B. BLANTON, Shelby, N. C.

"When I first got Don Sung my hens were laying only 1 and 3 eggs a day. I was anxious for eggs, so I thought I would try a box of Don Sung, and in two weeks I was getting 9 to 13 eggs a day. And as I think it is O. K., I am sending $6.00 for five $1.00 packages of Don Sung and one $1.00 package of Avicol. I don't want to be without it."—A. C. MILLER, R. R. 1, Morristown, Ind.

"I received treatment of your Don Sung 30 days ago and it is fine. It did just as you said. I have 22 hens and I got 423 eggs in 30 days. I can freely recommend Don Sung to anyone."—WM. JOHNSON, Bainbridge, Ga.

"Don Sung is the best egg-producer I ever used, and I have tried many kinds. I only had 1 hen laying every other day when I commenced on Don Sung, and in one month I had 17 hens laying every day. I have 20 hens in the yard. I know now how to always keep plenty of eggs in the house."—FLOYD F. McMAHON, Lowensville, S. C.
Here's a Sure Way to
Make Hens Lay
And It Costs Nothing to Try

Eggs will undoubtedly be higher in price this year than ever before. If you can keep your hens laying, this is your opportunity to make money.

Don Sung (Chinese for egg laying) is a new scientific discovery for hens that stimulates the egg-laying organs and makes the hen healthy and vigorous. As a result, she lays regularly in any season.

Don Sung is easily given in the feed, and costs nothing to try. It doesn't force or hurt the hen in any way. In fact it makes her healthier. It is used by thousands of successful poultry raisers, the world over.

Try This Test at Our Risk
Take ten hens, separate them from the others and give them Don Sung for one month. Then figure your egg yield. If you don't find that Don Sung has paid for itself and paid you a good profit besides, your money will be refunded without question or argument. A 50-cent package will handle this test.

Certainly this is fair enough. If your hens lay more, you are ahead. If they don't lay, you get your money back. We will take all the risk—we simply ask of you the opportunity to prove our claims. Get Don Sung for your hens today and start them laying. It will pay you.

**Poultry Feeds**

**BUTTERMILK STARTING FOOD**

A ready prepared food for baby chicks, composed of hulled oats, wheat middlings, wheat corn, prepared Buttermilk, bone, iron sulphate, genial poon and other ingredients mixed in proper proportion. Buttermilk Starting Food supplies Buttermilk to the chick in dry form with only the water eliminated. Supplies all the needs of the chick—except for grit and drinking water—until one week old. Then feed Lincoln Brand Chick Feed in litter. Feed Buttermilk Starting Food by mixing with small amount of water to make a crumbly but not pasty or sloppy mixture. 2 lbs., $0.60; 5 lbs., $1.30; 10 lbs., $2.50; 25 lbs., $5.00; 100 lbs., $7.50.

**LINCOLN BRAND CHICK FEED**

This feed is made of the sweetest, purest and cleanest cracked grains and seeds of a uniform size and mixed in the proper proportions for the best results for small chickens. Feed this for the first few weeks only, then give your chickens plenty of fresh water. 5 lbs., $2.50; 50 lbs., $1.90; 100 lbs., $3.50.

**LINCOLN BRAND LAYING MASH**

It consists of six or eight ground grains with a good proportion of meat scraps mixed in the right proportion for eggs. It is highly recommended by the State Poultry Experiment Station. Shall be used before the laying season and kept in a proper of easy access at all times. 5 lbs., $2.50; 25 lbs., $9.00; 100 lbs., $3.75.

**LINCOLN BRAND SCRATCH FEED**

It consists of eight to twelve different kinds of seeds and grains, contains no oyster shell or grit, no waste material. Keep the hens busy with Lincoln Brand Feeds and you will not lack eggs. 5 lbs., $2.50; 50 lbs., $1.75; 100 lbs., $3.25.

## TO MAKE A HOT BED

A hotbed should face the south or southeast, be located on well drained ground and if possible be protected on the north by a building or high fence. 6x10 feet will be large enough for an acre of garden. Sashes are usually 3x6 feet. Dig a trench 2 feet deep, around this place a frame 16 inches high at the back and 8 inches in front. Fill the hole with fresh horse manure that has lain for a week or ten days, tramping it down firmly and covering with 4 inches of fine, rich, black soil. Place the sashes over the frame. After standing a few days lift the sashes to allow the rank heat and steam to pass off; when the temperature has subsided to 90 degrees F. sow the seed. It is best to bank the outside of the frame up to the sash. The hotbed may be all above ground by making a pile of manure 2 feet high, and 3 feet longer, and 2 feet wider than the frame, fill in with black soil and complete as directed for the excavated bed. When plants are nearly ready for outside lift the sashes every pleasant day, gradually hardening off the seedlings. Frame and sash should be stored away at the close of the season and will thus last for years.

## Nickel Plated Milking Tubes

Use for sore and obstructed teats and hard milking cows.

2-inch, 2½-inch, 3-inch long. Price, 35e each; postpaid.

## Calf Dehorner

This comes in the shape of a pencil and is very easily applied. Clip off the hair around the little horn at the time, it feels like a button and before it starts through the skin. Dampen it a little with water, and rub it with the Dehorner material. This causes the horn to stop growing, and should be applied when the calf is from five to ten days old. Enough for 50 or 60 calves, price 75c; postpaid.
